Effective in 2 minutes against C. difficile spores.
- Will not bleach uniforms or fabrics.
- Cuts cleaning time.
- Is a heavy duty disinfectant cleaner that cleans and disinfects in one labor saving step.
- Leaves no visible residue.
- No rinsing.
- Good for use with microfiber cloths.
- May be used to clean and disinfect finished floors. Cleans and disinfects without dulling gloss.
- Do not use on marble or un-sealed/un-coated terrazzo floors.
- This product does not damage furnishings, equipment or clothing.
- Economical concentrate.
- Intended for use with the TRIPLE S Navigator Disinfectant Dilution System.
- Closed loop automated dispensing reduces employee exposure to concentrate product.
- TRIPLE S Navigator Disinfectant Control System makes accurate dispensing quick and easy.
- Designed for daily use on common materials found in hospitals.

Daily use product with Clostridium difficile spore efficacy allows for product standardization and elimination need for bleach. Effective against Multi-Drug Resistant Organisms (MDRO’s) Staphylococcus aureus Resistant to Methicillin (MRSA), Staphylococcus aureus Community Acquired Methicillin Resistant (CA-MRSA), Intermediate Vancomycin Resistance (IVR), Vancomycin Evasive Resistant to Vancomycin (VER), Enterococcus coli Extended-Spectrum Beta Lactamase producing (ESBL), Klebsiella pneumoniae Carbapenemase producer (KPC).

MATERIAL COMPATIBILITY

Finished floors, aluminum, chrome, glazed ceramic tile, laminated surfaces, plastic and painted surfaces, polished nickel finish, stainless steel, vinyl.

NOTE: This product is compatible with the listed materials. If product is intended to be used on any other surface, it is recommended that you apply product to a small test area to determine compatibility before proceeding with full use.

MEDICAL USE SITES

- Assisted Living or Full Care Nursing Homes, Ambulatory Surgical Centers (ASC’s), Critical Care Units (CCU’s), Emergency Rooms (ER’s), Operating Rooms, bedside tables, CAT or Computed Axial Tomography equipment, diagnostic equipment, dialysis machines, hard, non-porous hospital or medical surfaces, plastic and metal surfaces, PVC tubing, shower fixtures, sde rails, toilet handrails, wash basins, wheelchairs.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Hospital/Health Facilities

This product will clean, disinfect and deodorize hard, non-porous hospital and medical surfaces in one step with no rinsing required.

This product is not to be used as a terminal/sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

SPOРИCIDAЛ

This product kills and inactivates spores of Clostridium difficile on hard, non-porous surfaces. This product is effective against Clostridium difficile endospores after a 2 minute exposure time.

SPECIAL INSTRUCTIONS FOR CLEANING PRIOR TO DISINFECTION AGAINST CLOSTRIDIUM DIFFICILE SPORES

Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks or eye covering. Contact Time: Leave surface wet for 2 minutes with 4 fluid ounces per gallon use solution.

Cleaning Procedure: Facial matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with a clean cloth, mop, and/or sponge saturated with the disinfectant product. This cleaning may be accomplished with any cleaning solution, including this product. Cleaning is to be vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and up to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soiled cloths.

Infectious Materials Disposal: Materials used in the cleaning process that may contain fecal/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

DISINFECTION IN INSTITUTIONS: Hospitals, Nursing Homes, and Other Health Care Institutions: At 4 fluid ounces per gallon of water and in the presence of 5% blood serum and 400 ppm hard water with a 2 minute contact time, this product is effective against the following organisms on hard non-porous inanimate surfaces: Community Acquired Methicillin Resistant Staphylococcus aureus (CA-MRSA), MRSA 300 NIRS-354, Enterococcus coli, Enterococcus faecalis resistant to Vancomycin (VER), Enterococcus coli Extended-Spectrum Beta Lactamase producing (ESBL), Klebsiella pneumoniae, Klebsiella pneumoniae Carbapenemase producer (KPC), Staphylococcus aureus, Enterococcus faecalis Intermediate Resistant Staphylococcus aureus VISA HFP 5938, Vancomycin Resistant Enterococcus faecalis (VRE).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS

Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable gloves, gowns, masks and eye coverings.
