TRILOGY TAB

Protects against bacteria and algae
Sanitizes pool water
Restores clarity to pool water

ACTIVE INGREDIENTS:
TRICHLORO- S-TRIAZINETRONE ........................................ 57.5%
COPPER SULFATE PENTAHYDRATE* .................................. 1.5%
OTHER INGREDIENTS ............................................................ 0.5%
TOTAL ................................................................. 69.5%
AVAILABLE CHLORINE ...................................................... 84%
* Metallic copper equivalent 0.38%

KEEP OUT OF REACH OF CHILDREN
DANGER
Combustion or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If handled in contact with small amounts of water, it can result in a release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your pool, or add over a 5 min. period to other compartment devices that water is not more than this minute if it contains a tablet or tablet release.
See back panel for Precautionsary and Final Dilutions

NET WEIGHT 22.5 LBS. (10.2 KG)
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

METHOD OF APPLICATION: Use in a floating dispenser, automatic chlorinator or feeder designed for this product, or place in skimmer.
Do not allow this product to get damp or wet before use. Do not allow this product to contact other water treatment products. Use in a new chlorinating device or any device that has previously contained only this product or chlorine-di-chloroacetic acid.
DO NOT Use in floaters or feeders that have been used with other water treatment products. Make sure skimmer is completely clean and free of residual from other water treatment products before putting this product in the skimmer.
DO NOT Throw tablets directly into pool.
DO NOT Permit tablets to contact plastic pool liners or metallic objects.
DO NOT Use with any other tablets or sticks in the same skimmer, floaters, or feeders.
DO NOT Use in any chlorinating device which has been used with other chlorinating compounds.
DO NOT Use bare hands when handling product.
DO NOT Mix with other products or dissolve during use.
DO NOT Pre-mix this product. Only add this product directly to your pool.

WATER BALANCE: To provide optimum product performance, swimmer comfort and crystal clear water always maintain pH from 7.2 to 7.6, total alkalinity from 30 to 120 parts per million (ppm), and calcium hardness above 200 ppm. Test frequently using a test kit that measures all these ranges. Make any necessary adjustments promptly with the appropriate Quantum® Biochemical pool care products. Re-entry into treated pool is prohibited with chlorine levels above 4 ppm for risk of bodily injury.

ROUTINE CHLORINATION:
Add one tablet per 10,000 gallons of pool water every week or as often as needed to maintain desired residual. Follow "METHOD OF APPLICATION". This dosage may vary depending upon bather load, water temperature and other conditions. Pool must not be entered until chlorine residual is 1-4 ppm as measured with a reliable test kit.

SHOCK TREATMENT:
As a preventative treatment, you must shock treat your pool once per week to prevent pool problems. To do this, use the shock treatment product of choice. It is suggested that you use Quantum® Shock II. Follow package directions. Shock treat weekly with a product such as Quantum® Biochemical Shock II to kill bacteria, control algae, and prepare organic material to keep water sparkling clear. Follow label directions.

ALGAE CONTROL: If pool surface develops algae or feels slippery, follow shock treatment directions immediately after shock treatment, thoroughly clean pool by scrubbing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the procedure. Pool must not be entered until chlorine residual is 1-4 ppm.

OPENING YOUR POOL: Balance pool water, shock treat, and stabilize your pool using Quantum® Biochemical Stabilizer. Then follow "ROUTINE CHLORINATION" directions.

PRECAUTIONARY STATEMENTS:
HANDBOOKS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye burns and skin irritation. May be fatal if inhaled. Harmful if swallowed.
Do not get in eyes, on skin or on clothing. Wear safety goggles or face shield, and rubber gloves when handling this product. For additional skin protection, wear long sleeves and long pants. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Open in a well-ventilated area. Do not breathe dust or vapor. Remove and wash contaminated clothing before reuse.

FIRST AID:
 IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes. Then continue rinsing. Call a poison control center or doctor for treatment advice.
 IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
 IF INHALED: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.
 IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: Probable maximal damage may be inflicted to the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-8911

PHYSICAL AND CHEMICAL HAZARDS:
DANGER: Product is exposed to small amounts of water. It can cause fire, explosion, or the release of toxic gases. Do not mix with other water treatment products, cause fire, explosion, or the release of toxic gases. Keep all foreign material, including other water treatment products, from this product. Do not use this product in a floater or feeder that has been used with any other product. Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residual from other water treatment products before putting this product in the skimmer. Keep out of reach of children.

EMERGENCY HANDLING: In case of contamination or decomposition — Do not reacquaint. Immediately remove container to an open and well-ventilated area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

STORAGE AND DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. If not, discard in trash. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.
