**TRILOGY TAB**

Products against bacteria and algae

Restores clarity to pool water

**ACTIVE INGREDIENTS:**

TRILOGY TAB®

Restores clarity to pool water

This pesticide is toxic to fish. Use only in a well-ventilated area. Keep out of reach of children. Do not breathe dust or vapor. • Remove and wash contaminated clothing. Rinse skin immediately with water for 15-20 minutes. Remove contact lenses, hold eye open and rinse slowly and gently with water for 15-20 minutes. If irritation develops, consult a physician.

**METHOD OF APPLICATION:**

Use in a floating dispenser, automatic chlorinator or feeder designed for use with Quantum® Biochemical Q-Shock II. Do not use in a new pool. Before use, do not allow this product to contact other chlorine products, away from this product. • Do not allow to become wet or damp before use. • Do not remove floater or other dispensing device from water. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue.

**DO NOT**

Pre-mix this product. Only add this product in the skimmer. • Strong oxidizing agent. This product can cause burning, severe respiratory irritation, severe eye burns and swelling. In case of contact with eyes, wash immediately with large amounts of water. • Do not remove floater or other dispensing device from water. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue.

**DO NOT**

Do not allow this product to contact plastic pool linings or metal objects. Permit tablets to contact plastic pool linings or metal objects. • Do not breathe dust or vapor. • Remove and wash contaminated clothing. Rinse skin immediately with water for 15-20 minutes. Remove contact lenses, hold eye open and rinse slowly and gently with water for 15-20 minutes. If irritation develops, consult a physician.

**DO NOT**

Use in any chlorinating device which has been used with other chlorinating compounds. Use in a new skimmer, floater, or feeder. • Do not get in eyes, on skin or on clothing. Wear long sleeves and long pants. • Wash thoroughly with soap and water after handling this product. • Do not remove floater or other dispensing device from water. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue.

**DANGER:** Corrosive. Causes irreversible eye burns and severe eye irritation. • Do not remove floater or other dispensing device from water. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue.

**PHYSICAL AND CHEMICAL HAZARDS:**

When mixed with water, it can react to cause explosion or the release of flammable or toxic gas or vapor. Use in a new skimmer, floater, or feeder. • Do not get in eyes, on skin or on clothing. Wear long sleeves and long pants. • Wash thoroughly with soap and water after handling this product. • Do not remove floater or other dispensing device from water. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue.

**ENVIRONMENTAL HAZARDS:**

This pesticide is toxic to bees. Bees exposed to pesticides that affect the central nervous system are unable to work properly, not only while exposed but also after the pesticide exposure has ended. Bees that are unable to work are unable to collect nectar and pollen, to feed the larvae, and to build, care for, and defend the colony. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. If pool surface develops algae or resulting green color and slimy feeling. Before use, do not allow this product to contact other chlorine products, away from this product. • Do not allow to become wet or damp before use. • Do not remove floater or other dispensing device from water. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue.

**WATER BALANCE:**

40562A

80 to 120 parts per million (ppm), and calcium hardness above 200 ppm. Test frequently using a test control center or doctor for further treatment advice. Have person sip a liquid water solution preferably by mouth if possible. • Do not give anything by mouth to an unconscious person.

**BALANCE pool water, shock pool before use. Do not allow this product to contact plastic pool linings or metal objects. Permit tablets to contact plastic pool linings or metal objects. • Do not remove floater or other dispensing device from water. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue. • Can react with other water treatment products. If product is exposed to small amounts of water for more than five minutes if it contains a tablet or tablet residue.

**FIRST AID**

If swallowed, call a poison control center or doctor, or go for immediate medical attention. If inhaled, get into fresh air. If not breathing, give artificial respiration. • Open in a well-ventilated area. Do not breathe dust or vapor. • Remove and wash contaminated clothing. Rinse skin immediately with water for 15-20 minutes. Remove contact lenses, hold eye open and rinse slowly and gently with water for 15-20 minutes. If irritation develops, consult a physician.

**STORAGE AND DISPOSAL:**

Nonrefillable container. Do not reuse or refill this container. Do not incinerate. • Use the usual techniques to keep these materials from entering sewers or surface water. • Do not contaminate water, food, or feed by storage or disposal. • Do not contaminate water by discharge through any drain system.

M & M INDUSTRIES     8 PMS spot color capability     SIDEWALL Template     2.5 GALLON Lite Latch

Sanitizes pool water
Protects against bacteria and algae

PROPER USE:

Commercial aquatic environments
Open pool

ROUTINE CHLORINATION:

Use in any chlorinating device which has been previously cleaned and conditioned.

DO NOT

Pre-mix this product. Only add this product directly to your pool.

DO NOT

Use bare hands when handling product.

DO NOT

Use in floaters or feeders that have been used with any other product.

DO NOT

Use in any chlorinating device or any device which has previously been used with chlorine tablets or sticks in the skimmer.

DO NOT

Add water to this product. Add only this product to the pool water.

DO NOT

Do not allow this product to get damp or wet. Do not allow this product to freeze. Do not allow this product to come in contact with other water treatment products.

Do not allow this product to come in contact with other water treatment products. Make sure to dissolve all material prior to disposal.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

PENDING 7/19/18

M & M INDUSTRIES   8 PMS spot color capability   SIDEWALL Template   2.5 GALLON Lite Latch

This pail does not need a child warning label.

EMERGENCY HANDLING:

In case of contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to come in contact with other water treatment products. Make sure to dissolve all material prior to disposal.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

PRECAUTIONARY STATEMENTS

Storage and Disposal:

This product was manufactured by Arch Chemicals, Inc. and is a registered trademark of Arch Chemicals, Inc.

Manufactured for:

Arch Chemicals, Inc.

P.O. Box 2769

Stamford, CT 06906

Note to Physician:

Probable mucosal damage may occur if splashed into the eyes or on the skin. If present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

If swallowed, rinse out mouth and then drink a large amount of water. Do not induce vomiting. Call a poison control center or doctor for further treatment advice.

If inhaled, remove from atmosphere and get fresh air. If necessary, give artificial respiration. Call a doctor.

If contact with skin occurs, wash thoroughly with soap and water. Avoid breathing dust. Call a doctor.

Keep out of reach of children. Do not store near food or food stuffs. Do not use in or around fish ponds.

This product is hazardous to people, pets and fish and aquatic organisms.

Shelf life 24 months from manufacture date, which is shown on the barrel and the box. The barrel is labeled with date the lot was manufactured in the plant.

**TRILOGY TABS**

Products against bacteria and algae

Bactericidal to your water

**ACTIVE INGREDIENTS:**

- Trichloro-s-triazinetrione: 93.5%
- Metallic copper equivalent: 0.38%

- Sanitizes pool water
- Protects against bacteria and algae

**METHOD OF APPLICATION:**

DO NOT pre-mix this product. Only add this product before use.

**WATER BALANCE:**

DO NOT use with other chlorinating compounds.

**ALGAE CONTROL:**

Quantum® Biochemical Q-Shock II to kill bacteria, to control algae, to burn out organic material and to keep resulting green color and slimy feeling.

**SHOCK TREATMENT:**

Add one tablet per 10,000 gallons of pool water every 3 days or as needed to remedy problems which may occur when bather load, water temperature and other conditions vary depending upon bather load, water temperature.

**ROUTINE CHLORINATION:**

Follow "METHOD OF APPLICATION". This dosage may be added to the layout to extend past opening your pool.

**EMERGENCY HANDLING:**

IF INHALED:

- Get to fresh air immediately.
- Call a poison control center or doctor if you feel uncomfortable or believe you might have been exposed.

IF ON SKIN OR CLOTHING:

- Wash skin and clothes with soap and water for 15-20 minutes. Remove contact lenses, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contaminated clothing and wash immediately.
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contaminated clothing and wash immediately.
- Wash with soap and water for 15-20 minutes. Remove contaminated clothing and wash immediately.
- Wash with soap and water for 15-20 minutes. Remove contaminated clothing and wash immediately.

**FOR DISPOSAL OF A CONTAMINATED OR IMPROPERLY USED CONTAINER:**

Immediately flood the container and任何 exposed contaminated material in an approved landfill area. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

**STORAGE AND DISPOSAL:**

- Keep this product dry in its tightly closed container.
- Keep this product dry in its tightly closed container.
- Store in a cool, dry, well-ventilated area.
- Keep away from heat or open flame.
- Do not reseal container.
