AXELA™
FOR CONTROL OF SNAILS AND SLUGS
A soil surface treatment for control of snails and slugs around ornamentals, small shrubs &berries, citrus, alfalfa, vegetable crops and grass grown for hay. For more information visit www.axela.com.

AXELA products are an effective metabolite containing tank application which are readily ingested by pests, especially by snails belonging to the genera

C. nocturna, A. cernuum, D. crenatae, D. quadrinerve, N. obtusata, H. subvittatus. After feeding, by licking the treated surfaces. Snails and slugs are immobilized. Death follows by washing the snail carrying- 

massive excretion of water. Snails will not rehydrate or respond to application during damp dry weather when snails are most active but will react if the weather is dry. 

EPA Reg. No. 6936-350
EPA Est. No. 30663-CH-2-2
