**NOTICE TO SELLERS/RETAILERS**

The terms of this LIMITED WARRANTY AND DISCLAIMER cannot be varied by any written or oral statement, representation, or understanding. Use and storage of this product must conform to applicable laws and regulations. If these terms are not acceptable, return this product.

**LIMITED WARRANTY AND DISCLAIMER**

If in eyes:

- First Aid:
  - Call a poison control center or doctor for treatment advice.

Environmental Hazards

This product is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Do not apply directly to water, to areas where surface water is present, or to areas below the mean high water mark. Do not apply to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsate.

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**PRECAUTIONS AND RESTRICTIONS**

Do not pour or flush any pesticide mixture from the treated area until dusts have settled. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only permitted handlers may be in the area during application.

**WHERE TO USE:**

TURFGRO Surge® Broadleaf Herbicide is a TurfGro broadleaf herbicide containing 2,4-D, 2,4,5-T, mesotrione and sulfentrazone. This product is dried in a way that allows spraying the 2,4-D and mesotrione portions of the mixture, which contain a small amount of surfactant. The product formulation used for this product is not intended to be applied to ornamental turfgrasses that are not tolerant to 2,4-D. This product may be applied to established warm season turfgrasses. Treatments should be delayed until 3 to 4 weeks after the sodding, sprigging, or plugging operations, and the application rate (1/2% of the recommended rate for established turfgrass) are suggested.

**DISTRIBUTION AND SPREADER PATTERNS**

Apply to a target turfgrass species. Apply this product shortly after planting, mowing or before or after a grass establishment product is applied. Do not apply to any non-targeted species that may be present and actively growing.

**USE PRECAUTIONS**

Do not use this product on dicotyledons, grasses, caryophyllales, or turf containing desirable clovers.

Do not use this product on newly seeded grasses until well established or after the third mowing.

Do not use this product on flowers, vegetables, groundcovers, grasses, or landscape plants including shrubs and trees. Do not use this product on or near desirable species within 200 feet of treated areas.
