DOSE AND APPLICATION:
- Spring and fall applications are suitable for the best control. However, TURFGRO Fertilizer with Broadleaf Herbicide can be applied at any time broadleaf weeds are susceptible. Do not apply this product more than once in a calendar year.
- The turfgrass is 12 to 21 days before application.
- Water the turfgrass throughly (1/4 to 1/2 inch) 2 days before application.
- Be sure the soil is dry and not compacted to 4 inches before application.

APPLICATION DIRECTIONS:
- Beware of wind, rain, or high humidity within 12 hours of application.
- Use this product on the lawn, lawn areas, and in most areas for the control of weeds.
- Do not store this product unopened immediately to the point of purchase, and the purchase price will be refunded in full.

WEEDS CONTROLLED:
- In a forest of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL:
- Do not contaminate water, food, or feed by leaking or discharging.
- Store grain in original containers and keep legs covering unused portions of the product to prevent exposure to moisture or other contaminants.

LIMITED WARRANTY AND DISCLAIMER:
- For use only as directed to the extent consistent with applicable law, the manufacturer does not make any express or implied warranties, including any warranty of merchantability or fitness for a particular purpose, concerning the use of this product. Any information supplied by the manufacturer is accurate to the extent consistent with applicable law. In no case shall the manufacturer be liable for incidental, special, or consequential damages resulting from failure to comply with this label. Use with caution, as dictated by local laws and regulations.
