EasyDECON Part 1

For use as a Disinfectant, Mildewstat, Virucidal*, Deodorizer for Hospitals, Nursing Homes, Homes, Hotels & Motels, Industrial, Institutional, Schools, Poultry/turkey, Farm, and Harvesting Equipment. Only for use when added to EasyDECON Part 2 [EPA Reg. No. 74436-2].

ACTIVE INGREDIENTS:
- n-Alcohol (C12-16) and N,N-dimethylenediamine chloride, 3.29%

INERT INGREDIENTS:
- 95.81%

TOTAL:
- 100.00%

EPA Reg. No. 74436-1
EPA E01 No. 85050-001

KEEP OUT OF THE REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE: Causes skin burns. Causes substantial but temporary eye injury. Harmful if swallowed or inhaled. Do not get in eyes, on skin, or on clothing. Wear goggles, face shield, or safety glasses. When mixing and loading, wear a chemical-resistant apron. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the restroom. Remove and wash contaminated clothing before reuse.

FOR EMERGENCY MEDICAL INFORMATION CALL TOLL FREE: 1-800-429-9390

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against shock, respiratory depression, and convulsion may be needed. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that is (1) introduced directly into the human body, either into or in contact with the bloodstream or normal/sterile areas of the body or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normal sterile areas of the body. This product may be used to pre-clean or disinfect contaminated critical or semi-critical medical devices prior to sterilization or high-level disinfection.

ADDED PRECAUTIONARY STATEMENTS FOR FINISHED BLENDS:
If inhaled, move to fresh air. If breathing stops, consider oxygen, get medical attention. Give rescue breathing if breathing stops, get medical attention.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

TO PREPARE AND USE FINISHED BLEND

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Mixing and Usage Instructions: DO NOT MIX IN METAL CONTAINERS

Pour the complete contents of the EasyDECON Part 1 [EPA Reg. No. 74436-1] container into the mixing container (plastic or glass), large enough to hold both components when completely mixed. Add the complete contents of the EasyDECON Part 2 [EPA Reg. No. 74436-2] container into the mixing container holding the EasyDECON Part 1 [EPA Reg. No. 74436-1] and stir the solution until it is well mixed (15-20 seconds). The mixture is now ready to apply.

WHEN USING THE OPTIONAL BOOSTER: Pour the complete contents of the EasyDECON Part 1 [EPA Reg. No. 74436-1] container into a mixing container (plastic or glass), large enough to hold all three components when completely mixed. Add the complete contents of the EasyDECON Part 2 [EPA Reg. No. 74436-2] container into the mixing container holding the EasyDECON Part 1 (EPA Reg. No. 74436-1) and stir the solution until it is well mixed (15-20 seconds). Add the complete contents of the Booster container into the mixing container holding the EasyDECON Part 1 (EPA Reg. No. 74436-1) and EasyDECON Part 2 (EPA Reg. No. 74436-2) and stir the solution until it is well mixed (15–20 seconds). The mixture is now ready to apply.

Contact time for contaminated surfaces: After using one of the above methods to apply the mixture, keep the surfaces wet for 10 minutes. The mixture must be reapplied if it dries out or becomes diluted by any liquid during the 10 minute contact time.

This product is bactericidal according to the AOAC Use Dilution Test method on hard inanimate surfaces with a 10 minute contact time:
- Staphylococcus aureus (ATCC 6538), Escherichia coli O157:H7 (ATCC 35150)
- Salmonella enterica (ATCC 10708), Pseudomonas aeruginosa (ATCC 15442), Staphylococcus aureus MRSA (Methicillin resistant) (ATCC 33592)

Fungicidal against:
- Aspergillus niger (ATCC 16404), Penicillium digitatum (ATCC 90595)

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable mouth to mouth, if possible. Call poison control center or doctor for further treatment advice.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, AND FEED BY STORAGE OR DISPOSAL

Product should be kept in the original container in a cool dry area not susceptible to UV light. Sealed containers exposed to fire may burst. Do not store in metal containers. Store product container in an upright position, Avoid creating or impacting of spills.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Incomplete disposal of excess pesticide, spray, or mixture of rinseate is a violation of Federal Law. If these wastes cannot be disposed of by user according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:
For containers ≤ 5 gallons. Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container half full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

For containers > 50 gallons. Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or tank mix. Fill the container about 10% full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinseate into application equipment or rinseate collection system. Repeat this rinsing procedure two more times.

ENVIRONMENTAL HAZARDS: For small spills, flush with copious amounts of water. Keep out of water supplies.

Manufactured For:
ETT Holdings, Inc.
1275 Rock Creek Circle
Lafayette, CO 80026

Net content: 2.5 US Gallons
Lot Number: __________

*Virucidal performance: The final mixture treated according to the Virucidal qualification on hard inanimate surfaces, modified in the presence of 5% organic serum against the following with a 10 minute contact time: Murine Norovirus Hепatitis A Feline calicivirus (Agency's acceptable surrogate for human norovirus) Rhino Virus 16 HIV type 1 (AIDS virus)

Disinfection/Virucidal/Fungicidal Directions: Apply the mixture at a rate of 1 gallon per 30,000 cubic feet (1L/225m³) to hard, inanimate, non-porous surfaces, thoroughly wetting the surface as recommended and required, with a cloth, mop, sponge, or sprayer. For heavily soiled areas, a preliminary cleaning is required. For spray applications, use a coarse spray device. Spray 6 to 8 inches from the surface. Do not breathe the spray. All treated areas must stay wet for at least 10 minutes.

Before using this product, food products and packaging materials must be removed from the room or carefully protected. After use, all surfaces in the area must be thoroughly rinsed with potable water. Prepare a fresh solution every 6 hours or when the mixture becomes soiled.

*KILLS HIV-1 ON PRECLEANED ENVIRONMENTAL SURFACES PREVIOUSLY SOILED WITH BODY FLUIDS: in health care settings or other settings in which there is an expected likelihood of soiling of contaminated surfaces with body fluids and in which the surfaces likely to be soiled with blood or other body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1 associated with AIDS), follow these SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES SOILED WITH BLOOD/BODY FLUIDS:

Personal Protection: Clean up always be done wearing protective latex gloves, gowns, masks and eye protection. (Specific barrier protection items to be used when handling items soaked with blood or body fluids as disposable latex gloves, gowns, masks or eye coverings.)

Cleaning Procedure: Blood and other body fluids containing HIV-1 must be thoroughly cleaned from surfaces and other objects before applying this product. Disposal of infectious materials: Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

Contact Time: Keep all surfaces to be disinfected wet for 10 minutes with the mixture.
