EasyDECON Part 2

For use as a Disinfectant, Mildewstat, Virucide®. Described for Hospitals, Nursing Homes, Hotels & Motels, Industrial, Institutional, Schools, Poultry/turkey, Farm, and Harvesting Equipment. Only use when added to EasyDECON Part 1 (EPA Reg. No. 74436-1).

ACTIVE INGREDIENTS:
Hydrogen Peroxide .................................................... 7.98%

INERT INGREDIENTS .................................................................. 92.02%

TOTAL ......................................................................................... 100.00%

EPA Reg. No. 74436-2 EPA Est. No. 85056-CD-001

KEEP OUT OF THE REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE: Can cause irreversible eye damage. Harmful if swallowed or inhaled. Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or spray mist. Wear protective clothing such as safety goggles, chemical resistant gloves, wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using the toilet, or using tobacco. Remove and wash contaminated clothing before reuse.

FOR EMERGENCY MEDICAL INFORMATION CALL TOLL FREE:
1-800-424-5300

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. NOTE TO PHYSICIAN: Probable mucosal damage may contaminate the use of gastric lavage. Measures against shock, respiratory depression, and convulsion may be needed. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either in or in contact with the bloodstream or normally sterile areas of the body or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normal sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

ADDED PRECAUTIONARY STATEMENTS FOR FINISHED BLENDS:
If inhaled, move to fresh air. If breathing becomes labored consider oxygen, get medical attention. Give rescue breathing if breathing stops, get medical attention.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable mouth to mouth, if possible. Call poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, AND FEED BY STORAGE OR DISPOSAL

Product should be kept in the original container in a cool dry area not susceptible to UV light. Sealed containers exposed to fire may burst. Do not store in metal containers. Source product containers in an upright position. Avoid creasing or imparting of sidewalls.

PESTICIDE DISPOSAL: Pesticide wastes are usually hazardous. Improper disposal of excess pesticide, solvents, or mixtures of residue is a violation of Federal Law. If these wastes cannot be disposed of by user according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:
For containers ≤5 gallons. Non-refillable containers. Do not re-use or re-fill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container full with water and recirculate. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. For containers ≥50 gallons. Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or tank mix. Fill the container about 10/2 full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinse into application equipment or rinse collection system. Repeat this rinsing procedure two more times.

ENVIRONMENTAL HAZARDS:
For small spills, flush with copious amounts of water. Keep out of water supplies.

*Crucial performance: The final mixture treated according to the Viscudial qualification on hard inanimate surfaces, modified in the presence of 5% organic serum against the following with a 10 minute contact time:

- Marne Norovirus
- Hepatitis A
- Feline calicivirus (Agency's acceptable surrogate for human norovirus)
- Rhino Virus 16
- HIV type 1 (AIDS virus)

Disinfection/"Crucial"/Fungicidal Directions: Apply the mixture at a rate of 1 gallon per 30,000 cubic feet (11/225gal) to hard, inanimate, non-porous surfaces, thoroughly wetting the surface as recommended and required, with a cloth, mop, sponge, or sprayer. For heavily soiled areas, a preliminary cleaning is required. For spray applications, use a coarse spray device. Spray 6 to 8 inches from the surface. Do not breathe the spray. All treated areas must stay wet for at least 10 minutes. Before using this product, food products and packaging materials must be removed from the room or carefully protected. After use, all surfaces in the area must be thoroughly rinsed with potable water. Prepare a fresh solution every 6 hours or when the mixture becomes soiled.

*Kills HIV-1 on PRECLEANED ENVIRONMENTAL SURFACES PREVIOUSLY SOILED WITH BODY FLUIDS: In health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces with body fluids and in which the surfaces likely to be soiled with blood or other body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1 associated with AIDS), follow these SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES SOILED WITH BLOOD/BODY FLUIDS:

- Personal Protection: Cleanup must always be done wearing protective latex gloves, goggles, masks and eye protection. (Specific barrier protection items to be used when handling items soiled with blood or body fluids as disposable latex gloves, goggles, masks or eye coverings.)

- Cleaning Procedure: Blood and other body fluids containing HIV-1 must be thoroughly cleaned from surfaces and other objects before applying this product.

- Disposal of Infectious materials: Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

Contact Time: Keep all surfaces to be disinfected wet for 10 minutes with the mixture.

TO PREPARE AND USE FINISHED BLEND

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Mixing and Usage Instructions: DO NOT MIX IN METAL CONTAINERS

Pour the complete contents of the EasyDECON Part 1 (EPA Reg. No. 74436-1) container into a mixing container (plastic or glass), large enough to hold all three components when completely mixed. Add the complete contents of the EasyDECON Part 2 (EPA Reg. No. 74436-2) container into the mixing container holding the EasyDECON Part 1 (EPA Reg. No. 74436-1) and stir the solution until it is well mixed (15-20 seconds). The mixture is now ready to apply.

Pour the complete contents of the EasyDECON Part 1 (EPA Reg. No. 74436-1) container into a mixing container (plastic or glass), large enough to hold all three components when completely mixed. Add the complete contents of the EasyDECON Part 2 (EPA Reg. No. 74436-2) container into the mixing container holding the EasyDECON Part 1 (EPA Reg. No. 74436-1) and stir the solution until it is well mixed (15-20 seconds). Add the complete contents of the Booster container into the mixing container holding the EasyDECON Part 1 (EPA Reg. No. 74436-1) and EasyDECON Part 2 (EPA Reg. No. 74436-2) and stir the solution until it is well mixed (15 – 20 seconds). The mixture is now ready to apply.

Contact Time for contaminated surfaces: After using one of the above methods to apply the mixture, keep the surfaces wet for 10 minutes. The mixture must be reapplied if it dries out or becomes diluted by any liquid during the 10 minute contact time.

This product is Bactericidal according to the AOAC Use Dilution Test method on hard inanimate surfaces with a 10 minute contact time:

- Staphylococcus aureus (ATCC 6538), Escherichia coli 0157:H7 (ATCC 35510)
- Salmonella enterica (ATCC 10708), Pseudomonas aeruginosa (ATCC 15442), Staphylococcus aureus MRSA (Methicillin resistant) (ATCC 35592)

Fungicidal against:
- Aspergillus Niger (ATCC 16404), Penicillium digitatum (ATCC 90959)

Manufactured for:
EFT Holdings, Inc.
1270 Rock Creek Circle
Lakewest, CO 80024

Lot Number:

2.5 US Gallons
