EPA Reg. No. 88050-2

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION
Harmful if swallowed. Wash hands thoroughly with soap and warm water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet.

FIRST AID
If Swallowed: • Call a poison control center or doctor immediately for treatment advice.
• Have a person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything to an unconscious person.

If in Eyes: • Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, and then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

If on Skin: • Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

If Inhaled: • Move person to fresh air.
• If person is not breathing call 911 or an ambulance then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for treatment advice.

HOTLINE NUMBERS: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency medical treatment call 1-800-255-3924. For customer service or to obtain product information, including the MSDS, call 1-800-542 8916 or 1-816 233 9533.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on the label.
30 Capsules Designed Exclusively For Use With
0.338 fl. oz. (10ml) each

An Innovative Insecticide Delivery System

Do not contaminate water, food or feed by storage or disposal.

Pesticide Disposal: Pesticide wastes are hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Non-refillable container. Do not re-use or refill any parts of this container. Offer for recycling, if available. Puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Pesticide Storage: Store under conditions where relative humidity is kept between 30% and 50% and temperatures are maintained between 40°F and 70°F. If required, store in a cooler or refrigerator that is used exclusively for animal health products. Ensure the capsules are never exposed to freezing temperatures during storage, transport or use. If inadvertently exposed to high heat and humidity, the capsules can normally be restored to its original condition by placing them for 24 to 72 hours in cool & dry conditions where relative humidity is between 26% and 30% and temperatures do not exceed 70°F. Store in such a manner as to prevent cross contamination with other products, fertilizers, food and food. Store in original container and out of reach of children, preferably in a locked storage area.

NOTE: The capsule coating is soft gel and sensitive to ambient humidity. Do not expose to relative humidity above 50% or temperatures above 70°F for any extended period, such as 1 - 3 hours, or this may affect the level of capsule fragmentation. Remove the capsules from container only when ready to apply onto the animals and keep containers sealed at all other times. Handle the container and capsule in a manner so as to prevent damage to the capsules. If the capsules or container are leaking or material spilled on any material or cause, carefully clean up spilled material to prevent runoff. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Absorb spilled material with absorbing type compounds and dispose as directed for pesticides above.

Conditions of Sale: The directions on this label are believed to be adequate and must be followed carefully. This product has been tested under normal environmental conditions similar to those that are customary for use of the product. However, it is impossible to eliminate all risks associated with the use of this product. Failure to follow label directions may cause injury to animals, humans, or damage to the environment. Insecticide control of pests, injury or any unintended consequences may result because of such factors as weather conditions, presence or absence of other materials, or the manner of use or application, all of which are beyond the control of SmartVet USA, its agents, affiliates or assigns. To the extent consistent with applicable law, all such risks shall be assumed by the user or buyer.

Limited Warranty and Limitation of Damages: SmartVet USA warrants that this material conforms to the chemical description on the label. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, SmartVet USA MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL, and no agent of SmartVet USA is authorized to make or modify any warranties beyond those contained herein. Any damages arising from breach of this warranty shall be limited to direct damages and shall not include special, incidental or consequential damages resulting from the use or handling of this product.

In the field do not remove the capsules from container until ready to apply. For best results transport the capsules in original sealed packaging and in a cooler up until loading into Application Device. Apply only with a SmartVet™ Approved VetCap Application Device (sold separately) and in accordance with its use directions and treatment method recommendations. Never leave the capsules in any Application Device - return all unused capsules to original container and store as directed above. Only apply when animal is between 15 feet and 30 feet distant from the user. Do not apply treatment when bystanders are within 30 feet of the animal. Do not apply to animals in or within 10 feet of bodies of water. Do not leave intact capsules in the field. Do not allow farm dogs or other farm animals to come into contact with the pesticide or residues.

AIM-L is designed for use only with a compatible applicator device that carries the 'SmartVet™ Approved VetCap Application Device' label. Using any other application device/device or method could be unsafe, ineffective and/or cause harm or injury.

How to Apply: Apply the capsules to the middle of the side of the animals' body anywheren between the front shoulders and 6 inches ahead of the base of the tail.

Amount to Use: Apply AIM-L at the dosages shown on the following table. Care must be taken to apply the correct dosage.

<table>
<thead>
<tr>
<th>Animal Weight</th>
<th>Dosage (ml)</th>
<th>Number of Animals treated</th>
</tr>
</thead>
<tbody>
<tr>
<td>Greater than 600 lbs</td>
<td>1 Capsule (10 ml)</td>
<td>30</td>
</tr>
</tbody>
</table>

AIM-L can be used on beef cattle of all ages provided they are greater than 600 lbs. Treatment for flies can be repeated as needed but not more often than once every 2 weeks and do not apply more often than four times within any 6-month period. For optimal lice control, an initial application followed by a second treatment 2 weeks later is recommended. AIM-L does not control cattle grubs.
CAUTION

Store in cool dry place.

Remove AIM-L Capsules from container only when ready to apply.
Do not expose AIM-L Capsules to relative humidity above 50% or temperatures above 70F for extended periods, or this may affect the level of capsule fragmentation.

(Read storage instructions and directions for use carefully).
