PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Harmful if absorbed through the skin. Avoid contact with eyes, skin or clothing.

Do not smoke, eat or drink when handling. Do not store with foods, feeds, drugs or clothing. Keep container tightly closed when not in use. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, smoking, using the toilet, or using the baking oven. Wash and remove all contaminated clothing before re-use. Do not contaminate water, food, or by feed or storage disposal.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic organisms. Do not contaminate water by drainage of equipment or disposal of residues. Do not discharge efficient containing this product into lakes, streams, ponds, aquaculture, sewage or other waterways unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Control or Regional Office of the EPA.

CHEMICAL AND PHYSICAL HAZARDS
Avoid contact with strong oxidizers (except when in use), acids, alkaline, and heavy metal salts.

STORAGE AND DISPOSAL
Do not store food, feed, or by feed or storage disposal.

PESTICIDE STORAGE
Store in a cool, well-ventilated area. In well-built original container.

PESTICIDE DISPOSAL
Pesticides are acutely hazardous. Improper disposal of excess pesticides, spray mixtures, or containers is a violation of federal law. If these wastes cannot be controlled by use in accordance with label instructions, contact your Regional Office of the EPA for guidance.

CONTAINER HANDLING AND DISPOSAL
Container Handling: Non-refillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty remaining contents into application or mix tank. Fill container ¾ full with water. Replace and tighten closures. Tip container on its side and roll it back forth ensuring at least one complete revolution, for 30 seconds. Blist the container inside and out 6 to 8 times and through several times. Empty contents into application equipment or a mix tank or store inside for later use or disposal. Repeat these procedure two more times. Then pour remaining liquid into a storage tank or rebox container in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, ensure temperature of incinerator at least 1800 degrees F.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is to be used in conjunction with an insect such as sodium hypochlorite (12.5% or 25% active chlorine), copper sulfate (9% or 15% active copper), or a foliar spray containing a 5% to 10% mixture of sodium hypochlorite and copper sulfate. The mixture should be applied within 10 minutes of preparation. It is not recommended for use in conjunction with any other product or treatment.

INDUSTRIAL RECIRCULATING COOLING WATER SYSTEMS
Use effective agitation to achieve the specified level of cleaning and metal. Adjust pH to 3.5 to 5.0. Allow 1 hour of spin-drying to remove excess water. The pH should be adjusted to 3.5 to 5.0 after treatment. Add sufficient amount of this product and control to achieve the "active" residual biocidal level (3.5 to 5.0 ppm) measured about 5 minutes after treatment. Add sufficient amount of this product and control to achieve the "active" residual biocidal level (3.5 to 5.0 ppm) measured about 5 minutes after treatment. Use if necessary to apply this product in the following mixtures and conditions:

1. To the water or feed or by feed or storage disposal of any other chemical or product as directed.

2. To the water or feed or by feed or storage disposal of any other chemical or product as directed.

Note: This product contains 12.5% sodium hypochlorite. It is important to use the proper amount of this product and control to achieve the specified level of cleaning and metal. Adjust pH to 3.5 to 5.0. Allow 1 hour of spin-drying to remove excess water. The pH should be adjusted to 3.5 to 5.0 after treatment. Add sufficient amount of this product and control to achieve the "active" residual biocidal level (3.5 to 5.0 ppm) measured about 5 minutes after treatment.

BC-40
A DISINFECTANT, SANITIZER, BACTERICIDE, SLIMICIDE, ALGECIDE, AND MOLLUSCICIDE CONTROL AGENT FOR TREATING REcircULATING COOLING WATER SYSTEMS AND ONE-THROUGH COOLING WATER SYSTEMS, PULP AND PAPER MILLS, WASTEWATER TREATMENT SYSTEMS, AIR WASHERS AND BREWERY PasteURIZERS, AND FRUIT AND VEGETABLE WASH

ACTIVE INGREDIENT: Sodium Bromide 47% OTHER INGREDIENTS: 47% TOTAL: 100%

KEEP OUT OF REACH OF CHILDREN

CAUTION:
If swallowed, call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

If in eyes:
Flush eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

If inhaled:
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration if necessary by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.
