INSECTICIDE CATTLE STRIP
(Insecticide Add-on for ID Tags)

DIRECTIONS FOR APPLICATION
2 Piece ID Tag on back of ear

1. Synergized pyrethroid formula for maximum effectiveness against horn flies.
   No withdrawal time required.
   Guaranteed against loss due to strip breakage.
   For use only on identification (ID) tags that the application site has completely healed.
   Preferably use with ID tags that were applied the previous season or earlier.
   Can be used in combination with one PYTHON® Insecticide Cattle Ear Tag.

2. Keep Out of Reach of Children
   CAUTION
   See back panel for additional precautionary statements
   ACTIVE INGREDIENTS:
   Zetacypermethrin, S-menthioner
   S-cyano (3-phenoxyphenyl) methyl
   (a) cis/trans 3:2, 2-dimethylpropanoate-carboxylate
   cis/trans isomer ratio:
   Max. 50% (a) cis and Min. 45% (a) trans.
   Piperonyl butoxide
   (bulylacetyl) (9-propylpiperonyl) ether and related compounds
   OTHER INGREDIENTS
   NET WT: 0.34 oz. (9.5 Grams) PER STRIP CONTENTS: 50 STRIPS

Y-TEX CORP., 1825 BIG HORN AVENUE, CODY, WY 82414
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application.

**Summer Season:** For control of horn flies for 3-4 months and aid in control of face flies, attach one strip over the button of any two-piece identification (ID) tag in late spring. To control horn flies, face flies, lice, Gulf Coast ticks and Spinose ear ticks for 4-5 months, and aid in control of stable flies, black flies, house flies and small horse flies, apply two strips per animal (1 to each ear) when flies appear in the spring. Apply 2 strips to large bulls for optimum horn fly protection. In cases where there is only one established ID tag location, a P.Ython Insecticide Ear Tag can be applied to the other ear as directed on the label for optimum horn fly protection. Application can never exceed 2 strips per animal; 2 tags per animal; or 1 strip and 1 tag per animal.

**Winter Season:** For season-long lice control, apply strips in late fall. To control biting lice, short-horned sucking lice and aid in control of other sucking lice, apply 1 strip per calf or 2 strips per mature animal (1 to each ear). In cases where there is only one established ID tag location, a P.Ython Insecticide Ear Tag can be applied to the other ear as directed on the label for optimum lice control. Application can never exceed 2 strips per animal; 2 tags per animal; or 1 strip and 1 tag per animal.

For use only on ID tags that the application site has completely healed. Preferably use with ID tags that were applied in the previous season or earlier. Apply as shown on front panel and match the color of the existing 2-piece ID tag, such as the Y-TEX All American 2-piece ID tag system, using 1, 2, 3, or 4 star tags. If ID tags are not present in both ears, a P.Ython Insecticide Ear Tag can be applied in one ear. Apply as directed by the P.Ython Insecticide Ear Tag label.

Apply as shown when attaching to male/female combination ID tags or one piece ID tags by folding tag body and placing tag through the "key hole" in strip and sliding the strip up and over the shaft of the tag system. It is not recommended to place the strip on the back of a one piece ID tag.

All animals in the herd should be treated. To minimize development of insecticide resistance, remove used strips and/or tags at the end of fly and lice seasons and follow Y-TEX's recommended Insecticide Rotation Program.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in a cool place in original container, away from direct sunlight. Opened bags containing ear strips or tags should be ressealed for storage.

**PESTICIDE DISPOSAL:** Remove strips or tags before slaughtering. Securely wrap used strips and tags in a plastic bag or several layers of newspaper and discard in trash.

**CONTAINER DISPOSAL:** Non-refillable container. Do not reuse bag. Discard bag in trash, or offer for recycling if available.
