NET CONTENTS: 1 fl oz (30 mL)

PRECAUCIÓN AL CONSUMIDOR:
Si usted no lee inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente. (To the user: If you cannot read English, do not use this product until the label has been fully explained to you.)
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Please read the entire label before using this product.

Use Restrictions: Do not allow adults, children or pets to enter the treated area or contact treated surfaces until spray has dried. Do not apply this product in a way that will contact any person, pet, either directly or through drift. Keep people and pets out of the area during application. Exit area immediately and remain outside the treated area until spray has dried. Do not apply this product if soil will be disturbed after application. Do not use near children, pets or livestock.

FOR RESIDENTIAL PEST CONTROL IN AND ON BUILDINGS and structures, and their immediate surroundings and in or near structures, PERMITTED AREAS OF USE INCLUDE: industrial buildings, houses, apartment buildings, laboratories, greenhouses, and the nonfood areas of food processing plants, commercial, industrial, office, institutional and storage rooms, process plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, laboratories and hospitals. Non-food areas are areas such as garage, toilets and other water closets, offices, locker rooms, machinery buildings, basements, boiler rooms, garages, mop closets and storage areas (other than clothing) and bathrooms. For outdoor use, apply to areas where flies and ticks are most likely to be found, such as, but not limited to: dog houses, kennels, sheds, saunas, barns, smokehouses, and other outbuildings. This product is highly toxic to honeybees, exposure should be avoided. DO NOT apply to any non-food area where bees or other honeybees are present.

Stable treatment: One mix per 1000 square feet. Exposed food should be covered or removed. Do not allow adults, children or pets to enter the treated area or contact treated areas until spray has dried. Spray directly to areas where pests are located or where they may be present. Do not apply this product to any food or area where food is to be prepared or stored. Do not apply this product to areas where food is being prepared or is cool, fresh bedding after treatment. Do not feed pets with this product. All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot treatments or crack-and- crevice applications only. Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply when weeds or grass are blooming. Do not allow children, pets or livestock to enter the treated area or contact treated areas until spray has dried. Do not apply to any food or area where food is to be prepared or stored.

Permitted areas of use include: industrial buildings, houses, apartment buildings, laboratories, greenhouses, and the nonfood areas of food processing plants, commercial, industrial, office, institutional and storage rooms, process plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, laboratories and hospitals. Non-food areas are areas such as garage, toilets and other water closets, offices, locker rooms, machinery buildings, basements, boiler rooms, garages, mop closets and storage areas (other than clothing) and bathrooms. For outdoor use, apply to areas where flies and ticks are most likely to be found, such as, but not limited to: dog houses, kennels, sheds, saunas, barns, smokehouses, and other outbuildings. This product is highly toxic to honeybees, exposure should be avoided. Do not allow children, pets or livestock to enter the treated area or contact treated areas until spray has dried.
STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
STORAGE: Store product in original container and keep container closed when not in use. Do not store near food or feed. Protect from freezing. In case of spill or leak on floor or paved surfaces, soak up with sand, earth or synthetic absorbent. Remove to chemical waste area.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for Guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.
