HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this product, including health concerns, medical emergencies or pesticide incidents, you may also call 1-800-832-HELP (4357), 24 hrs/day, 7 days/week.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic invertebrates. DO NOT apply directly to water, or to areas where surface water is present or to terrestrial areas below the mean high water mark. DO NOT apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in water adjacent to treated areas.

The product is toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do NOT apply this product or allow it to drift to blooming crops or weeds if bees are foraging in the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. DO NOT use or store near heat or open flame. DO NOT puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

SMART SOLUTIONS FACTS

A ready-to-use solution to kill flies in a broad range of urban environments. Provides attractancy properties which will aid in bringing flies into the treated bait area. Key attributes of this product include:

- Quick Knockdown
- Proven attractancy for up to 30 days
- Kills flies for up to 30 days on non-porous surfaces.
- May be used in conjunction with a fly light program such as Vector Plasma®, Vector Plasma One® and Vector® Classic® for monitoring of results and fly population reduction.
- For best management practices, use the bait as part of an overall integrated Pest Management (IPM) program utilizing residuals and contact sprays, traps and drain cleaners. For questions or comments, call 1-800-777-8570.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Read Entire Label. Use strictly in accordance with Precautionary Statements and Directions for Use, and with applicable state and federal regulations. Apply bait only in areas that are out of reach of children and pets.

USE RESTRICTIONS

- Do NOT apply bait to surfaces which may reach excessive temperatures. Examples include portions of stoves,ighting above food preparation areas, ovens, grills, fate hoods, steam tables, toasters, fryers, dishwashers and hot water pipes.

- Do NOT apply directly to food preparation surfaces or dining surfaces where foods for consumption may come in contact.
- Do NOT apply bait in areas where animals can ingest product.
- Do NOT apply bait directly upon animals.
- Do NOT apply directly into any electronic equipment or areas where electrical short circuit could occur.
- Do NOT use in aircraft cabinets; use in cargo areas only.

APPLICATION INSTRUCTIONS

AREA TREATMENT: Point can toward target area from a distance no further than 12 in (30 cm) and press down actuator. Make a light application at a rate of 2 in 1/2 sec and avoid run off or dripping from targeted area. Area treatments are effective where flies congregate, roost and feed, which may include garbage receptacles and lids, refuge containers, under tables and benches, recycling bins, dumpsters, behind vending machines, plant/flower pots, under bases, hole areas, walls and/or areas where flies are likely to congregate or infest. Do NOT apply bait in areas that are frequently cleaned. This product will not adhere to surfaces that are dusty or greasy. Reapply when bait placements are no longer visible and/or reinfestation occurs. Use a water-dampened paper towel to remove unwanted bait placements and then discard in trash.

BAND TREATMENT: Spray from a distance no further away from targeted area than 6 in (15 cm) to create a band application at a rate of 2 in 1/2 sec. Band applications may be made to areas such as beam edges, receptacle edges, table or bench edges, around windows and window frames, under narrow eaves and other areas where there is a narrow area where flies land, roost and/or are likely to infest. Reapply when bait placements are no longer visible and/or reinfestation occurs. Use water-dampened paper towel to remove unwanted bait placements and then discard in trash.

REMOVABLE BAIT PLACEMENTS: Spray bait on a small object no larger than 24 in² and no smaller than 8 in² unless it is a rope or twine of at least 6 in long. Object may be made of wood, plastic, cardboard, index cards, nylon, metal or other suitable material. Place in areas of fly activity, and out of reach of children and domestic animals.

FOOD HANDLING ESTABLISHMENTS: Food/Feed handling establishments are places other than private residences in which food is held, processed, prepared or served, including those operating under the Federal meat, poultry, shell egg grading and egg products inspection programs.

Use within food preparation and food production areas of food handling establishments is limited to the interior of refuge receptacles, removable bait placements or in stations. For areas outside of the food preparation and food production areas, spot and/or band applications may be made to areas where flies congregate and rest.

Food/Feed Areas: Include areas for receiving, serving, storing (dry, cold, frozen, raw), packing (canning, bottling), wrapping (boxing), preparing (cleaning, slicing, cooking, gridding), edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups).

All removable bait placements must be clearly marked with the wording "Fly Bait, Do Not Touch" (written, typed or stickered on it) and must be secured to the surface with an adhesive material or tape. Placements should be recorded and inspected with each service to that area. Do NOT place removable bait placements over or on food preparation or food processing areas. The use of rope or twine is not allowed in food areas.

Non-Food/Feed Areas: Include areas such as garbage rooms, lavatories, floor drains (to sewer), entries and vestibules, offices, locker rooms, machine rooms, boller rooms, garages, mop closets and storage areas (after packaging, canning or bottling). All removable bait placements must be clearly marked with the wording "Fly Bait, Do Not Touch". Place in areas conducive to fly activity, and out of reach of children and pets.
PT® Alpine®
Pressurized Fly Bait

KILLS: House Flies, Filth Flies, Lesser House Flies, Flesh Flies and Small Fruit or Vineyard Flies

FOR USE IN AND AROUND: Commercial, Residential, Industrial Buildings and Other Manmade Structures, Garbage: Refuse Bins and Receptacles, or other areas flies may be a nuisance or health hazard. (Apartments, Bakeries, Campgrounds, Civic Areas, Cemeteries, Parks, Post Offices, Public Buildings, Schools, and other areas like these.)

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. DO NOT apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. DO NOT apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in water adjacent to treated areas. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. DO NOT apply this product or allow it to drift to blooming crops or weeds if bees are foraging in the treatment area.

USE RESTRICTIONS

• DO NOT apply bait to surfaces which may reach excessive temperatures. Examples include portions of stoves, lighting above food preparation areas, ovens, grills, fume hoods, steam tables, toasters, fryers, dishwashers and hot water pipes.
• DO NOT apply directly on food preparation surfaces or dining surfaces where foods for consumption may come in contact.
• DO NOT apply bait in areas where animals can ingest product.
• DO NOT apply directly upon animals.
• DO NOT apply directly into any electronic equipment or areas where electrical short circuit could occur.
• DO NOT use in aircraft cabins, use in cargo areas only.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry area away from heat or open flame and inaccessible to children.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site, in accordance with the label directions, or at an approved waste disposal facility.

CONTAINER HANDLING & DISPOSAL: DO NOT purchase or misplace. If empty: Place in trash or offer for recycling. It is available. If partly filled: Call your local solid waste agency for disposal instructions.
