CAUTION

- Child-Resistant Station
- Includes Mini Bars

NET CONTENTS: 1 Bait Station with 8 one ounce Mini Bars
NET WEIGHT: 8 ounces (226.8 grams)
Refillable

KILLS MICE

SELECTION OF TREATMENT AREAS: Determine areas where house mice will most likely find and consume the bait. Generally, these areas are along walls, by generator openings, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS:

HOUSE MICE: While wearing gloves, place one Mini Bars in the bait station. Place the bait station at the highest point of activity along a wall or in a corner where mice or their signs have been seen. If additional units are to be used, place bait stations 8-12 feet apart. When wearing gloves, remove bait in bait station where bait is consumed or contaminated. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there are no longer signs of new feeding by house mice.

FOLLOW-UP: Replace contaminated or spoiled bait immediately. Using waterproof gloves, collect and dispose of all droppings, exposed animals and leftover bait properly. To discourage reinfection, limit sources of rodent food, water and harborage as much as possible. If reinfection does occur, repeat treatment.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store only in original container in a dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Nonrefillable container. Do not reuse or refill this container.

DANGER: To the extent permitted by applicable law, seller makes no representation or warranty, either express or implied, for the results due to misuse, improper handling or improper storage of this material. Nor does seller assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or improper storage of this material.

For non-emergency information, call 1-800-488-5743 at once.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Mini Bars are harmful if swallowed or absorbed through the skin. Harmful if inhaled. Avoid contact with eyes, skin or clothing. Keep away from children, domestic animals and pets. Any person who mishandles containers or exposed bait following application of this product must wear waterproof gloves. If bait is touched, wash hands thoroughly as soon as possible.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to mammals, birds and other wildlife. Dogs, cats and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product outdoors.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use restrictions. Use only for the sites, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets or other non-target animals to rodenticides. To help to prevent accidents:

1. Store product not in use in a location out of reach of children and pets.

2. Apply product to locations out of reach of children, pets, domestic animals, and non-target wildlife.

3. Dispose of product container and unused, spilled, and unconserved bait as specified on this label.

USE RESTRICTIONS:

This bait station may be used in indoor areas accessible to children, consistent with all use restrictions and other requirements indicated on this label. Do not use this product outdoors or in areas accessible to pets. Ramik Mouser RF mini bars may only be used to control house mice (Mus musculus) in homes, and in industrial, commercial, or agricultural buildings. Do not use this product outdoors. Do not place this product in areas where there is a possibility of contaminating food, animal feed, water or surfaces that come in direct contact with food, animal feed, water, or food. Do not place stations near or inside ventilation equipment or fumigation duct openings.

OPENING THE STATION: 1. Apply gloves. Place cushion on a hard surface. Position the pushkey in the slot at the front of the closed bait station as shown. With firm downward pressure, push the pushkey straight down into the slot until you hear a click. DO NOT TURN THE PUSHKEY.

2. Holding the base of station with one hand, lift its top holding on to the pushkey with your other hand.

LOADING THE STATION: Place bait bar into the station’s bait compartment marked “Place Bait Here” as shown. Do not place bait in any other location within the station.

CLOSING THE STATION: With downward pressure, push top down until you hear a click.
