PHYSICAL OR CHEMICAL HAZARDS: Combustible. Do not use or store near heat or open flame.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Follow all precautions and directions.

**SHAKE WELL BEFORE USE**

For use on Cats and Kittens over the age of 12 weeks for control of Fleas and Ticks. Do not repeat treatment for 7 days. Do not use on kittens under 12 weeks. Consult a veterinarian before using this product on debilitated, aged, pregnant, or nursing animals. Sensitivities may occur after using any insecticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

**FORM TO USE:** Wet the animal's coat for 2 – 3 minutes with warm water. Apply shampoo on head and ears and allow it to sit for 10 minutes. Rinse off with water and repeat procedure with neck, chest, and middle and hindquarters, finishing legs and tail and paying special attention to the footpads (between the toes) and underbelly. Wash the head and ear areas carefully, making sure to keep the shampoo out of the animal's eyes. NOTE: A drop of glycerin in each eye before bathing may prevent or reduce irritation if the shampoo gets in the animal's eyes. Pay special attention to the base of the tail, as it is a place frequented by fleas. Fully lather animal and let lather remain on animal for 5 minutes before rinsing thoroughly with water. NOTE: This final step is an important part of grooming procedure.

For small cats less than 15 pounds, wrapping the animal in a towel for several minutes to absorb moisture is advised. This will also allow drying fleas and ticks to crawl off animal into towel before drying animal with a towel or blower dryer.

Flea and tick control on the animal is only part of the solution to the problem. The inside of the house and the outdoor area used by the animal must also be treated for effective control.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal. Pesticide Storage: Store in a cool dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. If empty, Place in trash or offer for recycling if available. If partly filled, Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
