**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** May be harmful if inhaled or absorbed through skin. May cause moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**FIRST AID**

- **If inhaled:**
  - Move person to fresh air.
  - If person is not breathing, call 911 or an ambulance and then give artificial respiration, preferably by mouth-to-mouth, if possible.

- **If on skin or equipment:**
  - Take off contaminated clothing.
  - Rinse skin immediately with plenty of water for 15-20 minutes.

- **If in eyes:**
  - Hold eye open and rinse slowly and gently with water for 15-20 minutes.
  - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-239-3224 for emergency medical treatment information.

**STORAGE AND DISPOSAL**

- **DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL:**
- **PESTICIDE STORAGE:** Store in original container in a cool, well-ventilated area inaccessible to children and pets.
- **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill the container. Triple rinse as follows: Fill container 1/4 full with water and recirculate the container. Agitate vigorously and dispense of residue in accordance with Pesticide Disposition Instructions. Repeat the two steps. Offer for recycling if available. Purchase and disposal of in a sanitary landfill; by other procedures approved by state and local authorities.

**MANUFACTURED IN THE U.S.A. FOR: SAFETEC OF AMERICA, INC.**

**Hospital, Surgical & Home Healthcare Use**

Use this product or spray, cloth, and material to prevent the contamination of surfaces and equipment that are not in contact with the medical condition, but which cannot be disinfected by the alcohol product.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Apply this uniled product by spray, cloth, mop, or spray or immersion to wet all surfaces thoroughly.

When used as directed, this product effectively kills the following microorganisms at room temperature within 2 minutes disinfecting contact time against:

- **Achirervimonas baumannii,** Avisea influenza A (H1N1) Virus, Escherichia coli and with extended beta-lactamase resistant (EBL), E. coli, Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Herpes Simplex Virus (HSV-2)
- **Human Immunodeficiency Virus** (HIV-1), Influenza A Virus, Mycobacterium tuberculosis, Carbapenem-resistant (ECP), Listeria monocytogenes, Pseudomonas aeruginosa, Rotavirus, Sarcina lactis, Salmonella enterica, Staphylococcus aureus, Enterococcus faecalis, Staphylococcus viridans (MRSA), S. aureus (methicillin-resistant [MRSA]), E. coli, Pseudomonas aeruginosa (MRPA), K. pneumoniae (Extended Spectrum Beta-Lactamase [ESBL]), Enterococcus faecalis (with enterococcal toxic shock syndrome in children), Pseudomonas aeruginosa (with enterococcal toxic shock syndrome in adults), and VRE, Enterococcus faecium, Enterococcus faecalis, Escherichia coli, Staphylococcus aureus, Pseudomonas aeruginosa (with enterococcal toxic shock syndrome in adults), and VRE.

**Non-Food Contact Surfaces**

For surfaces intended for use in hospitals, surgical, or home healthcare settings, apply this product by spray, cloth, mop, or spray or immersion to wet all surfaces thoroughly. Allow to remain wet for 2 minutes, then wipe dry using a clean mop, cloth, or spray, or rinse surface using potable water and wipe dry.

**INSTRUMENTS/DEVICES**

For use as a pre-cleaning instrument/device soak: Fill appropriately sized container with a sufficient amount of this product to allow complete submersion of items. Place item into solution and allow to soak for 2 minutes. Remove items from solution. For critical and semi-critical items, follow the appropriate cleaning and disinfection or sterilization process. Change solution as needed, i.e., when the solution becomes visibly soiled or discolored.

For use as a pre-cleaning spray: Place item into a suitable container. Thoroughly spray item with product until directed, thoroughly rinse. Follow with an appropriate terminal cleaning and sterilization/disinfection process.

For use as an ultrasonic cleaning instrument: Prepare the ultrasonic bath using a solution of 1 oz. of this product per gallon of water. Place item in the ultrasonic bath and ultrasonic for 2 minutes. Remove item from solution and rinse thoroughly under running potable water. Proceed with appropriate disinfection or sterilization process.

For use as a non-critical medical device disinfection immersion solution: Thoroughly clean items by submerging them in this product, rinse and dry. For complete submersion of items, place pre-cleaned items into an appropriate battery container that has been filled with this product. After cleaning, place items into solution and allow to remain submerged for 2 minutes. Remove items from solution and rinse thoroughly under running potable water. Proceed with appropriate disinfection or sterilization process.

For use as an instrument spray: Place item in a suitable container. Thoroughly spray item with product until directed, thoroughly rinse. Follow with an appropriate terminal cleaning and sterilization/disinfection process.

For use as a pre-cleaner or a pre-sterilization process: Product must be rinsed with water after submersion in this product. Thoroughly clean items before using in other disinfectants or sterilization processes. After cleaning, place items into solution and allow to remain submerged for 2 minutes. Remove items and rinse thoroughly under running potable water. Proceed with appropriate disinfection or sterilization process.

For use as a non-critical medical device disinfection immersion solution: Thoroughly clean items by submerging them in this product, rinse and dry. For complete submersion of items, place pre-cleaned items into an appropriate battery container that has been filled with this product. After cleaning, place items into solution and allow to remain submerged for 2 minutes. Remove items from solution and rinse thoroughly under running potable water. Proceed with appropriate disinfection or sterilization process.

For use as a non-critical medical device disinfection immersion solution: Thoroughly clean items by submerging them in this product, rinse and dry. For complete submersion of items, place pre-cleaned items into an appropriate battery container that has been filled with this product. After cleaning, place items into solution and allow to remain submerged for 2 minutes. Remove items from solution and rinse thoroughly under running potable water. Proceed with appropriate disinfection or sterilization process.

For use as an instrument spray: Place item in a suitable container. Thoroughly spray item with product until directed, thoroughly rinse. Follow with an appropriate terminal cleaning and sterilization/disinfection process.

For use as a pre-cleaner or a pre-sterilization process: Product must be rinsed with water after submersion in this product. Thoroughly clean items before using in other disinfectants or sterilization processes. After cleaning, place items into solution and allow to remain submerged for 2 minutes. Remove items and rinse thoroughly under running potable water. Proceed with appropriate disinfection or sterilization process.

For use as a non-critical medical device disinfection immersion solution: Thoroughly clean items by submerging them in this product, rinse and dry. For complete submersion of items, place pre-cleaned items into an appropriate battery container that has been filled with this product. After cleaning, place items into solution and allow to remain submerged for 2 minutes. Remove items from solution and rinse thoroughly under running potable water. Proceed with appropriate disinfection or sterilization process.

For use as an instrument spray: Place item in a suitable container. Thoroughly spray item with product until directed, thoroughly rinse. Follow with an appropriate terminal cleaning and sterilization/disinfection process.
