DIAMULSE T

EMULSIFIER

PRECAUTIONS
Contact with eyes or skin may cause severe irritation. Mists are irritant. Harmful if swallowed, inhaled or absorbed through skin. Wear rubber gloves and chemical goggles or safety glasses. Wear additional protective equipment as required to prevent skin contact. Avoid breathing/inhaling mists. Use a respirator suitable for protection against corrosive mist if sprayed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID
If in eyes, hold eye open and flush with gentle stream of water for 20 minutes. Remove contact lenses, if present, after 5 minutes and continue rinsing eyes, then seek immediate medical attention. If on skin, flush with water then wash affected area with soap and water. Get medical attention if irritation persists. If ingested, do not induce vomiting. Give conscious patients large quantities of water and seek immediate medical attention. If aerosolized mists are inhaled, remove victim to fresh air; give artificial respiration if indicated.

STORAGE
Store in sealed original container or approved bulk vessel in a cool, well-ventilated area. Incompatible with copper, brass and other cuprous alloys. Do not reuse empty containers: triple rinse, then recycle or dispose of container in accordance with applicable State and local regulations.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and wildlife. Do not apply directly to any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes.

SEE MATERIAL SAFETY DATA SHEET

KEEP OUT OF REACH OF CHILDREN

DANGER - CORROSIVE

PRINCIPAL FUNCTIONING AGENT:
Alkyldimethylamines, organic carboxylic acids ............... 80%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANTS: ............ 20%
TOTAL: .................... 100%

DIRECTIONS FOR USE
This product is an emulsifier for use with Mycostat® brand antistain products. Read and understand this label and the Mycostat® product label before use. Prepare a tank-mix emulsifiable concentrate by mixing 1 volume of Mycostat® antistain concentrate with 4 to 25 volumes Diamulse T emulsifier concentrate. Brief agitation is essential to prepare tank-mixed emulsifiable concentrate; once prepared, tank-mix is indefinitely stable. Use of tank-mix is governed by the Mycostat® product label. Only for mixture with pesticide concentrate to prepare an emulsifiable tank-mix. Do not add directly to RTU (ready-to-use) solution. RTU dilutions of tank mixtures prepared with Diamulse products may be used in conjunction with Ferrobrite brand acidifiers/buffers and silicone emulsion type antifoam products.
