**POOL SPECIALTIES**

**Triple Play Tablets**

Prevents bacteria and algae
Sanitizes pool water
Clarifies pool water

Active Ingredients:
- Trichloro-s-Triazinecyanurate: 33.5%
- Copper Sulfate pentahydrate*: 1.5%
- Other Ingredients: 6%
- Total: 100.0%

Available Chlorine: 90%
*Metallic copper equivalent 0.39%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your pool. Do not remove filter or other degrading devices from water for more than five minutes if it contains a tablet or tablet residue. See back panel for additional Precautionary and First Aid Statements.

**NET WEIGHT 22.5 LBS. (10.2 kg)**
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

METHOD OF APPLICATION: Use in a Floating dispenser, automatic chlorinator or feeder designed for this product, or tank in skimmer.

Do not allow this product to get damp or wet before use. Do not allow this product to contact other water treatment products, use in a new chlorinating device or any device which has previously contained only this product or chlorine-A-fractions.

DO NOT use in feeders or feeders that have been used with other water treatment products. Make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer.

DO NOT throw tablets directly into pool.

DO NOT allow use with any other tablets or sticks in the same skimmer, floater, or feeder.

DO NOT allow use in any chlorinating device which has been used with other chlorinating compounds.

DO NOT use any other tablets or sticks in the same skimmer, floater, or feeder.

DO NOT mix with other products or solutions in the same dispenser.

DO NOT Pre-mix this product. Only add this product directly to your pool.

WATER BALANCE: To provide optimum product performance, swimmer comfort and crystal clear water always maintain pH 7.2 to 7.6, total alkalinity from 60 to 120 parts per million (ppm), and calcium hardness above 200 ppm. Test frequently using Roburt™ Pool & Spa Test Strips that measures all these ranges. Make sure any necessary adjustments promptly with the appropriate Roburt™ Pool Specialties pool care products. Re-entry into treated pools is prohibited with chlorine levels above 4 ppm or risk of injury.

ROUTINE CHLORINATION:

Add one tablet per 100,000 gallons of pool water every week or as often as needed to maintain a chlorine residual of 1.0 to 4.0 ppm.

Follow “METHOD OF APPLICATION.” This dosage may vary depending upon bather load, water temperature and other conditions. Pool must not be entered until the chlorine residual is 1.0 ppm or above as measured with a reliable test kit.

SHOCK TREATMENT:

As a preventative treatment, you must shock treat your pool once per week to prevent pool problems. In addition to weekly shock treatment, you must shock treat to remedy problems which may occur when blowing seeds are high, water appears hazy or dull, unbalanced colors or eye irritation occur, after heavy wind and rainstorms, or if algae does develop resulting green color and slimy feeling.

Adjust pH to 7.2 to 7.4 with Roburt™ Pool Specialties pH Up or Roburt™ Pool Specialties pH Down per label directions. Shock treat weekly with a product such as Roburt™ Pool Specialties Power Blast® granular shock to kill bacterial algae, burn organic material and to keep water sparkling clean. Follow label directions.

ALGAE CONTROL: If pool surface develops algae or feels slippery, follow shock treatment directions. Immediately after shock treatment, thoroughly clean pool by brushing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the procedure. Pool must not be entered until the chlorine residual is 1.0 ppm or above.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: Causes irreversible eye burns and skin irritation. May be fatal if inhaled. Harmful if swallowed.

• Do not get in eyes, on skin or on clothing. Wear safety goggles or face shield, and rubber gloves when handling this product. For additional skin protection, wear long sleeves and long pants.

• Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. • Open in a well-ventilated area. Do not breathe dust or vapor.

• Remove and wash contaminated clothing before reuse.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eyes.

Call a poison control center or doctor for further advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. Call a poison control center or doctor for further treatment advice.

If SWALLOWED: Call a poison control center or doctor immediately for further treatment advice.

STORAGE AND DISPOSAL

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame.

Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not discard in trash. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

EMERGENCY HANDLING: In case of contamination or decomposition – Do not reuse container.

Immediately remove container to an open and well-ventilated outdoor area by itself. Food with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
