This product is used to lower the pH in spa water. The water in the spa should be maintained at a pH of 7.2-7.8 and total alkalinity from 80-120 ppm. Test water frequently with suitable test kit to ensure proper pH is maintained. This product is compatible with all sanitizers including chlorine, bromine and BIGUA.

**PRECAUTIONARY STATEMENTS**

**DANGER: POISON** Contains sodium bisulfate. Causes severe burns. Harmful if swallowed. Avoid contact with eyes, skin and clothing. Avoid breathing dust and use with adequate ventilation. Wear goggles and use rubber gloves when handling. Wash thoroughly after handling. Do not mix with any chlorine products or other household chemicals.

**FIRST AID**

**IF ON SKIN:** Brush off excess chemical and flush skin with water for 15 minutes. Remove contaminated clothing and shoes. Call a physician if irritation persists. Clean clothing and shoes before reuse.

**IF IN EYES:** Flush eyes immediately for 15 minutes with large quantity of water. Call a physician.

**IF SWALLOWED:** Call a physician immediately. Do not induce vomiting unless directed to do so by medical personnel.

**IF INHALED:** Remove to fresh air. Provide oxygen if necessary. If breathing difficulties persist, call a physician.

**DIRECTIONS FOR USE**

This product should be used if pH is above 7.8.

1. Turn on air blower or filter system.
2. Premix 1 oz. of this product with water in plastic pail and add diluted product to spa.
3. Retest water after 30 minutes.
4. Follow steps 1-3 until pH and total alkalinity are in the range of 7.2-7.8 and 80-120 ppm, respectively.

**NOTE:** Do not add more than 1 oz. at a time. Always wait 30 minutes between doses and test water before each addition of this product.

**STORAGE AND DISPOSAL**

Store in a cool, dry area out of reach of children. Keep container closed when not in use. Rinse empty container with water, wrap and place in trash collection. Material is hygroscopic and will readily absorb moisture. Keep container closed. Do not store where exposed to moist conditions. Do not store near strong alkalis.
