Daily add-pack for calves containing diflubenzuron, Insect Growth Regulator, for continuous feeding during the fly season.

- Breaks the fly life cycle.
- Stops the development of horn fly, face fly, house fly and stable fly larvae in manure from treated calves.
- Use as part of an integrated fly control program.

ACTIVE INGREDIENT:
Diflubenzuron* (CAS# 35367-38-5) ............................................................... 0.16%
OTHER INGREDIENTS ............................................................................... 99.84%
TOTAL ........................................................................................................ 100.00%
*contains 726.4 milligrams of diflubenzuron per pound.
EPA Reg No. 89459-1-88218   EPA Est. No. 088218-WI-001

STORE IN ORIGINAL CONTAINER, IN A COOL, DRY PLACE.
KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for additional Precautionary Statements

NET WEIGHT 22.05 lbs (10.00 kg)
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing.

PERSONAL PROTECTIVE EQUIPMENT
Wear long-sleeved shirt and long pants, shoes plus socks and chemical resistant gloves (such as or made out of any waterproof material, Selection Category A1). Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID
If on skin: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to aquatic invertebrates. Do not contaminate water when disposing of equipment washwater or rinsate.

USE INFORMATION
elim-A-fly ADD-PACK WITH Clarify® LARVICIDE (elim-A-fly) is intended to be added daily to whole milk or reconstituted milk replacer to control house flies, stable flies, horn flies and face flies which develop in manure of calves, including veal calves.

Use elim-A-fly as part of an integrated fly control program aimed at reducing fly populations in the calf’s environment. Consult your veterinarian or retailer for program recommendations. In order to achieve optimum fly control, use elim-A-fly in conjunction with other premix and on-animal products, as well as good management and sanitation practices.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

elim-A-fly contains diflubenzuron, an insect growth regulator which prevents the development of house flies, stable flies, horn flies and face flies in the manure of treated calves, but is not effective against existing adult flies. Start feeding elim-A-fly early in the spring, 30 days before flies begin to appear, and continue feeding throughout the summer and into the fall until cold weather restricts fly activity. In some cases, supplemental fly control measures may be needed in and around pastures, barns and calf hutches to control adult house and stable flies.

The dosage of elim-A-fly is proportional to the animal’s body weight. Each animal must receive 0.1 or 0.25 mg/kg body weight per day. The product can be mixed by either of the following two methods.

Restriction: Feed calves between the weight of 60-200 pounds not to exceed 0.1 mg/kg per day.

MEASURING DIRECTIONS
Prepare the whole milk or reconstituted milk replacer for each individual calf. Add the appropriate amount shown below based on the calf’s weight, to achieve 0.1 mg/kg.

16 teaspoon per 100 lb body weight
1 teaspoon per 120 lb body weight
1/2 teaspoon per 180 lb body weight
Mix thoroughly and feed the entire portion immediately. Repeat daily.

BULK MIXING FOR MULTIPLE CALVES
Thoroughly mix the required amount of elim-A-fly, as shown below, into the total amount of whole milk or reconstituted milk replacer needed for the number of calves to be fed, using level measuring cups, teaspoons (tsp) or tablespoons (TBS). Prepare fresh daily to provide the labeled daily intake of 0.10 mg diflubenzuron/kg of body weight per day. Feed each calf an equal portion of the total amount of treated milk.

Important
Store or agitate continuously. Feed immediately in containers for individual animals only. DO NOT use bulk feeding containers (i.e. Calf Buns). Failure to properly mix and feed this product may result in underdosing or overdosing of some animals due to settling out of the active ingredient.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container in a cool, dry place. Do not contaminate with pesticides or fertilizers.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into mixing equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND LIMITATION OF DAMAGES
Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label, when used in accordance with directions under normal conditions of use, and Buyer assumes the risk of any use contrary to such directions. To the extent consistent with applicable law, Seller makes no other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing and with specific reference to this warranty. In no event shall Seller’s liability for any breach of warranty exceed the purchase price of the material as to which claim is made.

PRECAUTIONARY STATEMENTS
Hazard Keywords and Domestic Animals
SKU: 101-14156-00160001

This product can be harmful when used or handled. Do not allow children to come into contact with this product. Keep out of reach of children. Store in a cool, dry place.

DOMESTIC ANIMALS
If contact occurs with domestic animals, wash the area with soap and water.

ENVIRONMENTAL CONCERNS
This product is biodegradable. Do not contaminate waterways when disposing of equipment or debris.

DIRECTIONS FOR USE
Read the label. Follow the instructions carefully. Do not use this product on food-producing animals or any food contact surfaces. This product is not for use on or around honey bees, pollinating bees, or any other beneficial insects.

Storage:

Handling:
Wear protective clothing and gloves when handling this product. Wash hands thoroughly with soap and water after handling.

Clean-up:
Wear protective clothing and gloves when cleaning up spills. Thoroughly wash the area with soap and water.

IMPORTANT:
This product is not for use around children or pets. Do not apply to any part of the body that comes into contact with food or food contact surfaces. Do not apply to any part of the body that is broken or irritated.

Rinse with soap and water to remove any remaining product. Do not store near food or food contact surfaces. Keep out of reach of children.

Effect on Honey Bees:
This product is not recommended for use around honey bees. However, honey bees may be exposed to this product when it is applied to crops. Be sure to follow the label instructions carefully.

Important:
Read and follow all precautions and instructions on the label. Do not use this product if it is expired or if it is not correctly labeled. Do not mix with other products. Keep out of reach of children and pets.
