**Not Contents:**

0.528 U.S. Gallon • 2 Liters

---

**3M Disinfectant Cleaner RCT Concentrate**

---

**DIRECTIONS FOR USE (continued)**

Do not breathe spray. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and workstations with soap and water. Do not use on metal, glassware and utensils. Prepare a fresh solution daily or more often if the solution becomes visibly dirty or diluted.

For beneficial activity, this product is an effective fungicide against Trichophyton mentagrophytes (the athlete’s foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, showers and bath areas and exercise facilities. This product is a one-step fungicide at 0.05% per gallon in 250 ppm hard water and 5% serum.

For mold and mildew. At 0.02% per gallon, this product will effectively inhibit the growth of mold and mildew and the odors caused by them by applying to hard, non-porous surfaces. Follow disinfection instructions. Repeat treatment every seven days or more often if new growth appears. This product is not to be used as a terminal sterilizing or high level disinfectant on any surface or instrument (1) is introduced directly into the human body, either in or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

---

This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection. Prepare a fresh solution daily or more often if the solution becomes visibly dirty or diluted.

**KILLS HBV AND HIV AND HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS**

PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids, and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) associated with AIDS or Hepatitis B Virus (HBV) or Hepatitis C Virus (HCV), SPECIAL INSTRUCTIONS FOR CLEANSING AND DECONTAMINATION AGAINST HBV OR HIV OR HCV ON ENVIRONMENTAL SURFACES / OBJECTS SOILED WITH BLOOD / BBODY FLUIDS.
