**DOMESTIC ANIMALS:** This product is considered to be relatively nontoxic to dogs and other domestic animals. However, ingestion of this product or large amounts of freshly sprayed vegetation may result in intermittent gastrointestinal irritation (vomiting, diarrhea, colic, etc.). If such symptoms occur or continue, provide the animal with plenty of fluids to prevent dehydration. Call a veterinarian if symptoms persist for more than 24 hours.

**Personal Protective Equipment (PPE)**

Some of the materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for Category A (if an EPA-chemical resistance category identification number is on this label).

Appliers and other handlers must wear long-sleeved shirt and long pants, socks, shoes, and chemical-resistant gloves made of any waterproof material such as polyethylene or polyvinyl chloride.

Follow manufacturer’s instructions for cleaning/maintaining PPE (Personal Protective Equipment).

If no such instructions for washability exist, use detergent and hot water. Discard clothing and other absorbent materials that have been wetted or heavily contaminated with this product’s concentrate. Do not reuse them.

When handlers use closed systems, exhausted cab, or in any manner that meets the requirements listed in the Worker Protective Standard (WPS) for agricultural pesticides (40 CFR 172.240 (a)(4)(i)), the handler PPE requirements may be reduced or modified as specified in the WPS.

**IMPORTANT** When reduced PPE is used because a closed system is being used, handlers must provide all PPE specified above (i.e., applications and other handlers) and have such PPE immediately available for use in an emergency, such as a spill or equipment breakdown.

**User Safety Recommendations**

Do not apply directly to water. In areas where surface water contributes to истственные areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment waste and debris.

**Physical/Environmental Hazards**

Spray solutions of this product may be mixed, stored and applied using only stainless steel, galvanized steel or polyethylene equipment. This product or spray residues of this product must be disposed of in accordance with local regulations. Do not apply this product to water bodies, wildlife, feed, food, feedstuffs, and veterinary supplies. Keep container closed to prevent spills and contamination. Do not allow this product to contaminate water, foods, feed, food-stuffs, feedstuffs, or other materials. Keep container closed to prevent spills and contamination. Do not allow this product to contaminate water, foods, feed, food-stuffs, feedstuffs, or other materials. Do not apply this product to water bodies, wildlife, feed, food, feedstuffs, and veterinary supplies. Keep container closed to prevent spills and contamination.

**Non-Agricultural Use Requirements**

This product is labeled by the U.S. Environmental Protection Agency (EPA) for use in food establishments, nurseries or greenhouses. The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries or greenhouses. Keep people and pets off treated areas until spray solution has dried.
