DEADLINE® GT

For Control of Snails and Slugs

A soil surface treatment for control of snails and slugs around ornamentals, listed small fruits & berries, citrus, listed vegetable crops and grass grown for seed.

Ingredients:
 DEADLINE® GT contains a synthetic pyrethroid insecticide active ingredient, which is a slow-acting, plant-derived molecule that targets nervous system synapses of insects, disrupting normal function.

California Pesticide Label:
California has adopted pesticide labels for all products sold in the state. This label is specifically designed for California's unique conditions and regulatory requirements.

First Aid:
In case of suspected exposure, seek immediate medical attention. For oral exposure, do not induce vomiting unless instructed to do so by a healthcare provider. For skin exposure, wash with soap and water. For eye exposure, flush with water for at least 15 minutes. For inhaled exposure, move to fresh air and seek medical attention.

CAUTION:
Hazards to Humans & Domestic Animals
Eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Domestic animals can be excluded from the treated area from the start of the application until applied material is no longer hazardous to them or to people or other animals. Cover or collect any such materials spilled during loading.

Restrictions:
State and/or Federal Invasive Mollusk Eradication Operations. This product may not be applied to residential areas. It is prohibited to apply Deadline GT to any type of crop for which it is not registered. This product is prohibited to apply to residential schools and daycare facilities, and athletic fields, playgrounds, parks, recreation areas, etc.

How to Apply:
• Apply after formation of edible parts.
• Apply by hand or with commercial application equipment designed for banded application of granular products.
• Apply in a band under tree canopy. Do not apply as a wide-area broadcast for Citrus application.
• Do not re-water for 48 hours after application.
• Do not apply directly to or contaminate edible portions of the plant.
• Do not apply to livebearing fish or to areas where they may enter.
• Do not apply to areas where other organisms may suffer injury, such as beneficial insects, birds or nontarget animals.
• Deadline GT should never be applied to dry soil.

Worker Protection:
The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard (WPS). For more information, contact your local agricultural extension office or visit the United States Environmental Protection Agency (EPA) website. For more information on the Worker Protection Standard, visit: https://www.epa.gov/pesticide-worker-protection.

Personal Protective Equipment (PPE):
Long sleeved shirt and long pants, closed toe shoes, protective gloves.

Storage and Disposal:
DEADLINE® GT is a nonrefillable container. Do not reuse or refill this container. Completely empty the container before disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, and/or旕olecular containers, may cause environmental damage.

First Aid:
CAUTION
FIRST AID
Confined Space: Provide fresh air and fresh air equipment to those who may be in a confined space. Do not enter a confined space until fresh air has been certified. Prevent entry to confined spaces. Provide prompt medical attention.• If swallowed: Call a poison control center or doctor for treatment advice. Do not give anything by mouth to an unconscious person.
• If inhaled: Remove to fresh air and call a poison control center or doctor for treatment advice. Provide emergency breathing equipment if breathing is difficult.
• If eyes contact: Rinse skin immediately with plenty of water for 15-20 minutes.
• If on skin: Wash skin with soap and water. Call a poison control center or doctor for treatment advice.
