ADJUVANT CH
Acid Activator for Chlorine Dioxide

DIRECTIONS FOR USE: ADJUVANT CH is used for the activation of sodium chlorite solutions in a chlorine dioxide generator.
ADJUVANT CH is typically fed into the generator at one to three times the feed rate of the sodium chlorite product. Your CH2O technical sales representative can guide you in the proper feed rate during installation of the chlorine dioxide generator.
NEVER combine the chlorite and acid products without using a generator. When the two products are mixed, the reaction can be explosive and liberate heat and toxic gases. Proper use of a generator will contain any reaction and dilute the chlorine dioxide to a safe and usable strength.

DANGER

PRECAUTIONARY STATEMENTS: This is an extremely acidic product. Contact with material will cause severe burns; prolonged contact with material will destroy tissue. Complete safety equipment must be worn when handling. Wear impervious gloves, safety goggles and face shield, as well as protective clothing, boots and respiratory protection as necessary to minimize contact with product. When making solutions, add product slowly to the surface of cold water while stirring, thus avoiding violent spattering. Contact with some metals can rapidly generate hydrogen gas, which is explosive.

FIRST AID: If exposed, immediately contact Poison Control Center or physician. EYES: Flush with large amounts of water for several minutes, lifting upper and lower lids occasionally. Remove contact lenses if present and continue rinsing. Get medical attention if irritation persists. SKIN: Wash exposed areas thoroughly with soap and water. Remove contaminated clothing and launder before reuse. If skin feels slippery, continue washing until slick feeling is gone. Contact a physician if irritation persists. INGESTION: Rinse mouth. Give large quantities of water. DO NOT induce vomiting. If vomiting occurs administer additional fluids. Contact a physician for further directions. Never give anything by mouth to an unconscious person. INHALATION: Remove individual to fresh air. Keep at rest in a position comfortable for breathing. If breathing is difficult, give oxygen.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Store in locked, well-ventilated area above 45 F. Keep container tightly closed when not in use. Dispose of contents/container in accordance with local, state and federal regulations. Care must be taken when using or disposing of chemical materials and/or their containers to prevent environmental contamination.

KEEP OUT OF REACH OF CHILDREN

NOT FOR AQUATIC USE

Principal Functioning Agent(s): Hydrochloric acid, citric acid, phosphoric acid, vinegar.
Constituents ineffective as spray adjuvants: TOTAL: 100.0%

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180
