DIRECTIONS FOR USE

Approved commercial applications include homes, offices, automobiles and institutions—e.g., schools, hospitals, daycare centers, churches, correctional facilities. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Wear protective eyewear/goggles or face shield and gloves when using this product. Allow treated areas and surfaces to dry before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

The active ingredient in SmartShield RTU™ is effective against odor-causing bacteria, bacteria which cause staining and discoloration, fungi (mold and Mildew), and algae as a static agent.

APPROVED APPLICATIONS: Air Filters for furnaces, air-conditioners, air purification devices, automobiles, re-circulating air handling systems; bed sheets, blankets, and bed-springs; buffet taking (absorbent and polishing); carpets and draperies; fiber for upholstery, sleeping bags, apparel, where the fabric is cotton, natural dyes, nylon, polyurethane, rayon, silk, wool, fiberglass dust cover, fire hose fabric, hamilide textiles, mattress pads and bedding; men's underwear and swimwear; non-woven polyester, outdoor apparel (jaspe), sweatshirts, men's t-shirts, coats, car upholstery, jeans, trousers, polyurethane and asphaltics foam for household, industrial, and institutional sprays and mops; sand bags, tests, tempering, mats, and ropes; athletic and casual shoes; shoe liners; shower curtains; socks comprised of nylon, nylon/elastane, cotton/nylon, lycra, acrylic/polyamide, nylon/elastane/nylon/lurex; woven made of 100% cotton, 100% polyester, and blends of the two fibers; leek lids and seal covers; umbrellas; upholstery made of acrylics, anilox, cotton, fiberglass, nylon, nylon/elastane, polyethylene, polystyrene, rayon, spandex, satin, vinyl, vinyl paper, paper for food-contact surfaces; disposable vinyl cloths that can be used for multiple purposes such as drying or washing furniture, roofs, walls, windows, floors, appliances, dishes, counter tops; the wiping cloths do not impart pesticide properties; women's hose and intimate apparel.

FOR PUMP SPRAY APPLICATION: Using pump sprayer, spray entire area 4'-5' from the surface making sure the surface is completely covered. Apply and let stand until dry or let stand 3 minutes and wipe dry with cloth of sponge. If spotting occurs, wipe with moist cloth or sponge. Test for cleaning and color-fastness of fabrics and carpets by tossing and drying a small, concealed area prior to application. SmartShield RTU™ levels approximately 2000 square feet per ready-to-use gallon based on the application method. When tossing colored substrates, more SmartShield RTU™ may be required due to absorption. A fan may be used to assist in drying carpet.

The surface can be dried at room temperature or at temperatures of a maximum of 160°F (71°C), for example in a clothes dryer. Remove excess liquid before attempting to dry in a clothes dryer. If necessary, apply SmartShield RTU™ every three months or when odor, staining and discoloration due to bacteria, mold stains and mildew stains return.

ODIS Presents

SmartShield RTU™
Antimicrobial Surface Protectant

Provides a Clear, Long Lasting Shield Which Stops and Prevents the Growth of Mold, Mildew, Fungus, Algae and Bacteria.

Active Ingredient:

- 3-(Tribromoalkoxy) propyldimethylbacylylammonium chloride—.......................... 0.50%
- Other Ingredients:........................................................................................................ 99.50%
- TOTAL INGREDIENTS:............................................................................................... 100.00%

ENVIRONMENTAL HAZARDS

Residential use: This pesticide is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of pesticide. Do not apply directly into water.

Commercial and Industrial Uses: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, ditches, sewers, or other water courses in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

De-activation may be required during storage up to a spill occurs. De-activation of SmartShield RTU™ can be achieved by the addition of strong surfactant (such as soap), surfactants, sulfates) in quantity equivalent to that of SmartShield RTU™.

SmartShield RTU™ resists and inhibits non-microbial, non-antimicrobial coating which inhibits the growth of odor-causing bacteria, bacteria which cause staining and discoloration, fungi (mold and Mildew), and algae.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Store in original tightly closed container below 50°C (122°F) and above 0°C (32°F) in a secure area inaccessible to children and away from food or feed.

For Container up to 5 gallons non-refillable container. Do not reuse or refill this container. Empty the remaining contents into appropriate equipment or a tox tank. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.

IMPORTANT: WARRANTY AND DISCLAIMER INFORMATION

Envirotades, LLC warrants the product conforms to its chemical description and is reasonably fit for the purpose stated in this bulletin which in accordance with directions under normal conditions of use, but the warranty of fitness for a particular purpose does not extend to the use of this product contrary to bulletin instruction, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
