**Microcare® 3% CS**

Controlled Release Insecticide

**KILLS ACCESSIBLE STAGES OF:**
- Angoumois Grain Moths
- Ants (excluding Harvester Ants)
- Asian Lady Beetles
- Bees
- Boxelder Bugs
- Cadelles
- Carpet Beetles
- Carpenter Ants
- Carpenter Bees
- Centipedes
- Cigarette Beetles
- Clover Mites
- Cockroaches
- Confused Flour Beetles
- Crickets
- Dermestid Beetles
- Dried Fruit Beetles
- Drugstore Beetles
- Firebrats
- Flies
- Fungus Gnats
- Fungus Gnat Larvae
- Gnats
- Grain Mites
- Indianmeal Moths
- Mealworms
- Mealybugs
- Mediterranean Flour Moths
- Millipedes
- Mosquitoes
- Moths
- Red Flour Beetles
- Sawtoothed Grain Beetles
- Scorpions
- Silverfish
- Sowbugs
- Spiders
- Ticks
- Trogoderma
- Wasps
- Weevils (Granary Weevils and Rice Weevils)
- Yellowjackets

**FOR USE IN AND AROUND:**
- Bakeries
- Beverage Plants
- Calf Hutches
- Canneries
- Dairies
- Flour Mills
- Federally Inspected Meat and Poultry Plants
- Food Handling Establishments
- Food Processing Plants
- Food Storage Areas
- Grain Mills
- Hog Operations
- Homes
- Horse Barns
- Hospitals
- Nursing Homes (except patient rooms while occupied)
- Hotels
- Industrial Installations
- Kennels
- Landscapes
- Loafing Sheds
- Meat Packing Plants
- Mill Rooms
- Milking Parlors
- Motels
- Office Buildings
- Poultry Operations
- Residences
- Restaurants
- Schools
- Stables
- Supermarkets
- Transportation Equipment [Airplanes (cargo areas only), Buses, Boats, Railcars, Ships, Trailers and Trucks]
- Warehouses
- Zoos

**ACTIVE INGREDIENTS:**
- Pyrethrins*, a botanical insecticide
- Piperonyl Butoxide**

**OTHER INGREDIENTS:**

**TOTAL:** 100.0%

* 1 gal contains 0.25 lb of Pyrethrins and 1.25 lb piperonyl butoxide
** Butylcarbitol@-6-propylpiperonyl) ether and related compounds

**EPA Reg. No. 499-516**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See back panel/inside booklet for First Aid, Precautionary Statements, Directions for Use and Storage and Disposal.

**NET CONTENTS:** 3.75 qt (120 fl oz)

**BASF Corporation**

**NET CONTENTS:** 3.75 qt (120 fl oz)
Microcare® 3% CS
Controlled Release Insecticide

KILLS ACCESSIBLE STAGES OF: Ants (excluding harvester ants), Asian Lady Beetles, Bees, Boxelder Bugs, Caddisflies, Carpenter Beetles, Carpenter Ants, Carpenter Bees, Centipedes, Gypsy Moths, Cockroaches, Confused flour Beetles, Crickets, Dermestid Beetles, Dried Fruit Beetles, Drugstore Beetles, Fleas, Flies, Fungus Gnats, Fungus Gnats Larvae, Gnats, Grain Mites, Indianmeal Moths, Mealworms, Mosquitoes, Mediterranean Flour Moths, Millipedes, Mosquitoes, Moths, Red Flour Beetles, Sanboothed Grain Beetles, Scorpions, Silverspot, Soldier Bugs, Spiders, Ticks, Trogoderma, Wasps, Weevils (Grainy Weeds and Rice Weevil) and Yellowjackets

FOR USE IN AND AROUND: Bakeries; Beverage Plants; Calf Hutches; Canneries; Dairies; Flour Mills; Federally Inspected Meat and Poultry Plants; Food Handling Establishments; Food Processing Plants; Food Storage Areas; Grain Mills; Hog Operations; Homes; Horse Barns; Hospitals and Nursing Homes (except patient rooms while occupied); Hotels; Industrial Installations: Kitchens; Landscapes; Lawn and Shrub; Meat Packing Plants; Milk Rooms; Milking Parlors; Motels; Office Buildings; Poultry Operations; Residences; Restaurants; School Cafeterias; Supermarkets; Transportation Equipment (Airplanes cargo areas only), Boats, Buses, Railcars, Ships, Trailers and Trucks; Warehouses and Zoos

ACTIVE INGREDIENTS:

- Pyrethrins, a botanical insecticide .......................................................... 3.0%
- Piperonyl Butoxide** .......................................................... 15.0%

OTHER INGREDIENTS: ............................................................................ 82.0%

TOTAL: ............................................................................. 100.0%

* 1 gal contains 0.25 lb of Pyrethrins and 1.25 lb piperonyl butoxide
** (1,1-Diethyl-3,3-dimethylbenzyl)carbinyl(6-propylpiperonyl) ether and related compounds

First Aid:

If in eyes
- Hold eyes open and rinse slowly and gently with water for 15 to 20 min.
- Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes.
- Call a poison control center or doctor for treatment advice.

Hotline Number

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-932-HELP 24 hr/day, 7 days/week.

Precautionary Statements

Hazards to Humans and Domestic Animals

Caution: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wash hands thoroughly with plenty of soap and water after handling, and before eating, drinking, chewing gum, using tobacco or using the toilet.

Personal Protective Equipment (PPE): Applicators, mixers and other handlers must wear: Long-sleeved shirt, long pants, socks and shoes.

User Safety Requirements: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product’s concentrate. DO NOT reuse them.

Net Contents: 3.75 qt (12 fl oz)

BASF Corporation
26 Davis Drive, Research Triangle Park, NC 27709
NVA 2014-05-448-0012 81040389 30526996
ENVIRONMENTAL HAZARDS
This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. DO NOT apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

To protect the environment, DO NOT allow pesticide to enter or runoff into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hr. will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems.

PHYSICAL OR CHEMICAL HAZARDS
DO NOT spray where electrical short circuits might result, such as wall outlets, conduits, motors, switches, etc. DO NOT spray directly into any electronic equipment, such as radios, televisions, computers, telephones, etc.

USE RESTRICTIONS
- Apply this product only as specified on this label.
- DO NOT apply this product directly to domestic (companion animals) such as dogs, puppies, cats or kittens.
- Except when applying to livestock, DO NOT apply this product in a way that will contact workers or other persons, either directly or through drift.
- Except when applying to livestock, only protected applicators may be in treated area during application.
- Except when applying to livestock, DO NOT enter or allow others to enter treated area until sprays have dried.
- DO NOT apply more than 1 time/day.
- Remove pets, birds and cover fish aquariums before spraying.
- Remove or cover exposed food and drinking water, in the treatment area, before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces in the treatment area, or wash them before use.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies or aquatic habitat can occur. DO NOT allow the product to enter any drain during or after application.
- In hospitals and nursing homes, DO NOT use in patient rooms while occupied.
- In schools, DO NOT apply to classrooms when in use.
- DO NOT use in aircraft cabins.
- DO NOT make outdoor applications during rain.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

FIRST AID
Applicators, mixers and other handlers must wear:

motors, switches, etc.
radios, televisions, computers, telephones, etc.

to this label:

NEWER MACHINES:
Apply via Crack & Crevice ®, direct, spot or surface application method(s).

MIX WITH WATER TO DISPERSE AND ACTIVATE IN ACCORDANCE WITH DILUTION RATES:

Apply the concentrate according to the dilution table. Add remaining water to spray tank and direct, spot or surface application method(s).

COMPRESSED AIR SPRAYERS:

Apply via Crack & Crevice ®, direct, spot or surface application method(s).

Hose-End Sprayers:

Apply via Crack & Crevice ®, direct, spot or surface application method(s).

DO NOT

Applies made through the use of a coarse, low-pressure spray to only those portions of surfaces that are directly above bare soil, lawn, turf, mulch or other vegetation, as listed on this label, and not over an impervious surface, drainage or other voids. Apply in such a manner to limit dripping and runoff on structural surfaces and plants.

Apply the concentrate according to the dilution table. Add remaining water to spray tank and direct, spot or surface application method(s).

COMPRESSED AIR SPRAYERS:

Apply via Crack & Crevice ®, direct, spot or surface application method(s).

NEWER MACHINES:
Apply via Crack & Crevice ®, direct, spot or surface application method(s).

Hose-End Sprayers:

Apply via Crack & Crevice ®, direct, spot or surface application method(s).

DO NOT

Applies made through the use of a coarse, low-pressure spray to only those portions of surfaces that are directly above bare soil, lawn, turf, mulch or other vegetation, as listed on this label, and not over an impervious surface, drainage or other voids. Apply in such a manner to limit dripping and runoff on structural surfaces and plants.

User Safety Recommendations

Users should:

• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.
• **DO NOT** apply directly to impervious horizontal surfaces such as sidewalks, driveways and patios except as a spot or Crack & Crevice treatment. During application, **DO NOT** allow pesticide to enter or runoff into storm drains, drainage ditches, gutters or surface waters.

• All outdoor applications, if permitted elsewhere on this label, must be limited to spot or Crack & Crevice treatments only, except for the following permitted uses, if allowed elsewhere on this label:
  1. Applications to soil or vegetation, as listed on this label, around structures;
  2. Applications to lawns, turf and other vegetation, as listed on this label;
  3. Applications to the side of a building, up to a maximum height of 3 ft above grade;
  4. Applications to underside of eaves, soffits, doors or windows permanently protected from rainfall by a covering, overhang, awning or other structure;
  5. Applications around potential pest entry points into buildings, when limited to a surface band not to exceed 1" in width;
  6. Applications made through the use of a coarse, low-pressure spray to only those portions of surfaces that are directly above bare soil, lawn, turf, mulch or other vegetation, as listed on this label, and not over an impervious surface, drainage or other condition that could result in runoff into storm drains, drainage ditches, gutter or surface waters, in order to control occasional invaders or aggregating pests.

• **DO NOT** water the treated area to the point of runoff.

• **DO NOT** wet plants to point of runoff or drip.

• **DO NOT** wet articles to point of runoff or drip.

• **DO NOT** use treated articles until spray has dried.

• When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.

---

**MIXING INSTRUCTIONS**

Shake container well. Fill spray tank half full with water. Add the appropriate amount of concentrate according to the dilution table. Add remaining water to spray tank and mix well. Agitate material while using. Use 50 mesh screen in sprayer.

**APPLICATION INSTRUCTIONS**

Apply via Crack & Crevice®, direct, spot or surface application method(s). **DO NOT** apply as a space spray.

**HOSE-END SPRAYERS:** Dilute, as desired, according to the dilution table or specific directions for use. Shake sprayer to disperse the product and shake occasionally during use to maintain dispersion.

**COMPRESSED AIR SPRAYERS:** For surface applications, apply as a coarse, wet spray at the rate of 1 gal diluted product/1,000 ft² of surface. For Crack & Crevice applications, inject product at the rate of 1 sec/ft. In long running cracks, move injector tip at the rate of 1 ft/sec.

**VOID/Crack & Crevice APPLICATION:** To treat insects harboring in voids and in cracks and crevices, use equipment designed for void applications. Follow the manufacturer’s recommendations for proper equipment setup and operating pressures. Place the tip of the applicator at or into the crack, crevice or void to be treated. Apply product in short bursts while keeping the tip in position. Allow the air stream to push insecticide deep into voids. Apply in such a manner to limit dripping and runoff on structural surfaces and plants.

CRAWLING INSECTS AND SPIDERS: Apply as a Crack & Crevice or spot treatment to hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators and manholes. Treat floors, walls, under pallets, behind shelves and drawers. Apply directly on insects in these locations where possible.

PERIDOMESTIC COCKROACHES: Apply at the 0.10% rate, as a Crack & Crevice or spot treatment to hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators and manholes. Treat floors, walls, under pallets, behind shelves and drawers. Apply directly on insects in these locations where possible.

ANTS (excluding Harvester Ants): Treat trails, nests and points of entry around doors, bookcases and storage areas. Apply directly on insects in these locations where possible.

CARPENTER ANTS: Locate source of infestation. Inject 5 to 10 sec of product into insect tunnels and cavities.

BED BUGS: Thoroughly inspect area of suspected bed bug infestation, and note potential harborage sites or actual infestations. Prior to treatment, please ensure that infested bedding (pillows and linens), clothing and other items or obstacles have been removed from the area that may prevent thorough inspection or treatment. Apply to mattresses as a spot treatment to mattress seams, edges and tufts of bed only. DO NOT use directly on pillows, bed linens or clothes. DO NOT saturate the mattress; and DO NOT treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing pillows and/or bed linens.

Bed bugs may also harbor in areas of the room away from the bed. Apply as a Crack & Crevice or spot application where evidence of bed bugs occurs. This includes bed frames, box springs, inside empty drawers and clothes closets, night stands and other furniture in the room, carpet edges, high and low wall moldings (such as floor molding or window casings), wall voids, behind wall hangings and mirrors, wallpaper edges and popcorn ceilings. Remove all clothes and other articles from dressers or closets before application. Take bed apart. Treat joints and channels if hollow, such as square or round tubing, and see that interior framework is treated. Apply as a surface application to carpeting, drapes and flooring. Allow all treated areas to dry thoroughly before use.

CARPET BEETLES: Apply on and under edge of floor coverings, under carpets and furniture and in closets or other locations where these insects are found. Entire carpets may be treated.

TICKS: Direct product toward pet beds and resting areas. Treat adjacent cracks and crevices such as behind baseboards and edges of carpet and floor coverings. Treat higher cracks such as upper door jams and window framing, behind pictures and other areas where females may crawl to lay eggs. Allow spray to thoroughly dry before allowing pets to return.

DO NOT treat companion animals, such as dogs, cats, puppies or kittens, with this product.

STORED PRODUCT PESTS: Apply as a Crack & Crevice or spot treatment to localized areas including shelves, cupboards, walls and floors where food products suspected of being infested are stored. Remove or cover food, in the treatment area, before application. This treatment is supplemental to good housekeeping, since it will have no effect on insects inside packaging. Dispose all infested foodstuffs.
FOAM APPLICATION: This product can be converted to a foam and the foam used to treat structural voids to kill insect and arthropod pests in walls, under slabs or in other void areas. Mix 1 part end-use dilution with 25 parts foaming agent. This will provide adequate coverage and expansion without significant wetting to interior wall surfaces. Verify, before treatment, that the foaming agent is compatible with this product.

FOOD HANDLING ESTABLISHMENTS
Crack & Crevice, spot or direct spray treatments are permitted within food/feed areas of food handling and processing facilities where facility is not in operation. DO NOT apply this product as a space spray treatment within food handling and processing facilities. Food handling establishments are places other than private residences in which food is held, processed, prepared or served.

FOOD AREAS: Include areas for receiving, serving, storing (dry, cold, frozen, raw), packing (canning, bottling, wrapping, boxing), preparing (cleaning, slicing, cooking, grinding), edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups).

NON-FOOD AREAS: Include areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas (after canning or bottling). Apply according to specific directions for pest(s) to be treated under the Indoor Use section.

OUTDOOR USE
DO NOT apply this product through any type of irrigation system or sprinkler systems, cold ULV foggers, thermal foggers or handheld, aerosol mister/foggers. Apply only as a surface application by backpack, hose-end sprayer, hydraulic sprayer or compressed air sprayer.

FLYING INSECTS: Treat outside surfaces of screens, doors, window frames or wherever insects may enter indoors. Also treat surfaces around light fixtures on porches, in garages and other places insects alight or congregate.

MOSQUITOES, FLIES AND GNATS: Apply as a wet spray to open areas near homes, buildings and in campgrounds. Treat shrubbery, vegetation and other areas where these pests may rest. Shrubbery and vegetation around stagnant pools, marshy areas, ponds and shorelines may be treated. Treatment of vegetation in water from land is also permitted by allowing wind to move product into vegetation, but application of this product directly to any body of water is prohibited.

CRAWLING INSECTS AND SPIDERS: For treatment of localized infestations of these insects in outdoor areas which are landscaped, planted, mulched or unmaintained, treat infested areas. For ants, wet hills and runways. Repeat applications as infestation warrants and as reinfestations occur. For ants and spiders, apply product to cracks and crevices where insects may enter premises or harbor. Areas to be treated include weep holes, under siding, wall voids, soffits, eaves around attic vents, cracks and crevices, openings around windows, doors and pipes. Treatment of infested fences and tree holes is permitted.

PERIDOMESTIC COCKROACHES: Apply at the 0.10% rate, as a Crack & Crevice or spot treatment to hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators and manholes. Treat floors, walls, under pallets, behind shelves and drawers. Apply directly on insects in these locations where possible.

STRUCTURAL PERIMETER TREATMENT: To reduce infestations of buildings, treat a band of soil 6 to 10 ft wide around and adjacent to the building. Also treat the building foundation to a maximum height of 3 ft above grade. Applications around potential pest entry points where pests are active and may find entrance into buildings are limited to a surface band not to exceed 1” in width. Treat the underside of eaves, soffits,
doors, windows, under siding and eaves of structures. This product may be applied in compressed air, backpack or low-pressure power spray equipment at the rate of 1 to 4 fl oz of concentrate/1,000 ft² (see chart below). Apply in sufficient water to adequately cover the area being treated. Apply in such a manner to limit dripping and runoff, and DO NOT allow this product to enter or runoff into storm drains, drainage ditches, gutters or surface waters.

**MOSQUITOES, FLIES AND GNATS:** For pests in open areas near homes, buildings and in campgrounds, apply as a surface spray to shrubbery and vegetation, and other areas where these pests may rest. Structural surfaces, shrubbery and vegetation around stagnant pools, marshy areas, ponds and shorelines may be treated. Treatment of vegetation in water from land is also permitted by allowing wind to move product into vegetation, but application of this product directly to any body of water is prohibited.

**OUTDOOR RESIDENTIAL MISTING SYSTEMS:** Dilute 0.5 to 1 gal of concentrate in 54 gal of water.

**USE RESTRICTIONS**

- When using this product, installers and service technicians must comply with the license, certification or registration requirements of the state(s), tribe(s) or local authority(ies) where they are installed.
- If the system works on an automatic timer, set the timing for application when people, pets and food are unlikely to be present.
- If the system works when a person operates a remote activation device, then application of this pesticide when people, pets and food are present is prohibited.
- DO NOT use in an evaporative cooling system.
- Direct nozzles to spray towards the target area and away from swimming pools, water bodies, or eating and cooking areas.
- DO NOT set nozzles to direct mist near outside air condition systems or other home air intake areas.
- If used in a system with a reservoir tank for the end use dilution, the system reservoir tank must be locked. Securely attach the end use pesticide label and a dilution statement to the system reservoir tank in a weather protected area or plastic sleeve. The dilution statement must be phrased as follows: This container holds ____ parts [product name] to ____ parts water.
- If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.
- Contact the system manufacturer for guidance or assistance to ensure compliance with the following requirement:
- This product must only be used in systems that have been calibrated to apply no more than the maximum application rate of 3 fl oz of a 0.02% pyrethrins dilution/1,000 ft³/day.

† In New York State, this product may NOT be applied using residential automated misting systems.
USE IN AND AROUND LIVESTOCK HOUSING

FOR FAST KNOCKDOWN OF FLYING INSECTS: Close all windows and doors. Using a mixture of 1 to 2 fl oz of product per gallon of water, direct fog upward in all directions at the rate of 3 ft oz diluted product per 1,000 ft² of space. Thoroughly ventilate the area after treatment is completed.

TO KILL FLIES IN NON FOOD ANIMAL AREAS SUCH AS DOG KENNELS, HOG BARNES, RABBIT HUTCHES, DAIRY AREAS, MILKROOMS, CALF HUTCHES, CALVING PENS AND PARLORS: Treat normal fly resting areas such as ceilings, screens, upper corners of the area, around windows and doors, light fixtures and other surfaces known to attract flies. Apply as a coarse, wet spray using a mixture of 1.5 fl oz of product per gallon of water. Apply at a rate of 1 gal diluted product per 1,000 ft² of surface. Initiate treatments at the beginning of the fly season and repeat weekly during periods of heavy fly activity.

TO KILL FLEAS: Treat animal areas such as dog kennels and runs. Apply as a coarse, wet spray using a mixture of 2 fl oz of product per gallon of water. Apply at a rate of 1 gal diluted product per 1,000 ft² of surface.

FOR TREATMENT OF LIVESTOCK ANIMALS: Use 2 fl oz of product per gallon of water (use 4 fl oz for quick knock-down and longer residual control) and apply as a low-pressure spray. Lightly mist animals thoroughly, but DO NOT treat to runoff. DO NOT spray directly toward the face or eyes. Application may be repeated daily. DO NOT treat companion animals, such as dogs, cats, puppies or kittens, with this product.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in its original container in a cool, dry (preferably locked) place, in an area that is inaccessible to children and animals. DO NOT store above 100°F for extended periods of time. Storage below 32°F may cause freezing. If container is damaged or spill occurs, use product immediately or dispose of product and damaged container as indicated below.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site, in accordance with the label directions, or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. DO NOT reuse or refill this container! Empty container by using the product according to the label directions. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 sec after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 sec. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 sec after the flow begins to drip. Repeat this procedure 2 more times. Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
insects may enter indoors. Also treat surfaces around light fixtures on porches, in entry points where pests are active and may find entrance into buildings are limited.

MOSQUITOES, FLIES AND GNATS:

FLYING INSECTS:

Compressed air, backpack or low-pressure power spray equipment at the rate of 1 to 1,000 ft² (Amount of product directly to any body of water is prohibited. Also permitted by allowing wind to move product into vegetation, but application of this pesticide when people, pets and food are present is prohibited. For treatment of localized infestations of these 

DO NOT treat companion animals, such as dogs, cats, puppies or kittens, with this product.

FOR TREATMENT OF LIVESTOCK ANIMALS:

DO NOT contact the system manufacturer for guidance or assistance to ensure compliance with the following requirement:

The dilution statement must be phrased as follows: This container holds ___ parts

attach the end use label to the pesticide container in a weather protected area or plastic sleeve.

PESTICIDE DISPOSAL:

DO NOT disposes of product and damaged container as indicated below.

This page intentionally left blank.
PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wash hands thoroughly with plenty of soap and water after handling, and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. DO NOT apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area. To protect the environment, DO NOT allow pesticide to enter or runoff into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hr. will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems.

FIRST AID

If in eyes
• Hold eyes open and rinse slowly and gently with water for 15 to 20 min.
• Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes.
• Call a poison control center or doctor for treatment advice.

HOTLINE NUMBER
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-832-HELP 24 hr/day, 7 days/week.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. See inside booklet for complete Directions for Use.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in its original container in a cool, dry (preferably locked) place, in an area that is inaccessible to children and animals. DO NOT store above 100°F for extended periods of time. Storage below 32°F may cause freezing. If container is damaged or spill occurs, use product immediately or dispose of product and damaged container as indicated below.

CONTAINER DISPOSAL: Nonrefillable container. DO NOT reuse or refill this container! Empty container by using the product according to the label directions. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 sec after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 sec. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 sec after the flow begins to drip. Repeat this procedure 2 more times. Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
