HIGHLIGHTS:

- **ENVIRONMENTAL HAZARDS**: Includes use of flammable or combustible materials, and must be made before application. Plants in bloom should be applied for the purpose of pest control only. The product is intended for use in all locations where these insects may be harboring or hibernating. Infested areas include, but are not limited to, cracks and crevices, behind shelves and drawers. Apply directly on insects in these locations where possible.

- **CARPET BEETLES**: Make spot or Crack & Crevice treatments to keep cabinets, drawers, and other areas free of carpet beetles and related pests. Apply directly on insects in these locations where possible.

- **ANIMALS (excluding Carpenter Ants)**: Apply a Crack & Crevice or spot treatment to trails, nests and points of entry. For crevice treatment to localized areas including shelves, in between wall studs or other voids, apply the product directly on insects or in areas where these insects may be harboring or hibernating. Infested areas include, but are not limited to, cracks and crevices, behind shelves and drawers. Apply directly on insects in these locations where possible.

- **ANIMALS (excluding Carpenter Ants)**: Apply a Crack & Crevice or spot treatment to trails, nests and points of entry. For crevice treatment to localized areas including shelves, in between wall studs or other voids, apply the product directly on insects or in areas where these insects may be harboring or hibernating. Infested areas include, but are not limited to, cracks and crevices, behind shelves and drawers. Apply directly on insects in these locations where possible.

OUTDOOR TREATMENTS

FLYING INSECTS: Treat outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages and other places where insects alight or congregate. Repeat as necessary. Treat normal flying resting areas such as ceilings, upper corners of the area, around windows and doors, light fixtures and other surfaces known to attract flies. Hold can 1 to 2 ft from target surface and apply at the rate of one 20 oz can/250 to 375 ft² of surface area. Treat so as to lightly moisten the target surface. Initiate treat- ment at the beginning of the season and repeat as necessary but not more than 1 time/day.

TO KILL MOSQUITOES OUTDOORS: To kill adult mosqui- toes, treat shrubbery, vegetation and other areas where mosquitoes may rest. Direct application of this product to any body of water is prohibited. Apply at the rate of one 20 oz can/250 to 375 ft² of surface area. Repell as necessary, but not more than 1 time/day.

PERIMETER TREATMENT - for crawling insects, such as Ants (excluding Carpenter Ants), Cockroaches, Crickets, Earwigs, Pillbugs, and Sowbugs: Treat infestations of these insects in out- door areas which are landscaped, planted, mulched or unmaintained. For ants, treat mounds and runways. Repeat applications as infestation warrants and as reinfections occur, but not more than 1 time/day. Apply to cracks and crevices where insects may enter premises. Areas to be treated include, weep holes, under siding, wall voids, soffits, around attic vents, cracks and crevices, and openings around windows, doors and pipes. Treatment of infested fences and tree holes is permitted. To help prevent infestations of buildings, treat a band of soil 6 to 10 ft wide around and adjacent to the building. Also, treat the building foundation up to a maximum height of 2 to 3 ft and where pests are active and may find entrance. Treat at the rate of 14 sec/100 ft².

Camping, Campers, Tents, Trailers and Recreational Vehicles: Make Crack & Crevice or spot treatment where insects may be harboring or traveling. For space treatment, apply 1 to 3 sec. Keep the treated area closed for at least 15 min and thoroughly ventilate before re-entry.

CABINS: Make Crack & Crevice or spot treatment where insects may be harboring or traveling. For space treatment, close all windows and doors and direct fog upward at a rate of 2 to 4 sec/1000 ft². Dispense in all locations. Keep the treated area closed for at least 15 min, and thoroughly ventilate before re-entry.

CONDITIONS OF SALE AND WARRANTY

Follow the Directions for Use. It is impossible to eliminate all risks inherently associated with use of this product, and therefore all such risk shall be assumed by the Buyer. BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the Directions for Use, subject to the inherent risks referred to above. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW: (A) BASF MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY, (B) BUYER’S EXCLUSIVE REMEDY AND BASF’S AND SELLER’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT, AND (C) BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BASF and the Seller offer this Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.

DO NOT contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store away from heat or open flame when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to chil- dren and animals.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: DO NOT puncture or incinerate. If empty: Offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions.

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols. Conditions of Sale and Warranty
