Kills fleas, flea eggs, flea larvae, ticks and chewing lice

How To Open

 Remove product from tube. Squeeze one tube per each application. Hold the tube with both hands and squeeze out the contents between the two fingers. Be sure to twist the tube to dispense the entire contents onto the target animal. After application, wash hands with soap and water.

How To Apply

 Treat tires and other areas to keep fleas and ticks away. Start treating for fleas and ticks after application. Be sure to apply the entire contents of the tube to the target animal. Apply treatment only on the dogs' coat. If treatment is necessary, repeat the application monthly. For use on canines only.
