PT® 565 Plus XLO®
Pressurized Contact Insecticide

FOR USE IN AND AROUND: Apartments, Campgrounds, Food Storage Areas, Homes, Hospitals, Hotels, Motels, Nursing Homes, Resorts, Restaurants and other Food Handling Establishments*, Schools, Supermarkets, Transportation Equipment (Buses, Boats, Ships, Trains, Trucks, Planes®, Utilities, Warehouses, and other Commercial and Industrial Buildings)

*See special instructions for these sites under Directions for Use.

ACTIVE INGREDIENTS:
- Pyrethrins, a botanical insecticide
  0.5%
- Piperonyl Butoxide, Technical*
  1.0%
- n-Octyl Bicyclohexene Dicarboximide
  1.0%
- Other Ingredients:
  97.5%

TOTAL: 100.0%

*Equivalent to 0.8% (butyrylcarbonyl)(6-propionyloxy) ether and 0.2% related compounds.

KEEPS OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

If swallowed: Immediately call a poison control center or doctor. DO NOT induce vomiting unless told to do so by a poison control center or doctor. DO NOT give any liquid to the person. DO NOT give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water. Wear protective gloves and safety goggles when handling the product. If in eyes: Hold eyes open and rinse slowly and gently with water for 15 to 20 min. Remove contact lenses, if present, after the first 5 min, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, referably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor for treatment. You may also contact 1-800-832-HELP (4357) for emergency medical treatment information.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through skin. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling.

NOTICE TO APPLICATOR: In order to avoid any unpleasant drying of the nose and throat when dispensing this product in confined areas or when prolonged exposure to spray mist occurs, wear a NIOSH-approved respirator with an organic vapor (OV) cartridge or canister with any R, P, or H EPREI filter.

ENVIRONMENTAL HAZARDS
This product is toxic to fish. DO NOT apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. DO NOT contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS
Extremely Flammable. Contents under pressure. Keep away from heat, sparks, and heated surfaces. DO NOT puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

See side panels for additional Precautionary Statements, Directions for Use and Storage & Disposal.

NET WT: 1 lb, 4 oz (20 oz)

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH THE USES AND DIRECTIONS FOR USES ON THIS LABEL:

IN HOSPITALS AND NURSING HOMES: Do not apply this product in hospital rooms while occupied or in any room occupied by the elderly or infirm. Apply according to specific directions for pests(s) to be treated. Patients who are allergic to this product may experience an allergic reaction. This product should be ventilated for 2 hrs after spraying. Do not return patients to room until after ventilation.

FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS: Apply according to specific directions for pest(s) to be treated. When applying a space treatment in food handling areas, the food handling operation shall be shut down. Foods should be removed or covered during treatment. In food processing areas, all utensils, shelving, etc., where food will be handled should be removed or covered before treatment or thoroughly washed with an effective cleaning compound followed by a potable water rinse prior to use. Careful Crackle & Crevice application for inspection purposes is permissible at all times except where federally inspected meat and poultry plants, as provided below.

FEDERALY INSPECTED MEAT AND POULTRY PLANTS: Apply according to specific directions for pest(s) to be treated. When using this product, apply only when products are not in operation. Foods should be removed or covered during treatment. After a space treatment, all food processing surfaces and equipment should be thoroughly washed with an effective cleaning compound followed by a potable water rinse before using. To prevent food product contamination, the treated area should be free of odor before the food product is placed in the area.

SCHOOLS: Do not apply to classrooms when in use.

PLANES: Do not apply in aircraft cabins.

DO NOT spray on plastic, painted, or varnished surfaces or directly onto any electronic equipment such as radios, televisions, computers, etc.

DO NOT use this product in electrical equipment (where there is exposed wiring or contact points) due to possibility of short circuits and shock hazards.

In order to avoid any unpleasant drying of the nose and throat when dispensing this product in confined areas or when prolonged exposure to spray mist occurs, wear a NIOSH-approved respirator with an organic vapor (OV) cartridge or canister with any R, P, or H EPREI filter.

HOW TO USE BASF INJECTION SYSTEM

CRACK & CREVICE® APPLICATION: Use this product with the supplied actuator and injection tubes. For BASF equipment, inject this product into cracks and crevices or void spaces where insects may be harboring, living and breeding. Place injector tip into cracks, crevices, holes and other small openings. Apply product for 1 sec. For light infestations move injector tip along cracks while treating at the rate of 5 to 10 sec/ft 3. For heavy infestations move injector tip along cracks while treating at the rate of 15 sec/ft 3. Several holes may be required in long-running voids.

FORAGE AREA TREATMENT: Calculate the cubic footage to be treated and apply at the dosage rate specified below for the pest(s) to be treated. Ventilate treated areas before recouping.

INDOOR TREATMENTS

FLYING INSECTS (Cluster Flies, Flies, Fruit Flies, Gnats, mosquitoes, Small Flying Moths): Apply as a space treatment. Close all windows and doors and direct fog upward at a rate of 1 to 2 sec/1,000 ft 3. Disperse in all locations. Keep area closed for 15 min. Open and ventilate before recouping. Treatment may be repeated daily if necessary.

CLUSTER FLIES, CLOVER MITES, WASPS AND BEES INSIDE STRUCTURAL Voids: For treatment of these pests, locate all insect entrances and close all but one opening. Determine size of void. Inject 5 to 10 sec/3 ft 3 of void into remaining opening. For best results, treat at dusk or later. Treatment may be repeated every 3 days if necessary.

ANTS, BOOKLICE, CENTIPEDES, CLOVER MITES, CRICKETS, MILLIPEDES, ROACHES, SILVERFISH, SOWBUGS AND SPIDERS: Apply as a Crack & Crevice treatment into cracks and crevices in all hiding places behind baseboards, sinks, cabinets, meter boxes, door frames, windows or as a space treatment at a rate of 20 sec/1,000 ft 3. Open cabinets and doors in area to be treated. Turn off air conditioners and fans and close doors and windows before treating. Disperse toward area suspected of harboring the greatest insect infestations. Disperse in all locations contacting as many insects as possible. Keep area closed for 15 min. Open and ventilate the treated area before recouping. Treatment may be repeated every 3 days if necessary. Inspections may be made on a daily basis.

For treatment of void areas such as attics, false ceilings and crawl spaces, calculate the volume of the void and apply as a space treatment at a rate of 20 sec/1,000 ft 3. Treatment may be repeated every 3 days if necessary.

BED BUGS: Take bed apart and treat cracks, joints and interior of frame. Treat mattresses and box springs; especially tufts, folds, and edges. Also treat picture frames, moldings and all cracks and crevices in the room. DO NOT use in patient rooms in hospitals and nursing homes for treatment of bed bugs.

CARPET BEETLES (In Residences): Hold product 36” above floor and direct spray toward floor and lower walls treating at a rate of 10 sec/100 ft 2. Also apply an Crackle & Crevice treatment to cracks and crevices near the source of the infestation.

Conditions of Use

Follow the Directions for Use. It is impossible to eliminate all risks inherently associated with use of this product, and therefore all such risk shall be assumed by the Buyer. BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose thereto referred by the Buyer in the Directions for Use, subject to the inherent risks, referred to above, to the extent consistent with applicable law:

(a) Buyer’s exclusive warranties expressed or implied
(b) Seller’s express warranties
(c) Seller’s “exclusiveness” must be read in light of the purchase price paid by Buyer and the Seller disclaim all liability for consequential, incidental, special or indirect damages resulting from the use or handling of this product. Basf and the Seller offer the product, and the Buyer accepts it, subject to these Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
