DESCRIPTION: ProSpray™ wipes are non-woven, non-abrasive disposable towelettes presaturated with ProSpray™ Disinfectant. ProSpray wipes are an effective “one-step” cleaner and intermediate-level disinfectant according to the AOAC Use-Dilution Test, modified in the presence of 5% organic soil load and meets AOAC efficacy standards for hospital-use disinfectants. This product cleans, disinfects and deodorizes hard non-porous surfaces in one labor-saving step. ProSpray wipes may be used in healthcare, office, transport, commercial and home settings on vinyl, plastics, metals, floors, walls, counters, carts and bedside equipment.

TO OPEN PACKAGE: Open cap lid and pull up firmly using lid to remove the entire cap from canister. Remove protective seal. Locate wipe at the center of the roll and insert corner of wipe through opening in lid. Replace lid. Pull wipe up and slightly to the side. The next wipe pops up automatically. Always snap lid securely shut between uses to prevent moisture loss.

DIRECTIONS FOR USE: IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

ProSpray wipes are designed for use on hard non-porous surfaces. This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

CLEANING:
ProSpray wipes are an effective ready-to-use cleaning agent. Occasional rinsing or wiping with damp cloth is recommended when ProSpray wipes are used frequently on floors, stainless steel, vinyl and other hard surfaces.

FOR USE AS A ONE-STEP CLEANER/DISINFECTANT:
Pre-clean heavily soiled areas. ProSpray wipes may be used for this step. Discard used wipes after pre-cleaning. Remove one or more fresh ProSpray wipes Disinfectant Towelette(s), unfold, wipe surface thoroughly. If areas are not heavily soiled, clean and disinfect with one wipe. All surfaces must remain visibly wet for 3 minutes.

HIV-1 (AIDS virus)
Herpes simplex virus types 1 & 2

PROSPRAY™ WIPES KILL HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in healthcare settings or other settings in which there is an expected likelihood of soiling inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type-1 HIV-1 (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV ON SURFACES OR OBJECTS SOILED WITH BLOOD OR BODY FLUIDS:

PERSONAL PROTECTION: When handling items soiled with blood or body fluids or when conducting procedures which might lead to contact with blood or body fluids, always wear items such as disposable gloves, gowns, masks and eye coverings.

CLEANING PROCEDURES: Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of ProSpray wipes. ProSpray wipes may be used for this purpose.

CONTACT TIME:
Allow surface to remain wet for one minute to kill HIV-1 (AIDS Virus) and Herpes simplex virus types 1 & 2. Use a three minute contact time for TB, Staphylococcus aureus, Staphylococcus aureus - MRSA HA, Salmonella enterica, Pseudomonas aeruginosa and Trichophyton mentagrophytes (Fungus).

DISPOSAL OF INFECTIOUS MATERIAL: Blood and other body fluids must be autoclaved and/or disposed of according to local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS:
Hazardous to humans and domestic animals.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

USER SAFETY REQUIREMENTS: Follow manufacturers' instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Users must wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice.

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

HOTLINE NUMBER: In case of an emergency call toll free 1-800-535-5053.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store at room temperature in original container in an area inaccessible to persons unfamiliar with its use. Tightly close lid between uses to retain moisture.

PESTICIDE DISPOSAL: Do not reuse towelettes. Dispose of used towelette and empty container in regular trash. Do not flush used towelettes. To avoid waste, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

CONTAINER DISPOSAL: Non-refillable canister. Do not reuse or refill this canister. Offer for recycling if available or puncture and dispose of in a sanitary landfill or by procedures approved by state and local authorities.
