Absorbine® UltraShield® EX Insecticide and Repellent Carpet and Surface Spray for Dogs

READ ALL DIRECTIONS COMPLETELY BEFORE USE.

USE ONLY ON DOGS. DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. SHAKE WELL BEFORE USE. Ready to use. No mixing necessary. Hold container upright and spray as directed. FOR RESIDENTIAL USE: INDOOR APPLICATION:

PRECAUTIONS AND RESTRICTIONS: Do not apply this product in a way that will contact children, either directly or through drift. Except when applying to dogs, do not allow adults or pets to enter until spray is dry. Application is prohibited directly into sewers or drains or to any area like a gutter where drainage to sewers, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Not for broadcast use. Not for use in outdoor residential misting systems. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Remove pets, birds and cover fish aquariums before use. Do not wet articles of point of runoff or drip. Do not use treated articles until spray has dried. Do not apply more than once a day. DIRECTIONS: To operate sprayer, turn tip to proper setting, spray surfaces or point stream cracks and crevices and pump trigger to spray as directed. For best results, follow directions for specific uses. Do not use this product in or on electrical equipment due to possibility of shock hazard. Avoid excessive wetting furniture and carpeting. Always test in an inconspicuous area prior to use, as liquid products may adversely affect some natural and synthetic fibers. DO NOT CONTAMINATE FOOD AREAS. FLEA AND TICK CONTROL. FOR SURFACE AND CARPET SPRAY: Prior to application, thoroughly vacuum all carpeting and upholstered furniture, along baseboards, under furniture, and in closets. Put vacuum bag into a sack and dispose of in outside trash. Apply uniformly at the rate of 1 fluid ounce per 10 square feet to rugs, carpets, draperies, and all surfaces of upholstered furniture. Spray carpet and around furniture if not frequent traffic in these areas. Avoid excessively wetting upholstered furniture and draperies. A fine spray is uniformly applied so it is necessary to kill fleas. To kill ticks and other labeled insects, apply directly to pets. Do not allow children or pets to walk on treated surfaces until completely dry. Do not spray on pets or humans. FOR USE IN VEHICLES: If fleas or ticks are transported in vehicles, use as directed above for contact infestation. FOR USE IN PET DOG AREA: Treat dog bedding and other dog resting places as those are primary hiding areas for fleas and ticks. No need to remove pet bedding after treatment. To reduce infestation, spray around sleeping area, around baseboards, window and door frames, wall cracks, and crawl spaces, under floors, and other resting places until the surface is slightly moist. Also, spray the entire inside surface of dishwashers and ovens. Do not allow pets to use treated areas until completely dry. For best results, protect your pet and its environment by reducing reinfestation of adult flea from outdoors. Use EPA registered flea and tick products, such as Absorbine® UltraShield EX Insecticide & Repellent flea and tick control for dogs, flea and tick collar, insect powder, pet spray, pet shampoo, flea shampoo, flea and tick pet shampoo, in conjunction with this application and prior to re-entry. DOGS: Kills and repels fleas, ticks and lice. Consult a veterinarian before using this product on debilitated, medicated, aged, pregnant or nursing animals. Do not apply to puppies under the age of 12 weeks. Sensitivities may occur after using any pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Cover animal's ears with a blindfold. Do not spray directly on mouth, nose and eyes. Avoid contact with mouth, nose, and eyes. Then spray from the neck to the tail, finishing legs last. For best penetration of spray on skin to and on heavily coated animals, direct spray against the natural lay of the hair, spraying the ruffled hair directly behind the hand. Do not apply more than 3.0 fl. oz. of product to dog. Make sure the spray thoroughly wets ticks. When used on outdoor and patio furniture, a towel should be used to protect the animal. Do not apply on the mouth, nose or eyes. AVOID CONTACT WITH GINNIAL.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage and disposal. Pesticide Storage: Store product with spray nozzle closed. Store in a cool, dry area, preferably one that can be locked. Always store pesticides in the original container. Store container upright. Store away from food and pet food. Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. If empty, Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS. CAUTION. Harmful if absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt, long pants, shoes, socks and chemical resistant gloves make sure to wash covered clothing before reuse. Remove and wash contaminated clothing before reuse. Avoid contamination of food or feedstuffs. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow it off the treatment area. This pesticide is toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow drift when bees are actively foraging near the treatment area. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-water or rinseate.
