PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING: Causes skin and eye irritation. Harmful if swallowed or if inhaled or in contact with skin. Do not get on skin, in eyes or on clothing. Do not eat, drink or smoke when using this product. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Take off contaminated clothing and wash before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Wear protective gloves, long-sleeved shirt, long pants and shoes plus socks.

FIRST AID

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• If skin irritation occurs, get medical advice.
• Call a poison control center or doctor if you feel unwell.

IF IN EYES:
• Rinse cautiously with water for 15 to 20 minutes.
• Remove contact lenses, if present and easy to do so. Continue rinsing.
• If eye irritation persists, get medical treatment.

IF SWALLOWED:
• Call a poison control center or doctor if you feel unwell.
• Rinse mouth.

IF INHALED:
• Remove person to fresh air and keep comfortable for breathing.
• Call a poison control center or doctor if you feel unwell.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also call CHEMTREC at 800-424-9300 for emergency.

ENVIRONMENTAL HAZARDS

Do not contaminate water sources by cleaning of equipment or disposal of washwater.

USE INFORMATION

HAF-PYNT is a general purpose non-ionic spray adjuvant of the Alkyl polyethoxylate type surface active agents. This product does not contain Nonylphenol Ethoxylates (NPEs). It contains an anti-foam to handle the high foaming associated with some product combinations and is designed for quick wetting, uniform droplet distribution and increased spray retention on leaf and stem surfaces. It incorporates superior wetting and penetrating characteristics that allow for more uniform spray coverage without excessive runoff of the spray. This product can be used with acaricides, defoliants, desiccants, fungicides, herbicides, insecticides, plant growth regulators (PGR) and wettable powders to improve performance of the active spray ingredient.

MIXING INSTRUCTIONS

For wettable powders and water-soluble materials, add this product in water before adding pesticide to spray tank. For emulsifiable products, add this product after a good emulsion is formed.

DIRECTIONS FOR USE

Always read and follow the label of the pesticide(s) and additive(s) to be used with this product. Always refer to the pesticide and additive label(s) for additional use directions, precautions or restrictions. Follow the most restrictive label. Variations in conditions of use can cause some variation in the amount of this product required. The minimum required to give a smooth, uniform coverage usually gives the most effective results. Not for aquatic use.
