0-0-5 Fertilizer with ACELEPRYN® Insecticide

GROUP 28 INSECTICIDE

The use of this product is restricted to turf professionals; however, this label is intended for use by homeowners and turf professionals. This product is for professional use only. The homeowner shall not apply this product and may not direct others to apply this product. This product bears the restricted use pesticide (RUP) designation and is intended for use only by licensed applicators. The use of this product may result in increased applicator liability.

Agricultural Use Requirements

The user must be enrolled in the Turfgrass Product Protection Program (TPPP) for agricultural applications. This product can be used to control aphids, sawfly larvae, and Mexican bean beetle; and to suppress chinch bugs. This product can also be used for the control of grubs, wireworms, and other soil-inhabiting insects. The user must have $1 million in liability insurance covering the use of this product.

SODIUM NITROPHOSPHATE

30% N - 15% P2O5 - 5% K2O - 35% Water

6 MOL (ae)

Guaranteed Analysis

Guaranteed Analysis

Description

This product is a water-soluble granular formulation of sodium nitrophosphate. It contains 30% of the nutrient content of the sodium nitrophosphate, which is effective in developing a strong root system and a healthy turf. It is a natural fertilizer and is suitable for use in organic farming and gardening.

Storage

This product should be stored in a cool, dry place, away from direct sunlight. It should not be exposed to freezing temperatures. It should be kept away from children and pets. This product is non-toxic, generally safe for use, and can be used around pets and children. It is recommended to follow the label instructions for proper application and storage.

European Chafer Fly (including Leptinotarsadecemlineata)

European Chafer Fly (including Leptinotarsa decemlineata) is a soil-inhabiting insect that can cause significant damage to turfgrass. To control this insect, you may apply this product at the recommended application rates. Always follow the label instructions for proper application and storage.
