**Hazardous to Humans and Domestic Animals**

**DANGER:**
- Strong oxidizing agent. Causes serious eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wearing gloves or latex sheet-plaster rubber gloves is recommended when handling. Wash gloves after handling and before eating, drinking, chewing gum, using tobacco, or going to the toilet. Remove and wash contaminated clothing and shoes before reuse. May be fatal if swallowed, inhaled, or to the skin. Avoid breathing dust.

**ENVIRONMENTAL HAZARDS:**
- The pesticide is toxic to fish and aquatic organisms.

**Physical and Chemical Hazards:**
- Strong oxidizing agent. May be hazardous. Improper disposal of excess pesticide, its packaging, or waste that has come into contact with the product may be hazardous. Improper disposal of excess pesticide, its packaging, or waste that has come into contact with the product may be hazardous.

**Emergency Contact Numbers:**
- EPA Est. No. P  52270-GA-1
- EPA Est. No. W 85855-WV-001

**Other Legal Rights:**
- You may also have other legal rights which vary from state to state.

**First Aid Measures:**
- If Inhaled:
  - Call poison control center or doctor immediately for treatment advice. Have person sip water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- If on Skin or Clothing:
  - Call poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor.
- If in the Eye:
  - Have person rinse eyes with large volumes of water for 15 minutes. Call a poison control center or doctor immediately for further treatment advice.
- If on the Skin:
  - Wash the contaminated clothing and shoes before reuse. May be fatal if swallowed, inhaled, or to the skin. Avoid breathing dust.
- If Ingested:
  - Next treatment advice. Have the product container or label with you when calling a poison control center or doctor.

**Precautionary Statements:**
- KEEP OUT OF REACH OF CHILDREN

**Storage and Disposal:**
- Store the container(s) out of the reach of children. Do not store it near food or feed products.

**Pesticide Handling:**
- Follow label instructions. Contact your local Pesticide Regulatory Authority or Environmental Control Agency, or the Hazardous Substance Registry, for guidance.

**Environmental Handling:**
- If a chemical reaction with generation of heat, explosion of hazardous gases, or possible violent reaction leading to fire or explosion. If product becomes contaminated or decomposes, do not treat the container. If possible, collect treated container in open air or well-ventilated area. If needed, by fully decontaminate the container.

**Packaging and Labeling:**
- The container(s) is labeled in accordance with Federal law.

**Expiration Date:**
- The product is labeled for use on or before the expiration date.

**Uses:**
- Destroys Organic Contaminants
- Controls Algae
- Destroys Organic Contaminants
- Restores a Crystal Clarity to Pool Water
- No Need to Preflocculate

**How to Apply to Pools:**
- Refill the pool water as needed. Use at least once per week. To apply, follow the label instructions.

**Supplementary Information:**
- For additional directions for use, including Service Bulletins, visit https://www.westlake.com/wtp-service-bulletins.

**NOT FOR EXPORT**

**Disclaimer:**
- This information is the Manufacturer’s complete knowledge of the product at the time of manufacture. The Manufacturer reserves the right to change the information at any time without notice.

**Warranty:**
- The Manufacturer warrants that this product is free from defects in material and workmanship. The Manufacturer’s sole obligation and your sole remedy shall be the return of the product to the Manufacturer. The Manufacturer shall not be liable for any direct, indirect, incidental, consequential, or exemplary damages in connection with the use of this product.

**First Aid Information:**
- Call a poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor.

**Danger:**
- Extremely Hazardous
- Immediate Danger

Super ZAPPIT™
Shock Treatment for Swimming Pools
Kills Bacteria • Controls Algae • Destroys Organic Contaminants
Restores a Crystal Clarity to Pool Water • No Need to Predissolve

KEEP OUT OF REACH OF CHILDREN
DANGER
Do not mix with any other chemicals, including any other pool chemicals of any kind.
Mixing with other chemicals could cause a fire or explosion.
Always add product to large quantities of water to fully dissolve product.
Do not pour water into product, always add product to water.
See additional precautionary statements on back label.

FIRST AID
Contact 1-304-455-6882 or your poison control center for 24-hour emergency medical treatment information. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Active Ingredient:
Calcium Hypochlorite .................................................... 73%
Other Ingredients: .......................................................... 27%
Total: ............................................................................. 100%
Minimum 70% Available Chlorine

NET WT. 5 lbs. (2.27 kg)
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SWIMMING POOL USE
Pool water is subject to a build-up of a wide variety of organic contaminants including swimmer wastes, such as perspiration, ammonia compounds, and natural and synthetic oils and lotions. If left untreated, the build-up of these contaminants can lead to the development of noxious odors, irritating water, and unwholesome water clarity problems. These organic wastes serve as nutrients for bacteria, algae, and other organisms, and should be removed from the pool on a regular basis to prevent their build up. This product will effectively reduce organic contamination in swimming pool water resulting in increased water clarity.

USE DIRECTIONS
For any application method you choose: No one can be in the pool when chemicals are being added directly to the pool. Do not mix this product with other chemicals, including any other pool chemicals of any kind, such as disinfection or “shock” products. Mixing could cause a fire or explosion. Always add this product to large quantities of water to fully dissolve. Never add water into product. Make sure to keep the pump and filter running during application and for at least 6 to 8 hours after application to allow for the best product dispersion. For best results, test your pool water prior to addition of this product and maintain pool water parameters in the ranges noted below.

This product will raise the pH of pool water. For best results, test your pool water prior to addition of this product. If your pH measures 7.4 or higher, adjust it downward so that it is between 7.2 to 7.4. This will help avoid clouding of water and allow for faster dispersion of the product.

This product can be added by broadcasting the dry granules over the pool water surface at the deepest end of the pool while the pump is running. Should any granules settle at the bottom of the pool, use a pool brush to disperse them. Take care to not tear the liner in above ground pools or any pool with a liner while brushing.

HOW TO APPLY TO POOLS
REMINDER: Never add water to product. Always add product to large quantities of water to fully dissolve. Treatment should be done at night or during a period when the pool is not in use.

Shock Treatment / Superchlorination: Adjust pH between 7.2 and 7.4 prior to shocking or superchlorination. Add this product at night or when the pool is not in use. To prevent pool water problems, shock at least once per week during periods of heavy use or when water temperatures are above 80°F and once every two weeks in residential pools receiving normal usage. Maintain operation of the pump and filter. Do not enter the pool until the free chlorine residual has dropped to 4.0 ppm or less as measured using a suitable test kit. Between treatments with this product, continue to maintain the proper water balance and sanitizer level in your pool as recommended on the label of your normal pool sanitizer.

For additional directions for use, including Service Bulletins, visit https://www.westlake.com/wtp-service-bulletins.

DANGER: Highly Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or going to the toilet. Remove and wash contaminated clothing and shoes before reuse. May be fatal if swallowed. Irritating to nose and throat. Avoid breathing dust.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing agent. Mix only with water. Do not mix this product with any other chemicals, including any other pool chemicals of any kind, such as other disinfection or “shock” pool products. Always add product to large quantities of water to dissolve product. Do not pour water into product. Use only a clean, dry utensil made of metal or plastic each time product is taken from the container. Do not add this product to any dispensing device containing remnants of any other product or pool chemical. Such use may cause violent reaction leading to fire or explosion. Contamination with moisture, acids, organic matter, other chemicals (including, but not limited to cleaning chemicals and other pool chemicals), petroleum or paint products or other easily combustible materials may start a chemical reaction with generation of heat, liberation of hazardous gases and possible violent reaction leading to fire or explosion. If product becomes contaminated or decomposes do not reseal container. If possible isolate container in open air or under a well-ventilated area. Flood with large volumes of water, if necessary, to fully dissolve product.

STORAGE AND DISPOSAL
Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

PESTICIDE STORAGE: Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container.

PESTICIDE DISPOSAL: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or place in trash collection.

LIMITED WARRANTY: The Manufacturer warrants, for a period of 1 year from purchase, that when this Product is stored and used, all in accordance with label directions, it will be fit for its intended purpose. THE MANUFACTURER EXPRESSLY DISCLAIMS ALL OTHER EXPRESS OR IMPLIED WARRANTIES. TO THE EXTENT THIS DISCLAIMER IS PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTIES ON THIS PRODUCT ARE LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. If this Product fails to conform to this Limited Warranty, the Manufacturer will refund your purchase price or furnish replacement, at the Manufacturer’s option. This is the Manufacturer’s sole liability and in no event will Manufacturer be liable for direct, indirect, special, incidental or consequential damages. To make a claim under this Limited Warranty, contact the store/ dealership where you purchased this Product. This Limited Warranty gives you specific legal rights, and you may also have other legal rights which vary from state to state.
