JOHNSON GRASS & WEED KILLER FOAM

- Convenient foam in a ready-to-use formula
- Waterproof 10 minutes after application
- Foam application allows you to see where you sprayed
- Kills weeds and Johnson Grass down to the root

HOW IT WORKS: Rainbow Johnson Grass & Weed Killer Foam contains glyphosate to kill all types of weeds and grasses. Once glyphosate enters the plant, it moves systematically to the roots to kill the weeds and grass. The foam application allows for accurate application to the weed or grass, while avoiding unwanted drift to desired plants. Weeds and grass begin to wilt within hours, yellow, and are typically completely killed in 1-2 weeks.

WHAT TO KNOW: This product foams upon contact with the target weed to allow you to see where it was applied. The foam application enhances drift to desired plants and allows for accurate targeting of weeds in tight spots. It is ideal for use in flower beds and gardens where you want to avoid drifting to other sensitive areas such as vegetable plants and trees.

Rainespet: This product is rain or water resistant within 10 minutes after application. The rain or water will not wash away effectiveness.

WHERE TO USE: Perfect for targeting weeds in flower beds, vegetable gardens, ornamental landscapes, and more. Ideal for use in flower beds and gardens where you want to avoid drifting to other sensitive areas such as vegetable plants and trees. It is also effective in tough-to-reach places.

DIRECTIONS FOR USE

1. Read and follow all label directions carefully. To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions for use. Product guaranteed to the extent of purchase price, only when used according to label directions.

2. Environmental Hazards: To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treated area.

3. Physical or Chemical Hazards: Contains under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not mix or store product to come into contact with oxidizing agent. Hazarous chemical reaction may occur.

4. Notice: Read and follow all label directions carefully. To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions for use. Product guaranteed to the extent of purchase price, only when used according to label directions.
