Section 24(c) Special Local Need Label
FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

Transform® WG
EPA Reg. No. 62719-625
EPA SLN No. WA-150009

DANGER

This label for Transform WG expires and must not be distributed or used in accordance with this SLN registration after December 31, 2020.

ATTENTION
- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

Directions for Use: Alfalfa Grown for Seed / Lygus Bugs

Application Method and Rate: Apply by ground application only. Apply 1.5 to 2.75 oz formulated product (0.047 to 0.086 lb a.i.) per acre per application. Ground application must be made in a minimum of 15 gallons of water per acre.

Application Timing: Treat in accordance with local economic thresholds. Consult your Dow AgroSciences representative, cooperative extension service, certified crop advisor or state agricultural experiment station for any additional local use recommendations for your area. Refer to product label for General Use Precautions, Mixing and Application instructions.

Restrictions / Precautions:
- Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours.
- Do not make applications less than 7 days apart.
- Do not make more than two applications per crop.
- Do not apply more than a total of 5.5 oz of Transform WG (0.172 lbs. ai of sulfoxaflor) per acre per year.
- For use under this SLN label do not apply this product by aerial application or through any type of irrigation system.
- This product is highly toxic to bees exposed through contact during spraying and while spray droplets are still wet. This product may be toxic to bees exposed to treated foliage for up to 3 hours following application. Toxicity is reduced when spray droplets are dry.
- Apply between sunset and sunrise when alfalfa leafcutting bees and alkali bees are not actively foraging on alfalfa grown for seed.
- All alfalfa seed screenings shall be disposed of in such a way that they cannot be distributed or used for human food or animal feed. The seed conditioner shall keep records of screening disposal for three years from the date of disposal and shall furnish the records to the director of the WSDA...
immediately upon request. Conditioner disposal records shall consist of documentation of on-farm disposal, disposal at a controlled dump site, incinerator, composter, or other equivalent disposal site and shall include the lot numbers, amount of material disposed of, the grower(s), and the date of disposal.

- No portion of the alfalfa seed plant, including but not limited to green chop, hay, pellets, meal, whole seed, cracked seed, roots, bulbs, leaves and seed screenings may be used or distributed for food or feed purposes.

- All alfalfa seed grown or conditioned in Washington shall bear a tag or container label which forbids use of the seed for human consumption or animal feed.

- No alfalfa seed grown or conditioned in Washington may be distributed for human consumption or animal feed.

**WSDA Container Disposal Guidance:** Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the WSDA Waste Pesticide Program web site at [http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx](http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx). Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in Washington.
