SeClear G
Algaecide and Water Quality Enhancer®

For use in aquatic systems including: ponds, lakes, reservoirs, rivers, streams, irrigation canals and ditches, flood-irrigated fields, aquaculture, man-made water features, livestock watering basins, potable water systems.

Active Ingredient: Copper, Sequestered Polyaluminum
(Ca) 7500-61-6)
Other ingredients: Water.

Total Copper Equivalent: 10%

WARNING/AVISO

Suitable for use in aquatic systems to control algae growth and improve water quality. Read all directions carefully before using. Apply SeClear G carefully and follow directions on the label.

PRECAUTIONARY STATEMENTS

Read all directions for use carefully before applying. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. May be hazardous to aquatic organisms. Treatment of aquatic weeds and algae can cause fish and invertebrate suffocation. To minimize this hazard, do not treat more than one-third of the water body at a time.

Agricultural use restrictions:

• Use on vegetable and fruit crops is restricted.
• Use only on agricultural plants on farms, forests, nurseries or greenhouses. For other uses, refer to the EPA for registration status.
• Use is subject to pesticide registration restrictions in the following States: CA, FL, GA, NY, OR, PA, WA.

Animal Health Precautions:

• Store at least 50 degrees F below freezing in the original container.
• If mixed with other products, check compatibility.
• Do not mix with strong acids.
• Do not mix with copper-containing products.

User Health Precautions:

• Do not exceed the recommended application rate.
• Do not use on food-producing crops.

Environmental Hazards:

• The pesticide is toxic to aquatic organisms. Water treated with this product may be harmful to aquatic organisms. Do not use in or around ponds, lakes, streams, ditches or any other water bodies or wetlands.
• Do not use on or near fish-bearing streams, rivers, or ponds.

Personal Protective Equipment (PPE)

• Use proper protective clothing, including: gloves, long-sleeved shirt, pants, shoes and socks, and a face shield.
• Avoid breathing the dust, spray, or mist.

Storage and Disposal:

• Store at least 50 degrees F below freezing in the original container.
• Do not mix with strong acids.
• Do not mix with copper-containing products.

Terminology:

• Nontarget: An aquatic organism that is not the intended target of the application.
• Primary application: The first application of a chemical that is intended to control a specific pest target. This application is often followed by additional applications to maintain control.

Net weight 50 pounds (Non-refillable)

In case of contact with the eyes, wash immediately with plenty of water for 15 to 20 minutes. Remove contact lenses, if worn. In case of contact with the skin, wash immediately with plenty of water. In case of contact with the mouth, rinse the mouth thoroughly with plenty of water.

In case of large-scale spillage regarding this product, call EPA at 800-238-4075 or your state or local authorities. Further treatment should be by immobilization or ventilation. Follow all precautions and instructions for aerial application. If SeClear G is inhaled, get fresh air immediately. Do not attempt to force breathing.

On an annual basis, SeClear G is evaluated by the U.S. EPA for effectiveness, plant selectivity and environmental impact. For information about current status and to view the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) registration for SeClear G and SeSCRIPT®, please visit http://www.epa.gov/fedinspec/ or search the SeClear G site.

In case of contact with skin, wash immediately with soap and water. In case of contact with clothing, remove clothing and wash with soap and water.
