This product kills Avian Influenza A Virus (H5N2 and H7N9), 2013 Influenza A Virus (H7N9), Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella enterica, Escherichia coli NEM-1, positive, Enterococcus faecalis NEM-1 positive, Escherichia coli New Delhi Metallo-Beta Lactamase (NDM-1) and KASSAIA pseudomonas NEM-1 positive on pre-cleaned environmental surfaces.

**Disinfection/Virucidal/Fungicidal/Mold and Mildew Control Directions:**

- Apply concentrate to hard, non-porous surfaces; thoroughly wetting surfaces with a cloth, mop, sponge, or sprayer or by immersion. Treated surfaces must remain wet for 1 minute. After dry with a dry cloth, sponge, or mop or allow to air dry. For heavily soiled areas, a preliminary cleaning is required. For sprayer applications, use a coarse spray device. Spray 6" - 8" from the surface, rub with a sponge, paper towel or cloth. Do not commercially available sprayers, and do not reuse or refill container. Container Disposal: Nonrefillable.

**Application Equipment:**

- Empty bag into container promptly after emptying.
- Do not rinse or reuse or refill container. Container Disposal: Nonrefillable.

**Labeling:**

- Federal Law.
- Do not use on surfaces that come in contact with food, drink, or personal grooming products. Tables and countertops with potato water before reusing. Do not use on utensils, glassware and dishes. For fungicidal activity, this product is an effective fungicide against non-phototrophic microorganisms (the algal and fungal) in areas such as locker rooms, dressing rooms, showers and bath areas and exercise facilities. This product is a one-step fungicidal at 1 oz. per gallon in 20 ppm hard water and 5% serum. For mold and mildew at 1 oz. per gallon, this product will effectively control mold and mildew in the areas covered by forms when applied to hard, nonporous surfaces. Follow distribution instructions. Repeat treatment every seven days, or more often if new growth appears.

**Stability of Use Solution:**

- The use solution of this product, when stored in a sealed container such as a spray bottle, remains effective for up to 1 year. If product becomes visibly dirty or contaminated, the use solution must be discarded and fresh product prepared. Always use clean, properly labeled containers when storing this product. Bacterial stability of the solution does not apply to open containers such as buckets or pans. This product is not to be used as a terminal sterilant or high level disinfectant on any surface or instrument that [1] is introduced directly into the human body, either by contact with the bloodstream or normally sterile areas of the body, or [2] contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier. If a virus enter normally sterile areas of the body. This product may be used to prevent or decontaminate clinical or semi-critical medical devices prior to sterilization or high level disinfection. It kills HIV and HCV and HCV on pre-cleaned, environmentally soiled objects previously soaked with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of coming in contact with blood.**

**Concentration:**

- This product is available in a 1:100 dilution for use. Use 1 oz. per gallon of water to kill Adenovirus type 1 and type 7. Use a 10-minute contact time for disinfection against all other viruses, bacteria and fungi. Disposal: Infectious materials; blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**Precautionary Statements:**

- Hazards to Humans and Domestic Animals

**Warning:**

- Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear protective eyewear, face shield, or protective clothing and gloves. Handle with care. Do not touch eyes, mouth, or mucous membranes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**First Aid:**

- IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have product container or label with you when calling poison control center or doctor for treatment advice.

**Storage and Disposal:**

- Do not store or keep this product at temperatures above 100°F (40°C). Do not store in direct sunlight. Do not store in original container in areas accessible to children. Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children. Pesticide Disposal: Pesticides are subject to hazardous waste. Improper disposal of excess pesticides, spray mixes or rinse water in violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal:**

- Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Completely empty bag into application equipment. Then offer for recycling if available or disposal of a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.

**Specifications:**

- **Active Ingredients:**
  - Chlorhexidine diacetate, sulfonamide chloride, 0.650%
  - Griseofulvin, sulfonamide chloride, 2.640%
  - Sodium chloride, 3.905%
  - 4-Aminobenzenesulfonic acid, 0.050%
  - 4-Chloro-2-methylphenol, 0.000%
  - Sodium hydroxide, 79.070%
  - **Total:** 100.000%

- **Disinfectant 340**
  - Net Weight: 1 gallon, 8 ounces (4 L)
