PRINCIPAL FUNCTIONING AGENTS:
Siloxane Polyalkyleneoxide Copolymer and Polyalkyleneoxide ....................... 100%
All ingredients are approved for use under 40 CFR 180.
CA Reg. No. 7001-50545

KEEP OUT OF REACH OF CHILDREN

DANGER
HARMFUL IF INHALED. CAUSES SKIN IRRITATION. CAUSES EYE IRRITATION. MAY DAMAGE FERTILITY OR THE UNBORN CHILD. CAUSES DAMAGE TO ORGANS (LIVER, KIDNEY, THYROID, BLOOD FORMING AND REPRODUCTIVE SYSTEM) THROUGH PROLONGED OR REPEATED EXPOSURE.

PRECAUTIONARY STATEMENTS: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves / protective clothing / eye protection / face protection. If exposed call a poison center or doctor. Do not breathe mist / vapor / spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse. If exposed see the First Aid section of the label or Safety Data Sheet. Use only outdoors or in a well-ventilated area. Store locked up. Dispose of contents / container in accordance with state / national regulations.

FIRST AID: IF INHALED Remove person to fresh air and keep comfortable for breathing. Call a poison center / doctor if you feel unwell. IF ON SKIN Wash with plenty of water. If skin irritation occurs get medical attention. IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical attention.

VESTIS™

GENERAL INFORMATION
VESTIS is a nonionic organosilicone wetting agent designed for use with: crop protection products, plant growth regulators, fertilizers, microbial products and plant nutriments. VESTIS lowers spray solution surface tension to improve wetting and uniformity in leaf surface coverage beyond that of ordinary surfactants. VESTIS is ideal for use where coverage is critical. It is especially well suited for low water volume applications made by ground or aerial equipment where spray coverage may be a limiting factor.

DIRECTIONS FOR USE
The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using VESTIS, the applicator or crops advisor must have experience with the pesticide combination, including VESTIS, or must have conducted a phytotoxicity test.
• Do not use VESTIS in applications containing boron, as unacceptable crop injury may occur.
• Do not use VESTIS in applications where the spray solution is below pH 4.0 or above pH 9.0.
• Reduce spray volumes to avoid excessive run-off of the spray solution and poor performance.
• Apply within 24 hours of mixing for best results.
• Do not use VESTIS on aquatic sites.

SHAKE WELL BEFORE USING.
FOR USE WITH PESTICIDES REGISTERED FOR ORGANICALLY CERTIFIED CROPS, ORNAMENTALS AND OTHER APPROPRIATE USES.

DOSAGE:
Ground: Use 3.2 – 13 ounces per 100 gallons of spray solution.
Aerial: Use 12 – 19 ounces per 100 gallons of spray solution.

MIXING INSTRUCTIONS:
In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:
1. Compatibility agent and/or antifoam, if needed.
2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants.
3. Dry soluble and suspension fertilizers / micronutrients.
4. Liquid drift retardants and flowable formulations (F & FL).
5. Liquid concentrates, suspension and microencapsulated (LC, SC, ME).
6. Emulsifiable concentrates (E, EL or EC).
7. Solutions and soluble liquids (S or SL).
8. Liquid micronutrients and fertilizers.
9. Water conditioners (VESTIS) and other adjuvants (COC, HSOC, MSO, NIS).
10. Finish filling to desired spray volume level and continue agitation.

STORAGE AND DISPOSAL
Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC website at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

DISCLAIMER OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer’s option, as full discharge of seller’s liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
