COLOR GUARD

Organic pH Adjuster
WA Reg. #: in process

Product Description: COLOR GUARD contains citric acid (21 CFR 184.1033). COLOR GUARD is recommended for use as a pH decreaser in flumes and dump tanks.

Directions for Use: Not for aquatic use.
COLOR GUARD is recommended for use on fruits and vegetables that have been stained by "orchard bloom" from sprinkling and watering systems. Use 1/2 gallon of COLOR GUARD in 100 gallons of cold or warm water. A heavy film may require a 1% solution or multiple washings. Keep pH at 1.5-2.5.

COLOR GUARD is also useful for generating chlorine dioxide when used with IVR-SAN 15 or CLEAN FINISH in an organic treatment program. Use COLOR GUARD as required to maintain a pH of 2.5 to 3.0 in the generator. Contact your technical sales representative for further guidance.

Storage & Disposal: Store this material in a cool, dry, well-ventilated area, away from sources of ignition. Keep container tightly closed when not in use. Store only in approved containers that have been properly labeled. Protect container from physical damage.

Dispose of all product and waste in accordance with local, state, and federal regulations. Empty containers may contain product residuals which could contaminate the environment if improperly managed. Handle empty containers carefully, and dispose of them in accordance with all pertinent regulations. Do not reuse empty container; triple rinse (or equivalent) during mixing and loading.

This is an acidic product. Eye contact will cause severe irritation with possible burns. Prolonged or repeated skin contact will cause irritation with possible burns. Ingestion will cause damage to the stomach and other tissue contacted. Excessive inhalation of product dust storms can cause irritation and/or burns to the respiratory system. Wear impervious gloves and safety glasses or goggles when handling product. If vapors are present at or above TLV respiratory protection must be worn. Wear additional protective clothing as necessary to minimize contact with product.
