ADJUVANT FA
Horticultural Treatment
WA Reg. #: 43553-?????

Product Description: Adjuvant FA is specifically formulated for use as part of a system that has proven highly effective at inhibiting mineral fouling.

Directions for Use: Not for aquatic use. Use only with CH2O operating equipment. Use with one of CH2O's sodium chloride solutions, such as Aqua-Clear 15 or Clean Finish, in order to generate a powerful oxidant solution that can be used to maintain a clean, free-flowing irrigation network.

Storage & Disposal: Store this material in a cool, dry, well-ventilated area away from sources of ignition. Keep container tightly closed when not in use. Store only in approved containers that have been properly labeled. Protect container from physical damage.

Disposal of all product and waste in accordance with local, state, and federal regulations. Empty containers may contain product residuals which could contaminate the environment if improperly managed. Handle empty containers carefully, and dispose of them in accordance with all pertinent regulations. Do not reuse empty container; triple rinse (or equivalent) during mixing and loading.

This is an extremely acidic product! Contact with material will cause severe burns; prolonged contact with material will destroy tissue. Complete safety equipment must be worn when handling. Wear impervious gloves, safety goggles and face shield, as well as protective clothing, boots and respiratory protection as necessary to minimize contact with product. When making solutions, add product slowly to the surface of cold water while stirring, thus avoiding violent spattering. Contact with some metals can rapidly generate hydrogen gas, which is explosive.

First Aid: EYES: Flush with large amounts of water, lifting upper and lower lids occasionally. Get medical attention if irritation persists. SKIN: Wash exposed areas thoroughly with soap and water. Remove contaminated clothing and launder before reuse. If skin feels slippery, continue washing until sick feeling is gone. Contact a physician if irritation persists.

INGESTION: Give large quantities of water. DO NOT induce vomiting. If vomiting occurs administer additional fluids. Contact a physician for further directions. Never give anything by mouth to an unconscious person. INHALATION: Remove individual to fresh air. If breathing is difficult, give oxygen. Contact a physician if irritation persists.

Spill Procedures: Only trained personnel equipped with proper protective gear should be permitted in the area. Stop spill at source. Reclaim material if possible for reuse. Containerize contaminated material for disposal. After all visible traces have been removed flush area thoroughly with water. Dispose of all waste in accordance with local, state and federal regulations. Care must be taken when using or disposing of chemical materials and/or their containers to prevent environmental contamination.

DANGER:
Principal Functioning Agent(s): Hydrochloric acid, citric acid
Constituents ineffective as spray adjuvants: Total

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180.

IN CASE OF EMERGENCY CALL CHEMTREC AT: 1-800-424-9300
KEEP OUT OF REACH OF CHILDREN
NON-WARRANTY: As the use of this material is subject to conditions beyond the seller's control, seller makes no warranty express or implied as to this material or its use other than its chemical analysis when packed. The total liability of seller shall be limited to the purchase price of the product. Any disputes will be settled via arbitration in accordance with purchase details on your invoice.

PRODUCT MUST BE STORED ABOVE 45 DEGREES FAHRENHEIT (7 DEGREES CELSIUS)
