ADJUVANT FA
Horticultural Treatment

DIRECTIONS FOR USE: Use only with CH₂O operating equipment. Use with one of CH₂O’s sodium chloride solutions, such as Aqual-Clear 15 or Clean Finish, in order to generate a powerful oxidant solution that can be used to maintain a clean, free-flowing irrigation network. Use ADJUVANT FA as required to maintain a pH of 5.0 to 5.3 in the generator. Contact your technical sales representative for further guidance on pump settings of the generator and dilution rates for the reacted mixture of chlorine dioxide.

DANGER KEEP OUT OF REACH OF CHILDREN NOT FOR AQUATIC USE

PRECAUTIONARY STATEMENTS: This is an extremely acidic product. Contact with material will cause severe burns, prolonged contact with material will destroy tissue. Complete safety equipment must be worn when handling. Wear impervious gloves, safety goggles and face shield, as well as protective clothing, boots and respiratory protection as necessary to minimize contact with product. When making solutions, add product slowly to the surface of cold water while stirring, thus avoiding violent spattering. Contact with some metals can rapidly generate hydrogen gas, which is explosive.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Store in locked, well-ventilated area above 45°F. Keep container tightly closed when not in use. Dispose of contents/container in accordance with local, state and federal regulations. Care must be taken when using or disposing of chemical materials and/or their containers to prevent environmental contamination.

FIRST AID: If exposed, immediately contact Poison Control Center or physician. EYES: Flush with large amounts of water for several minutes, lifting upper and lower lids occasionally. Remove contact lenses if present and continue rinsing. Get medical attention if irritation persists. SKIN: Wash exposed areas thoroughly with soap and water. Remove contaminated clothing and launder before reuse. If skin feels slippery, continue washing until slick feeling is gone. Contact a physician if irritation persists. INGESTION: Rinse mouth. Give large quantities of water. DO NOT induce vomiting. If vomiting occurs administer additional fluids. Contact a physician for further directions. Never give anything by mouth to an unconscious person. INHALATION: Remove individual to fresh air. Keep at rest in a position comfortable for breathing. If breathing is difficult, give oxygen.
