Common Sense Precautions
- Keep out of reach of children. Wash hands well after use and avoid eating or smoking. Keep away from eyes and avoid direct breathing of dust. Plant oil scents can be objectionable to some people, particularly if applied in small enclosed spaces. To get rid of the scent, vacuum or use water and dish soap. If more than an incidental amount is swallowed, seek medical attention.

- Give one glass of water and do not induce vomiting. If in eyes, remove contacts and flush with water for 15 minutes. Seek medical attention for any persistent irritation. If dust is inhaled, move person to fresh air and seek medical attention for any serious or persistent symptoms. If seeking medical treatment, have this label with you.

- Do not apply to food or plants grown for food. If the dust gets on a food contact surface like a counter top, wash off with water and dish soap before using for food.

- Keep out of lakes, streams and ponds.

- We've tested the product on a variety of surfaces without problems, but it is possible that the plant oils could damage some plastics or finishes or could stain some fabrics, so test treat a small area first. If clean up is needed, vacuum or use water and dish soap.

- We've tested the product on various types of plants without causing any burning or browning, but test treat a small area first to be certain if you're concerned about plant sensitivity. It is also recommended not to apply it to the interior of the building. The label shows a exterior application safety guide.
