MISTING CONCENTRATE
For use in automatic spray systems in residential backyards and warehouses

KILLS Mosquitoes, Flies, Fleas, Ticks, Roaches, Spiders, Lice, Scorpions, Beetles, Mites.

ACTIVE INGREDIENTS
PERMETHRIN* .................................................. 10.00%
PIPERONYL BUTOXIDE** .................................. 10.00%
OTHER INGREDIENTS ........................................ 80.00%
TOTAL .................................................. 100.00%

* cis-trans isomers ratio: Min. 25% cis or >50% cis and Max. 85% or >85% trans
** piperonyl butoxide and piperonyl other related compounds

Kills Mosquitoes that may cause West Nile Virus, Eastern and Western St. Louis Equine Encephalitis.

KEEP OUT OF REACH OF CHILDREN
CAUTION
SEE PEST OUT BOOKLET FOR FIRST AID AND PRECAUTIONARY STATEMENTS

NET CONTENTS: 2 QUARTS (64 FL. OZ. | 1892 mL)
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt and long pants, socks, shoes and chemical resistant gloves.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
See Peel-Out Booklet for Complete Directions for Use

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store upright at room temperature. Avoid exposure to extreme temperatures.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Note: Seller warrants that this product complies with the specifications expressed in this label.

To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

Pyranha Bug Armor Misting Concentrate

FIRST AID

If in Eyes:
- 1. Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- 2. Remove contact lenses if present, after the first 5 minutes, then continue rinsing.
- 3. Call a poison control center or doctor for treatment advice.

If Swallowed:
- 1. Call a poison control center or doctor immediately for treatment advice.
- 2. Have person sip a glass of water if able to swallow.
- 3. Do not induce vomiting unless told to do so by the poison control center or doctor.
- 4. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing:
- 1. Take off contaminated clothing.
- 2. Rinse skin immediately with plenty of water for 15-20 minutes.
- 3. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-222-1222, twenty-four (24) hours per day, seven (7) days per week.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes, skin or clothing. Prolonged or repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt and long pants, socks, shoes and chemical-resistant gloves.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some materials that are chemical-resistant to this product are listed below. Mixers, loaders, applicators and other handlers, (including during mixing/loading, repair and cleaning of equipment and disposal of pesticide) must wear the following:

- Long-sleeved shirt and long pants
- Chemical resistant gloves made of any waterproof material
- Shoes plus socks

In addition to the above PPE, applicators using high-pressure handwand in an enclosed area must wear at least a NIOSH-approved respirator with a dual/mist filter with MSHA/NIOSH approval prefix TC-21C or any N, R, P, or HE filter.

Applicators using hand-held fogggers or foggers any other handlers or handlers during mixing/loading, repair and cleaning of equipment and disposal of pesticide must wear the following:

- Long-sleeved shirt and long pants
- Chemical resistant gloves made of any waterproof material
- Shoes plus socks

In addition to the above PPE, mixers, loaders, applicators and other persons exposed to this product’s concentrate, or handlers performing animal applications, must wear a chemical-resistant apron.

User Safety Recommendations:

-Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
-Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
-Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing.

As soon as possible, wash thoroughly and change into clean clothing.

- Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water, or to areas where surface water is present or to intermittent areas below the mean water mark. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters. See Directions for Use for additional precautions and use restrictions.

Under some conditions, this product may also have a potential for transport into surface water in runoff (primarily adsorbed to suspended soil particles), for several months or more after application. These include poorly draining or wet soils with readily visible slopes towards adjacent surface waters, frequently flooded areas and areas overlying extremely shallow ground water, areas with in-field canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetated filter strips and areas over-lying surface drainage systems that drain to surface waters.

This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Do not use this product in or on electrical equipment due to possibility of shock hazard.

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

READ THIS LABEL IN ITS ENTIRETY BEFORE USING.
FOR PET USE – USE ONLY ON DOGS OR PUPPIES OVER 12 WEEKS OF AGE

USE RESTRICTIONS

- Apply this product only as specified on this label.
- Do not apply to puppies less than 12 weeks old.
- DO NOT USE ON CATS OR KITTENS. Do not treat cats or their bedding. This product may be toxic or potentially fatal if applied to or ingested by cats or kittens.
- Application with aerial or motorized ground equipment is prohibited.
- Do not use sprayers or measuring cups for food purposes after use with pesticides.
- Do not use in livestock facilities.
- Do not use in livestock facilities, except for the following permitted uses: (1) Treatment to soil or vegetation around structures; (2) Applications to lawns, turf and other vegetation; (3) Applications to building foundations up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impermeable surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.
- Remove pets, birds and cover fish aquariums before spraying. Turn off aquarium filtering systems before spraying and wait approximately 10 minutes after application before turning the filter back on.
- This product is not for use on plants being grown for sale or other commercial use. This product should not be used for research purposes, for commercial seed production, for commercial nursery use or forestry use.

When diluting, add the correct amount of Pyranha Bug Armor Misting Concentrate to water as directed and blend thoroughly. For use both indoors (in homes) and outdoors. May be used in nonfood areas of commercial buildings, warehouses, food/feed processing establishments, institutions, schools, office buildings, hotels, motels, restaurants, theaters, hospitals, horse barns, swine and poultry houses, milking parlors, dairies, cattle barns and kennels. Examples of non-food areas are: lavatories, offices, locker rooms, garbage rooms, entries and vestibules, machine rooms, boiler rooms, garages, mop closets and storage rooms/closets (after cleaning or bottling).

For maximum effectiveness, a combination of space treatment and localized application is recommended.

Note: In the chart below, the number in the 3rd column refers to the level of Permethrin in the final diluted product. The rates on this label make the ready-to-use products listed below.

FOR DAIRY CATTLE: Spray lactating dairy cows only after milking is complete.

FOR SWINE: Do not ship animals for slaughter within 5 days of last treatment.

DIRECTIONS FOR USE IN COMMERCIAL ANIMAL PREMISE AUTOMATIC MISTING AND UV SPRAYING SYSTEMS:
In animal quarters, poultry houses, swine houses, warehouses, dairy barns, beef barns, stables, zoos and other listed livestock or animal housing areas.

TO KILL: Flies, including House Flies, Deer Flies, Horn Flies, Stable Flies, Horse Flies, Mosquitoes, including the Culex species that may carry and transmit the West Nile Virus and Eastern, Western and St. Louis Equine Encephalitis, Hornets, Wasps, Yellow Jackets, Grubs, Small Flying Moths, Earwigs, Fleas, Ticks, Fire Brats, Crickets, Cockroaches, Silverfish, Spiders and other listed insects.

Do not apply when food, feed or water is present. Do not apply directly to non-domestic/commercial (livestock) animals.

When using this product, installers and service technicians must comply with the license, certification, or registration requirements of the state(s), tribal(s), or local authority(ies) where they are installed.

When applying via remote activation device, do not apply when people and pets are present. If possible, when applying via automatic timer, set the timing for application when people and pets are unlikely to be present.
Direct nozzles to spray towards the target area and away from areas where people are typically present. The pesticide container must be locked.

Do not use in misters located within 3 feet of air vents, air conditioner units or windows. Do not use in an evaporative cooling system.

If used in a system with a reservoir tank for the end use dilution, the reservoir tank must be locked. Securely attach the end use pesticide label and dilution statement to the system reservoir tank in a weather protected area or plastic sleeve. The dilution statement must be written as follows: This container holds ___ parts Pyranha Bug Armor Misting Concentrate to ___ parts water.

If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.

This product must only be used in systems that have been calibrated to apply no more than the maximum application rate of 0.008 lbs Piperonyl Butoxide per 1000 cu. ft. per day. This represents 1/2 gallon of Pyranha Bug Armor Misting Concentrate (diluted to 0.18% Permethrin and 0.18% Piperonyl Butoxide) per 1000 cubic feet per day.

Mix 1/2 gallon (64 fluid ounces) of Pyranha Bug Armor Misting Concentrate in 55 gallons of water to yield a solution of 0.09% Permethrin and 0.09% Piperonyl Butoxide. When treating areas with high insect populations or insects that are difficult to control, mix up to 1/2 gallon of concentrate in 27.5 gallons of water to yield a solution of 0.18% Permethrin and 0.18% Piperonyl Butoxide.

For Tanks: To obtain the desired solution, partially fill the system reservoir tank with water, add concentrate to tank, and then add water to obtain desired dilution.

System nozzles should be set to deliver a rate of 1.25 fluid ounces of solution per minute, with one nozzle covering 100 square feet. The nozzles should deliver fine particle size droplets like those of a mist or an aerosol. Set the system timer to operate in accordance with equipment directions.

DIRECTIONS FOR USE IN OUTDOOR RESIDENTIAL MISTING SYSTEMS:

[NOTE: NOT REGISTERED for use in Automatic ULV Spraying Systems in the State of New York.]

Use Pyranha Bug Armor Misting Concentrate to control or temporarily reduce annoyance from accessible stages of: Mosquitoes including the Culex species that may carry and transmit the West Nile Virus and Eastern, Western and St. Louis Encephalitis, Flies, House Flies, Gnats, Deer Flies, Horse Flies, hornets, Wasps, Yellow Jackets, Fire Bites, Small Flying Moths, Earwigs, Flies, Ticks including species that may carry or transmit Lyme Disease, Cockroaches, Crickets, Spiders, Silverfish, Asian Lady Beetles and other nuisance insects.

When using this product, installers and service technicians must comply with the license, certification, or registration requirements of the state(s), tribe(s), or local authority(ies) where they are installed.

Do not apply this product when people, pets and food or drink are present.

Do not use in an evaporative cooling system.

Direct nozzles to spray towards the target area and away from swimming pools, water bodies or eating and cooking areas.

Do not set nozzles to direct mist near outside air condition systems or other home air intakes.

If used in a system with a reservoir tank for the end use dilution, the reservoir tank must be locked. The end use pesticide label and the dilution statement must be securely attached to the system reservoir tank in a weather protected area or plastic sleeve. The dilution statement must be written as follows: This container holds ___ parts Pyranha Bug Armor Misting Concentrate for Misting Systems to ___ parts water.

If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.

If the system works on an automatic timer, set the timing for application when people, pets and/or food are unlikely to be present.

If the system works if a person operates a remote activation device, then application of this pesticide when people, pets and/or food are present is prohibited.
Contact the system manufacturer for guidance or assistance to ensure compliance with the following requirement:

This product may only be used in systems that have been calibrated to apply no more than the maximum application rate of 9.5 fl. oz. of 0.09% synergized permethrin solution per 1,000 cubic feet per day.

Mix 1/2 gallon (64 fluid ounces) of Pyranha Bug Armor Misting Concentrate in 55 gallons of water to yield a solution of 0.09% Permethrin and 0.09% Piperonyl Butoxide. When treating areas with high insect populations or insects that are difficult to control, mix up to 1/2 gallon of concentrate in 27.5 gallons of water to yield a solution of 0.18% Permethrin and 0.18% Piperonyl Butoxide.

For Tanks: To obtain the desired solution, partially fill the system reservoir tank with water, add concentrate to tank, and then add water to obtain desired dilution. The system nozzles should deliver fine particle size droplets like those of a mist or an aerosol.

** will make a 0.09% synergized permethrin solution

### Instructions for Refilling a Partially Filled Tank

When refilling a partially filled tank, calculate the amount of additional solution (in gallons) required to fill the tank to the desired level. Multiply the number of gallons required to fill tank times 1.16 to determine the amount of this concentrate to add when refilling (to achieve 0.09% synergized permethrin solution).

### Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store upright at room temperature. Avoid exposure to extreme temperatures.

**Container Disposal:** Non-refillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour residual into application equipment or a mix tank or store rinsate for later use or disposal. Clean for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
