This product is Step 3 of a three step lice control system.

Step 1: Wash lice with a lice killing shampoo. Re-apply in 10 days.
Step 2: Comb out eggs & nits with a combing gel.
Step 3: Clean home. Use a multi-use lice spray for non-washable items. Washables should be washed in hot water and dried in hot heat.

**FIRST AID**
- If on skin or clothing: Take off contaminated clothing, rinse skin with soap and water, then hold eye open and rinse eye, slowly 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- If in eyes: Hold eye open and rinse slowly with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- If in mouth: Rinse oral cavity with plenty of water for 15-20 minutes.
- Call Poison Control Center or doctor for treatment.

**NOTICE TO PHYSICIAN**
Contains petroleum distillate, which may cause aspiration pneumonia.

**PRECAUTIONARY STATEMENTS**
Hazardous to Humans & Domestic Animals

**NOTE TO VETERINARIANS**

**PHYSICAL OR CHEMICAL HAZARDS**
Contains under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 120°F (54°C) may cause bursting.

**DIRECTIONS FOR USE**
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

for use on humans. Spray only those articles and parts of bedding including mattresses and furniture that cannot be either laundered or dry-cleaned. Do not use on sheets or pillowcases.

**Bedbugs:** Spray mattresses, particularly around tufts and seams. Take beds apart and spray into all joints. Treat baseboards, moldings and floors. Spray to the point of dampness but not run-off. After mattress is dry, cover with mattress cover and sheet. Do not use mattress without cover. Retreat if infestation occurs, but not more than once every two weeks.

To Kill House Dust Mites (Dermatophagoides spp.) a multi-use lice spray controls house dust mites that may cause asthma, hay fever, rhinitis, watery eyes and sneezing. One treatment lasts for up to 8 weeks. On Upholstered Furniture—test fabrics in an inconspicuous area to insure dyes will not bleed. Spray all fabric surfaces until damp. Do not use on delicate fabrics. Allow furniture to dry thoroughly before using. On Carpets—Spray entire carpet until damp. Hold nozzle approximately 12 to 18 inches from the carpet surface and spray in a sweeping motion. Use an overlapping pattern to insure total coverage. After application, brush the surface of the carpet with a broom or brush to insure deep penetration. Drying time can be accelerated by using a fan. On Mattresses—Spray the top, bottom and sides of mattresses until damp, paying particular attention to tufts and seams. Allow to dry thoroughly before using. After mattress is dry, cover with mattress cover and sheet. Do not use mattress without cover. Vacuum entire area once dry. Since vacuuming stir dust up in the air those with allergies should have another person vacuum or should wear a dust mask and use vacuum with a high efficiency particulate (HEPA) filter.

**Storage and Disposal:**

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry area away from children and pets and away from heat, sparks and open flame. Do not transport or store below 32°F (0°C).

Pesticide Disposal and Container Handling: Do not puncture or incinerate.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP (253-2687) for disposal instructions.

**NOTICE:** To the extent consistent with applicable law, purchaser assumes responsibility for safety and use not in accordance with directions.
