Rain-proof formula

Whitney Farms® Slug & Snail Killer will control slugs and snails in lawns, gardens, ornamental beds, flower beds, and shrubs. Its active ingredient, granular metaldehyde, promises a safe, highly effective solution to prevent and control slugs and snails. A systemic and contact insecticide, Whitney Farms® Slug & Snail Killer protects plants from slugs and snails that attack plants at night in a wide range of conditions. The metaldehyde is released over time, providing a residual effect for up to 30 days. Use in the garden beds, flower beds, ornamental beds, shrubs, and lawns to control slugs and snails effectively. It controls a variety of plants, including ornamental plants, garden plants, and vegetables. This product is safe for use around pets, children, and non-target organisms. It is a non-toxic insecticide that can be used in the home garden, flower beds, and ornamental beds. Use Whitney Farms® Slug & Snail Killer to protect your plants from slugs and snails. For more information, visit the Whitney Farms® website or contact your local garden center. Whitney Farms® Slug & Snail Killer is an excellent choice for organic gardening and provides effective control of slugs and snails in your garden.
