Flea & Tick Collar for Cats

DIRECTIONS FOR USE

1. Remove collar from package, unroll and stretch to activate.
2. Place the collar around the cat’s neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the pet.
3. Wetting will not impair the collar’s effectiveness or the pet’s protection. If the pet goes swimming or is out in the rain, it is not necessary to remove the collar. The collar will keep the pet protected from fleas and ticks for at least 2 months.

NOTE TO PHYSICIANS AND VETERINARIANS:

Note: This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor. Cholinergic symptoms may include salivation, hyperactivity, muscle fasciculation, and weakness, vomiting, and diarrhea. This product may cause sensitivity in some animals. If sensitivity occurs, remove the collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on animals less than 12 weeks old.

Consult a veterinarian before using this product on pets with allergies, pregnant, or on medicated animals. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON CATS.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

 Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO OTHER ANIMALS

Do not use on animals simultaneously or within 30 days before or after using another insecticide or acaricide. This product is not recommended for use on animals weighing less than 1 pound.

HAZARDS TO CLOTHING AND SURFACES

Do not contaminate water, food, or feed by storage and disposal. Do not contaminate water, food, or feed by storage and disposal.

STORAGE AND DISPOSAL

Store this product in a cool, dry place that is inaccessible to children. Pesticide Storage: Store this product in a cool, dry place that is inaccessible to children. Pesticide Disposal: Do not get into eyes or on clothing. Do not reuse or refill this container. Offer for recycling or scrap metal. Do not incinerate. Do not mix with other products except as recommended on the label. Dispose of properly. Call 800-234-2269 or your local Poison Control Center for further information.

FIRST AID

If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. If person has swallowed more than 1 capsule, call a Poison Control Center or doctor for emergency medical treatment information.

If on skin or clothing:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes. Call a Poison Control Center or doctor for treatment advice.

If in eyes:

Hold eye open and rinse slowly and gently with running water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

NOTIFICATION OF HAZARDS

This collar is intended for use only as an insecticide/repellent generator. Do not use this collar as an insecticide or acaricide. This collar will begin to kill fleas, ticks, and lice eggs and larvae immediately. If a tick is present, it will be killed within 24 hours of being placed on the pet. For continuous flea and tick protection, replace the collar every 7 months. Check your cat regularly for ticks. If a tick is found, it should be removed. This collar may not kill all species of ticks. This collar is not effective against dogs. This collar does not kill adult or egg stage ticks. This collar does not effectively control flea larvae in the environment.

NOTE TO THE USER:

Only one collar should be worn at a time. This collar is intended for use only as an insecticide/repellent generator. Do not use this collar as an insecticide or acaricide. This collar will begin to kill fleas, ticks, and lice eggs and larvae immediately. If a tick is present, it will be killed within 24 hours of being placed on the pet.
