PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, give artificial respiration. Position person in recovery position.

IF ON SKIN (OR CLOTHING): Take off contaminated clothing. Rinse skin immediately with plenty of water for at least 15 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold眼皮 open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

WASH TO PHYSICIAN: Contains petroleum distillates – working may cause aspiration pneumonia.

RETAILER/USER: Have the consumer or label with you when calling a poison control center or doctor or going for treatment. For additional information on this product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-248-7634, 24 hours per day, 7 days per week.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or runoff into storm drains, ditches, brooks, rivers, or other bodies of water. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treated area.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds where bees are actively visiting the treated area. See Directions for Use for additional precautions and requirements.

PHYSICAL AND CHEMICAL HAZARDS: FLAMMABLE. Contains Under Pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

• Apply this product only as specified on this label.

• Do not contaminate food or feedstuffs.

• This PRODUCT IS TO BE USED IN NON-FOOD AREAS ONLY.

• Not for use in outdoor residential insecticidal systems (indoor or outdoor).

• Do not use in aircraft cabins.

• Do not make applications during rain. Do not enter the treated area until it is dry.

• Do not allow children, pets, or other people to enter the treated area until spray has thoroughly dried.

• Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

• Only protected handlers may be in the treated area during application.

• Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use.

• Do not make spray applications when facility is in operation. Prior to spray applications, cover or remove food. Prior to spray applications, cover food processing equipment and clean other treatment and bird feeders.

• All outdoor applications must be limited to spot or crack-and-crevice applications only, except for the following permitted uses: (1) Treatment to soil or vegetation around structures; (2) Applications to lawns, turf, and other vegetation; and (3) Applications to building foundations, up to a maximum height of 3 ft. Other than applications to building foundations, all outdoor applications to impermeable surfaces such as sidewalks, driveways, porches, and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only.

• Do not apply directly into water or drains, or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur.

• Do not allow this product to enter any drain during or after application.

• Remove pets, birds and cover fish aquariums before spraying.

Shake well before using.

This product will not stain carpet, cloth or wood. Since it is impossible for the manufacturer to test all combinations of surfaces, chairs and tablecloths, good application practices recommend that you apply the spray on an inconspicuous area when treating a new fiber, paint or surface.

This product is formulated for use in Homes and NON-FOOD AREAS of Offices, Hotels, Motels, Schools, Hospitals, Nursing Homes, Day-care Centers, Factories, Warehouses, Supermarkets, Food Handling Establishments, Food Processing Plants, Bottling Plants, and Transportation Equipment (Automobiles, Buses, Trucks, Trailers, Boats, Ships and Trains).

Cockroach and Vidal Treatments: Important: Use the green injector nozzle to provide.

Interior Treatments: For crawling insects, apply to all crack and crevice void spaces where insects may be crawling hiding or living. Release approximately 1 second of product per crack and crevice application and from 2 to 3 seconds per cubic foot of closed void space treated. Apply more liberally for heavily infested applications. Applications can be made behind baseboards, cabinets, walls, ceilings, door and window frames, and around water pipes and appliances. Ensure contact with as many insects as possible.

Grain Weevils, Flour Beetles, Cockroach Nits, Drugstore Beetles, Termites, and Mill Flea Beetles: Inject into cracks and crevices and/or voids where these insects may be harboring, such as cliffs, corners, wall voids and in machinery.

For applications in NON-FOOD AREAS of food handling establishments only: A food handling establishment is an area or place other than a private residence in which food is used, processed, prepared, and/or served. Non-food areas of food handling establishments include: garages, basements, floor drains (in crawl spaces), attics and storage, attics, dryer rooms, machine rooms, boiler rooms, gauges, pipes, and storage (after applying or bottling). Inject between different sections of construction, between equipment and floor; openings leading to voids and hollow surfaces in voids; and equipment legs and bases, where insects hide. Avoid contact with food, drinking water, dishwashers, utensils, food processing equipment, and food preparation surfaces.

Exterior Perimeter Treatments: For crawling insects, apply to crack and crevice where insects may penetrate or appear. Use a hand duster with extra-fine nylon as necessary. Areas to be treated include: weep holes, under siding, wall voids, coffee, around attics vents, windows, doors and pipes. Treatment of interior areas and holes is not permitted.

Wood Destroying Insects (Localized Treatment): Bees, Borers, Carpenter Ants, Carpenter Bees, Termites and Wood Weevils: Locally suspected infestation and/or insect tunnels and cavities. Place discs into holes 8-10 inches apart into insect tunnels. galleys and inaccessible closed voids. Inject 5 to 10 seconds apart. Do not contact electrical wiring, plumbing, etc. when applying. For carpenter bees, seal holes with additional applications.

Drywood Termites – Probe to locate galleries, drill holes and inject 5-10 seconds spray per hole into active galleries. Powder Pest Beetles – treat exterior wood using spray tube. Apply small amounts directly into and around entrance holes.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Keep this product in its tightly closed original container, when not in use. Store in cool, dry (preferably chilled) area until required. Unless otherwise noted, apply until dry. Discard container and all unused contents. container by Disposal: Do Not Puncture or Incinerate: If empty: Place in trash or offer for recycling to a licensed recycler. If partly filled: Call your local solid waste agency for disposal instructions.

KILLS: Ants, carpet beetles, carpenter ants, centipedes, chocolate moths, clover mites, cockroaches, crickets, drug store beetles, earwigs, elm leaf beetles, fleas, millipedes, pillbugs, scorpions, silverfish, spiders, termites and trogoderma

FOR USE IN: Homes, non-food areas of offices, hotels, motels, schools, hospitals, nursing homes, clay-care centers, factories, warehouses, stores, supermarkets, restaurants, food handling establishments, food processing plants, bottling plants, and transportation equipment
