**FLEA & TICK CONTROL**

*For Pets and Home*

**Kills Adults, Eggs, Larvae & Pupae Life Cycle Stages**
- Fleas
- Ticks
- Mosquitoes
- Mites
- Mange & More

**How to Kill Ticks & Fleas**
For immediate relief, spray pets as directed below to kill fleas and ticks on contact. Pilot all flooring, furniture & pet bedding to eliminate full life cycle. For best results, treat any outdoor spaces with Wondercide Flea & Tick for Yard + Garden.

**How to Prevent Fleas & Ticks**
Apply on pets every 2-5 days and when visiting untreated areas. Spray all flooring, furniture & pet bedding quarterly. For best results, treat any outdoor spaces monthly with Wondercide Flea & Tick for Yard + Garden.

**How to Apply**
**DOGS**: Rub coat in opposite direction and spray body, belly, legs & tail. Work through coat as close to skin as possible. Spray on to hands or cloth to apply to face and ears. Do not use on cats. Safe for everyday use.

**CATS**: 4 oz. size recommended for best results. Test a small area on back of neck & chest or rear leg. During body application, if no sign of sensitivity occurs, lightly mist body, belly, legs & tail. Do not use near eyes. For more information, visit wondercide.com
dog

**HOME**
- Spray bedding, furniture, carpet & play areas. Non-staining, grease-free.

**Our Story**
When you love someone, you do everything in your power to protect them. I thought I was keeping Luna safe by using flea & tick control prescribed by a vet, but when she experienced devastating side effects ranging from skin issues to organ failure, I knew there had to be a better way.

I turned to Wondercide to protect pets, people, and property without harm chemicals. Today, our full line of natural products protects families around the world.
