WARNING

Children can fall into bucket and drown.
Keep children away from bucket with even a small amount of liquid.

AVIS0

Los niños pueden caerse a esta cubo y ahogarse.
No deje que los niños se acerquen a este cubo aunque sólo contenga una pequeña cantidad de líquido.

HELPLINE
866-HTH POOL (486-7466)
Call 7 days a week with your pool care questions, 8:00 AM - 10:00 PM EST
Visit us online: www.htpoollc.com

STOP!
Do Not Mix with other products or dissolve before use.
DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.
WHY YOU SHOULD USE THIS PRODUCT:
This is an effective sanitizer that provides brilliantly clear water, controls algae and clarifies water. This enhanced formulation contains a built-in clarifier, stain and scale preventer and water softener. Finally, it provides Vi-b-e Blue Action, so you know it is working!

For crystal clear pool water, follow our hth® 4 step pool care program:
Step 1: Test and adjust pool water balance, Step 2: Sanitize, Step 3: Shock treat your pool at least once a week, and Step 4: Add algicide regularly.

WATER BALANCE:
Download the FREE Test to Swin™ app from your smartphone for expert water analysis, product recommendations, and dosage instructions. Adjust and maintain pool water to recommended ranges:

<table>
<thead>
<tr>
<th>Acceptable Range for Balance</th>
<th>Total Alkalinity</th>
<th>pH</th>
<th>Calcium Hardness</th>
<th>Available Chlorine</th>
</tr>
</thead>
<tbody>
<tr>
<td>60-120 ppm</td>
<td>7.2-7.8</td>
<td>Above 200 ppm</td>
<td>1-4 ppm</td>
<td></td>
</tr>
</tbody>
</table>

NOTE: Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Always check and adjust total alkalinity before adjusting pH levels. Use a test kit or test strips that measure all these ranges.

HOW TO USE:
Use only a clean, dry scoop to measure this product. Do not use the scoop for any other purpose. DO NOT use in floater or feeder.+

METHOD FOR DOSING DIRECTLY INTO POOL:
Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use brush to disperse until completely dissolved. Undissolved granules may cause bleeding or other damage to pool surfaces.

METHOD FOR SKIMMER ADDITION:
Make sure that filter pump is on and properly recirculating through skimmer. Empty skimmer of all chemicals and/or debris. Contamination may cause an explosion or the release of toxic gases. DO NOT USE this method when an automatic chemical dispensing device (e.g., feeder) is present. Pour this product slowly into skimmer, making sure that the material is drawn into the system at the same rate, DO NOT allow this material to accumulate as toxic gases may be generated. Test free available chlorine residual with hth® pool test kit or test strips. Do not enter pool until the free available chlorine residual is 1-4 ppm. Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine for risk of bodily injury.

OPENING YOUR POOL:
Balance pool water per levels in WATER BALANCE section. Add a shock dosage of this product. Repeat dosage, as needed, until the free available chlorine residual is 1-4 ppm. Follow label directions for each of these products.

For pools 10,000 gallons and larger:

FOR UNSTABILIZED POOLS: Add 7 oz of this product per 10,000 gallons of pool water daily or as often as needed to maintain the free available chlorine residual at 1-4 ppm.

FOR STABILIZED POOLS: Add 4 oz per 10,000 gallons every other day or as often as needed to maintain the free available chlorine residual at 1-4 ppm.

Use the following dosage recommendations based upon pool size:

<table>
<thead>
<tr>
<th>Pool size, gallons</th>
<th>Dosage for unstabilized pools</th>
<th>Dosage for stabilized pools</th>
</tr>
</thead>
<tbody>
<tr>
<td>500</td>
<td>0.35 oz (2 tsp)</td>
<td>0.20 oz (1 1/4 tsp)</td>
</tr>
<tr>
<td>1,000</td>
<td>0.7 oz (1 1/4 Tbsp)</td>
<td>0.4 oz (2 1/2 tsp)</td>
</tr>
<tr>
<td>2,500</td>
<td>1.75 oz (3 1/2 Tbsp)</td>
<td>1 oz (2 Tbsp)</td>
</tr>
<tr>
<td>5,000</td>
<td>3.5 oz</td>
<td>2 oz</td>
</tr>
<tr>
<td>7,500</td>
<td>5.25 oz</td>
<td>3 oz</td>
</tr>
<tr>
<td>10,000</td>
<td>7 oz</td>
<td>4 oz</td>
</tr>
<tr>
<td>15,000</td>
<td>10.5 oz</td>
<td>6 oz</td>
</tr>
<tr>
<td>20,000</td>
<td>14 oz</td>
<td>8 oz</td>
</tr>
<tr>
<td>30,000</td>
<td>21 oz</td>
<td>12 oz</td>
</tr>
</tbody>
</table>

SHOCK TREATMENT / SUPERCHLORINATION:
As a preventative treatment, shock treat your pool once per week with hth shock treatment. Additional shock treatments may be necessary to remove contamination after shock treatment products, which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green color and slimy feeling.

WINTERIZING:
Gradually add 32 oz of this product per 10,000 gallons of pool water that is clear and clean. Run the filter pump until granules are completely dissolved. Cover the pool with a pool cover. Prepare the heater, pump and filter components for winterizing by following manufacturer's directions.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, absorbed through skin, or inhaled. • Open in a well-ventilated area. Avoid breathing dust and fumes. • Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear protective eyewear and use rubber gloves. For additional protection of skin, wear long sleeves and long pants. • Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. • Remove and wash contaminated clothing before reuse.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-9911

PHYSICAL AND CHEMICAL HAZARDS:
If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and gas. Do not pre-mix or add water to this product. Only add this product directly to your swimming pool or skimmer. • Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases. • Keep all foreign matter, including other water treatment products, away from this product. • Do not use this product in a floater or feeder. • Do not allow this product to contact other water treatment products. Before placing this product in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases. • Store in a cool, dry, well-ventilated area. Strong oxidizing agent. This product can increase fire intensity. • Keep away from heat and from flame and burning material, including lighted cigarettes.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. For DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING."

EMERGENCY HANDLING: In case of contamination or decomposition – Do not reuse container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill.

DANGER/PELIGRO
Contamination or improper use may cause fire,
explosion, or the release of toxic gases. Do not
allow product to contact any foreign matter,
including other water treatment products. If
product is exposed to small amounts of water, it
can react violently to produce heat and toxic
gases and spatter. Do not add water to this
product. Only add this product directly to your
swimming pool or skimmer.

Read all Precautionary and First Aid Statements on
back panel before use.

DIRECTIONS FOR USE:
It is a member of Federal law to use this product in a manner consistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE. WHY YOU SHOULD USE THIS PRODUCT:
This is an effective product that provides brilliantly clear water, controls algae and calcium water. Thisenhanced formulation contains a blend of clarifiers, chlorine scale preventer and water softener. Finally, it provides visible blue action, so you know it is working!

For crystal clear pool water, follow our HoP® step pool care program:

WATER BALANCE:
Download the FREE Test Kit App for your smartphone for expert water analysis, product recommendations, and dosage instructions.
Adjust and maintain pool water to recommended range:

<table>
<thead>
<tr>
<th>Acceptable Range for Balance</th>
<th>Recommended Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Dissolved Solids</td>
<td>200-300 ppm</td>
</tr>
<tr>
<td>pH</td>
<td>7.2-7.6</td>
</tr>
<tr>
<td>Chlorine Hardness</td>
<td>Above 200 ppm</td>
</tr>
<tr>
<td>Available Chlorine</td>
<td>1.4 ppm</td>
</tr>
</tbody>
</table>

NOTE: Follow label directions for each product and allow all products to dissolve and disperse before adding additional products to the pool. Always check all labels for clarity before adjusting levels. See if a test kit or test strips that measure all these ranges.

HOW TO USE:
Use only a clean, dry scoop to measure this product. Do not use the scoop for any other purposes. DO NOT use in hot or unordered pools.

METHOD FOR DROPPING DIRECTLY INTO POOL:
Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product by pipe, broadcast the product evenly over a wide area of the pool. As with any granulates, treat the bottom of the pool, use a hose to disperse until completely dissolved. Uncontrolled granulates may cause backwashing or other damage to pool surfaces.

METHODS FOR SUMMER ADDITION:
Make sure that filter pump is on and properly circulating through cleaners. Unplug all chemicals and accessories. Circumvent may cause an imbalance or the release of toxic gases. DO NOT use this method when an automatic chemical shocking device (e.g., feeder) is present. How this product slowly acts, making sure that the material is drawn into the system at the same rate. DO NOT allow the material to accumulate as toxic gases may be generated.

Test free available chlorine residual with HoP® pool test kit or test strips. Do not enter pool until the free available chlorine residual is at least 4 ppm. Be extra-safe treated and existing pools in prohibited levels above 4 ppm chlorine for risk of bodily injury.

OPENING YOUR POOL:
Balance pool water per levels in WATER BALANCE section. Add a shock dosage of this product. Repeat dosage, as needed, until the free available chlorine residual is at least 4 ppm. Follow label directions for each of these products.

For every 10,000 gallons:
| For 30,000/25,000 POOLS: Add 7 oz of this product per 10,000 gallons of pool water. | 2 oz
| For 50,000/20,000 POOLS: Add 11 oz of this product per 10,000 gallons of pool water. | 2 oz
| For 75,000/15,000 POOLS: Add 16 oz of this product per 10,000 gallons of pool water. | 3 oz
| For 100,000/10,000 POOLS: Add 25 oz of this product per 10,000 gallons of pool water. | 4 oz

STORAGE & DISPOSAL:
Keep this product dry in a tightly closed container when not in use. Elbows in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not re-use or refill this container. Remove empty container thoroughly with water to dissolve all material prior to disposal. After recycling if available. Do not contaminate land or water bodies by disposing of it in the sink or, in a toilet, or in surface water in residential areas. Improper disposal of this product can result in damage to soil and vegetation.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
BURNING SMOKE: Causes irreversible eye damage and sensible irritation. Harmful if swallowed, absorbed through skin, or inhaled. Deposit in a vapor or dust in a well-ventilated area. Avoid breathing dust and fumes. Do not get in eyes, on skin, or on clothing. Do not handle or come contact with hands. Wear protective eyewear and use rubber gloves. For additional protection of skin, wear long sleeves and long pants. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contamination clothing before reuse.

PROOF ADD:
In ENDS: Hold eyes open and immediately rinse with water for 15-20 minutes. Remove contact lenses, if present. After the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Remove all contaminated clothing before reusing. Call a poison control center or doctor for treatment advice. If SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person take a glass of water if the person is able to swallow. Do not induce vomiting unless instructed to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If INHALED: Move into fresh air. If conscious, but is breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. If ON EYES: Rinse eyes for 15 minutes or until pain subsides. Call 911 or an ambulance, then give artificial respiration. Preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Do not use product in a water basin or fountain. Do not add this product directly to your swimming pool or spa. Apply no more than 1 oz per 1000 gallons. Do not blow, pour, or spread into drains.

PHYSICAL AND ENVIRONMENTAL HAZARDS:
If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and fume. Do not pre-mix or add water to this product. Do not add this product directly to your swimming pool or spa. Do not mix with other materials, including other water treatment products, to cause intense fire, explosive gases, or the release of toxic gases. Keep out of the reach of children. Keep out of direct sunlight. Do not store this product in a water basin or fountain. Do not use this product in a water basin or fountain.

Environmenral hazards:
This product is toxic to fish and aquatic organisms.

HOW TO CALCULATE POOL CAPACITY IN U.S. GALLONS:

<table>
<thead>
<tr>
<th>POOL SHAPE</th>
<th>FORMULA (Dimensions in feet)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rectangular</td>
<td>L x W x A x 7.5 = total gallons</td>
</tr>
<tr>
<td>Oval</td>
<td>(L x D) x 5.8 x A x 7.5 = total gallons</td>
</tr>
<tr>
<td>Round</td>
<td>(W x D) x 3.14 x A x 7.5 = total gallons</td>
</tr>
</tbody>
</table>

To calculate your pool's capacity, visit ltdsports.com/calculatetoolstapeloop.

SHOCK TREATMENT / SUPER CHLORINATION:
As a preventative treatment, shock treat your pool once per week with an HoP® shock treatment. Add an additional shock treatment every 10 days to control algae water. Control swimming pool in water, and to ensure proper circulation. Circumvent may cause backwashing or other damage to pool surfaces.

FURTHERING:
Schedule and 32 oz of this product per 10,000 gallons of pool water that is clear and clean. Run the filter pump until granulates are completely dissolved. Cover the pool with a cover. Protect the water pump, filter and other components for entry/exit by following manufacturer's directions.

NOTE TO PHYSICIAN:
Possible reaction between this product and the elements of public health.

IN CASE OF EMERGENCY CALL: 1-800-654-0801

Do not open to contain three levels above 4 ppm chlorine for risk of bodily injury.
